Income Tax

Income Tax Returns were never as difficult to prepare as now. That is provided the taxpayer gets the benefit of all the provisions of recent decisions. The farmer who is holding his wheat or the sheepman who has unsold wool or sheep on hand can take the benefit of his inventor's and adjust returns for all past years. The man who has sold his crops or livestock and owes some tax for the past year, may have a sufficient refund coming in prior years, to take care of the 1920 tax.

The merchant has special problems this year on inventories.

The man who has sold a farm or an outfit may not be required to pay on profits therefrom if a recent decision is applied.

Your Income Tax advisor should be an accountant who is thoroughly familiar with all the "ins" and "outs" of the Revenue Service.

We have handled thousands of cases of Income Tax Returns.

We have cases in the files just like yours and know just what the Department has ruled on these in the past.

BOTH MARCH AND MAY WHEAT SHOW DECLINE

Both the March and May wheat slumped today, March wheat closing at 1.63 after opening at the same figure, while the May wheat closed at \$1.50 5-8 after opening at \$1.52. March wheat closed at \$1.65 5-8 yesterday and May at \$1.54.

Following are the quotations received from the Chicago Board of Trade by Overbeck & Cooke:

	Open.	High.	Low.	Close.
March	1.63	1.44 1/4	1.61	1.63
May	1.52	1.53	1.49 1/2	1.50 5/8
July	.66	.64 1/2	.65 1/2	.65 1/2
Sept.	.67 1/2	.68 1/2	.67 1/2	.67 1/2
Nov.	.43 1/2	.43 1/2	.41 1/2	.41 1/2
Jan.	.42 1/2	.42 1/2	.42	.42 1/2
March	1.41 1/2	1.41 1/2	1.38 1/2	1.39 1/2

July	.62	.62 1/2	.62 1/2	.62 1/2

Wheat—Sentiment was decidedly bullish today but the break all came in the first hour and the market thereafter showed stubborn resistance to selling pressure. The consolidation of statistics put before the trade during the past few days has been the subject of much comment the majority of analyses reading the optimistic conclusion, that with a normal demand from now until the end of the crop year, requirements and supplies will be on an approximate equilibrium, whereas any increase in either foreign or domestic takings will in the final reckoning mean near exhaustion before another crop can be gathered. In this connection, it is interesting to note that mills throughout the country are steadily increasing their output and are buying more wheat now than for several months.

It is generally conceded that stocks of flour at all positions are substantial. On the other hand, foreign demand is of a somewhat different color, a voice from most European countries intimating that they will not want our wheat at present because of the cheapness of the Argentine. This is not likely to be a permanent factor, however, as any big buying in the Southern Hemisphere would soon adjust the disparity and turn European buyers back to this country, if they really want the wheat, as they probably do.

WILL ATTEND DANCE
Dr. and Mrs. M. S. Kern and Mr. and Mrs. Mark Barthel will motor to Hermiston this evening to be guests at a dance at the new auditorium, to be given by business and professional men of the west end city in honor of their wives.

TROUBLE ENDS VERY QUICKLY

When we received the following letter from Mrs. G. J. Hurd of Witter Springs, California, we were rather skeptical as to some of the statements it contained, so we had one of our own men make a personal call on Mrs. Hurd and verify every statement. The letter follows:

"For twenty-five years I suffered with rheumatism. I was never out of pain and my limbs were so swollen I seemed deformed. Could only stand on my feet for a few minutes at a time and was almost a helpless cripple. I had given up all hope and life held no pleasure for me. During all this time I tried many remedies, spent months at the hot springs and was treated by physicians but temporary relief was all I received. I had little faith in Anti-Uric at first, your claims were so mild and I seemed to get worse after using the first outfit. But I continued and the results were wonderful. The swelling in my limbs disappeared, the pains ceased and I could walk without the aid of a cane. Even stormy, wet weather and exposure do not affect me."

"It has been over two years since I have used Anti-Uric and I have had no trouble whatever. My weight has increased from 84 to 170 pounds. I eat anything I please and am as active as a girl in her teens. I owe all my health and happiness to Anti-Uric and do hope that those suffering with rheumatism will not neglect this wonderful remedy for I know it cures."

This letter should prove to all suffering with rheumatism that Anti-Uric is the master of that dread disease in all its forms. No matter how long you have suffered, try Anti-Uric and if it does not help you your money will be refunded. Anti-Uric is for sale by The Pendleton Drug Co. and Thompson Bros.

Every dollar which is spent for a product out of town is permanently lost from Pendleton. Pendleton is enjoying prosperity ahead of many other towns similarly situated. We attribute this largely to the loyalty of a great many Pendletonians.

This is the reason why we adhere so strongly to Pendleton products. That is the reason why we steadfastly refused to handle Portland Bread. When you patronize the Economy you stand for a better Pendleton.
