

WHAT PENDLETON GRADE SCHOOLS ARE DOING

LINCOLN SCHOOL.
The teachers are doing nicely in their work. Lela Emrick is registered in First A. Four girls and two boys in First B, and others, are expected to enter it close next week.

Dorothy Jack was among the first grade pupils promoted to the third grade last week. Through an error, her name was omitted in last week's list. In spite of absence because of sickness, Dorothy succeeded in doing the second grade work in half a year and was promoted with high standing to the third grade at the beginning of the new semester.

Thirty-nine pupils are now enrolled in the second grade room. These pupils are working in three divisions. Mrs. Ideman and Mrs. Baker are assisting Miss Maxwell in the work.

Many children are absent because of illness, from the third grade.

The fourth grade won the neatness pennant this month. They are working hard at long division.

The fifth grade has five of its members absent on account of sickness. Margorie Richardson, Letoria Greenleaf,

Dale Edwin, Gladys's Shady, and Vivian McAllister.

The "state legislature" in the civics class of the fifth grade is doing some very earnest work in making good laws.

Almost everyone in the grade was anxious to be in the "Parliament of the Pilgrims" which is to be given soon, but so many characters were not needed some had to be left out. The class is working for Palmer Method progress pins in writing.

The following took part in the Parent-Teacher meeting Friday afternoon: Henrietta Rosenthal, Barbara Lichtenhan, Nina Gorcham, Vivian Warner, Oliver Leedy and Hobbie Miller.

A new pupil, Minnie Welch, has been admitted to the sixth grade.

Seventh and eighth grade pupils are taking great interest in the "Parliament of the Pilgrims" which is to be given soon.

Eighth grade pupils are now studying the life of Lincoln.

The eighth grade pupils have started the Parent-Teacher's pennant and hope to keep it for the rest of the year.

STORM BREWS IN HOUSE AT HINT OF CUTTING ARMY TO 150,000 MEN

Wilson Remains Mum on Attitude While Congressman Says Harding Favors the Low Figure, Members to Fight on Floor.

WASHINGTON, Jan. 31.—Storm warnings were up in the house today over proposals of the appropriations committee to cut the regular army down to 150,000 men.

The appropriation bill making provision for that number was reported by Chairman Anthony of an appropriations sub-committee, but it was indicated that republican members of the military committee planned to fight it out on the floor.

Unwilling to Reduce.

Several members asserted their unwillingness to accept reduction below the 175,000 figure fixed by house and senate recently in a resolution which reached the white house today for consideration of the president.

Under the resolution, which directs recruiting be stopped until the present enlisted strength of more than 200,000 gets down to 175,000, the army would not reach the lower strength before next September. The proposed cut to 150,000, however, would presumably leave the war department without funds or authority to maintain a force in excess of that number after June 30.

There was speculation among army officials today as to what action President Wilson would take on the 175,000 resolution. No indication had been seen as to the attitude of Mr. Wilson. Chairman Kahn of the military committee said he believed it would be a mistake to cut the army below 175,000 at this time.

In reference to Representative Anthony's statement yesterday that President-elect Harding favors the 150,000 figure, Representative Kain said that in his conference at Marion he got the impression that Mr. Harding regarded that step as advisable "ultimately" but not at once.

U. S. POOR PLACE TO BE A MOTHER, AND BABES HAVE PRECARIOUS TIME

House Committee Makes Report on Bill to Appropriate \$1,480,000 for Safeguarding Health of Infants and Mothers.

WASHINGTON, Jan. 31.—(A. P.)—Motherhood is safer in any of 17 foreign countries than in the United States and babies in 10 other countries have a better chance of living through their first year, according to the house commerce committee's report today on the Sheppard-Towner bill to appropriate \$1,480,000 for safeguarding the health of mothers and babies.

The report classed the bill as emergency legislation and said there was practically no opposition to it.

The committee found, it said, that maternal and infant mortality in the United States was not decreasing, statistics before it showing a 15 per cent increase in deaths from child birth between 1919 and 1920.

Infants under one year of age are dying from preventable ailments at the rate of 250,000 a year, the report said.

"In rural sections studied, it was ascertained," the report added, "that 80 per cent of mothers receive no advice or trained care preceding the birth of children."

PACIFIC COAST BASE SELECTION IN TANGLE

WASHINGTON, Jan. 31.—(A. P.)—The subcommittee framing a report on the selection of naval base sites on the Pacific coast again failed to reach an agreement and adjourned today until Monday. The selection of Alameda as the site for the main fleet base is in controversy despite the fact that the full committee voted in favor of that site recently.

If the deadlock over Alameda continues Monday the joint committee will probably submit recommendations for the location of aviation, submarine and other Pacific coast bases, and ask further time to decide on the San Francisco Bay site.
