HICK PARTS WONDERFUL  
FUN, SAYS CHARLES RAY

Hick parts? Some people call them that, but Charlie Ray thinks they're wonderful, wholesome, and true to life.

"As a matter of fact," he says, "they're real small-town types such as you find in James Whitcomb Riley or Booth Tarkington."

"As I read these parts I see that they have depth, and I try to portray them with depth. They are really character studies in my opinion."

Perhaps this attitude accounts for Charles Ray's unqualified success as a

## FOR SKIN TORTURES

Zemo, the Clean, Antiseptic Liquid, Just What You Need. Is Not Greasy

Don't worry about eczema or other skin troubles. You can have a clear, healthy skin by using Zemo. Obtained at any drug store for 35c, or extra large bottle for \$1.00.

Zemo generally removes pimples, blackheads, blotches, eczema and ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid, neither sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable. The E. W. ## ALTA SUNDAY AND MONDAY

William Faversham, long a celebrity of the stage in America and England, has become a star of the screen. He is appearing in a series of Silences Pictures, the first production being "The Man Who Lost Himself," which will be shown at the Alta theatre next Sunday and Monday.

In this romantic mystery drama, the player who once delighted hundreds of thousands as "The Squaw Man" and "The Hawk," appears as an adventurous American who is "up against it" in London. A chance meeting in a hotel throws an opportunity his way which proves to be more than he bargained for, overnight he becomes an English Earl, a situation which would have been quite pleasant had it not been complicated by the presence in London of the Earl's wife and relatives.

Incident crowds upon incident; the complications pile up on one another, but character wins out. For Victor Jones, of Philadelphia, proves to be a finer and nobler Earl of Rochester than Rochester could hope to be. There's many a dramatic situation, with enough comedy and romance to terminate to please the most fastidious.

This photoplay, it is said, reaches as high in quality as any production in which Mr. Faversham has appeared during his entire career. It was written by H. de Vere Stacpoole and directed by George D. Baker. The supporting cast includes a number of noted players.

SOCIETY WOMAN PERMITS  
PLEBS TO LOOK AT HER  
FINERY, GOOD INFLUENCE

CLEVELAND, Jan. 31.—Acting on the philosophy that "to be happy you must make others happy," Mrs. Myrtle Perkins Swingle maintains "open house" in her home to the public every Tuesday night.

"The objects of these gatherings," Mrs. Swingle said, "are primarily constructive and will, in a small way, help to overcome prejudice and spread the ideals of friendship and good will. There is nothing to John; no dues to pay. The admission price is one smile and they all pay it cheerfully."

The idea started, Mrs. Swingle explained, when several young men who roomed at her home complained of getting lonesome.

"I went out and invited all my neighbors and friends in to spend an evening," she continued. "We had a fine time. But why, I asked myself, should we board our fun selfishly? We ought to let everybody in."

The next Tuesday night we invited everybody who wanted to come. I consider my home is merely mine to hold in trust for a little while. And while I have it, I will use it to help brighten the lives of others."

Mrs. Swingle is assisted in entertaining by her daughters, Eva Mae, 20 and Mildred, 17. One hour is set aside for discussion of some topic, after which piano playing, singing and dancing is indulged in.

Mrs. Swingle announced that several other Cleveland women, influenced by her example, are preparing to do likewise.

OXFORD COLLEGE TO BE  
REPRESENTED BY ILLIN

CHICAGO, Jan. 31.—Lincoln College, Oxford, England, is to be represented at the dedication of the Social Center Building of the Wesley Foundation at the University of Illinois February 15th.

John Wester, the founder of the Methodist Episcopal church was a Fellow of Lincoln College for 26 years. In recognition of that fact the seal of Lincoln College has been carved over one of the bay windows of the new Wesley Foundation building at the University of Illinois.

The rector of Lincoln College in accepting the invitation to be present wrote: "We are much interested in your foundation, and your recognition of the historical connection with Lincoln College."

The exercises in connection with the dedication will cover four days, beginning February 14th and closing February 18th. Representative churchmen will be present from all over the United States and Canada. Four of the bishops of the Methodist Episcopal church will take part in the program: Bishops Thomas Nicholson of Chicago, Wm. McDowell of Washington, F. J. McConnell of Pittsburgh, and Theo S. Henderson of Detroit.

## PARCANT PUT ON

A pageant put on by the University of Illinois students will be a feature of the exercises. This pageant will show John Wesley as a student at Oxford University as well as some of the later episodes of his life. The closing episode will be an international one and parts will be taken by foreign students of the university—Chinese, Japanese, Philippine, Hindustani, and Latin Americans.

Two of the most beautiful rooms in the building will be set apart for the use of the 220 foreign students of the university, and will be known as the international rooms.

The Social Center is the first of a group of buildings which the Methodist Episcopal church has under way at the University of Illinois under its centenary program. The entire group will cost well over \$1,000,000. The architecture is Gothic and the material used is Bedford stone.

Among the trustees of the Wesley Foundation are Bishop Thomas Nicholson of Chicago and Mr. W. A. Heath, the president of the Chicago Federal Reserve Bank. Dr. James C. Baker, the director of the foundation has been in charge of this work at the University of Illinois for 14 years.

SEAMAN'S UNION ASKS  
FOR WHITE MAN'S CHOW

SYDNEY, Australia, Jan. 31.—The changes which have taken place in the demands of seamen as compared to the times when "salt horse" was the chief food in the forecabin, are shown by a new set of requests just formulated by the Seamen's Union. They ask that their menu should include canned fruits, condensed milk, Worcestershire and tomato sauces, rolls and scones, bacon and eggs, boiled eggs, steak and onions, soup, trifle, stew, roast beef, mutton, veal, assorted salads, cakes, plum pudding with sauce, custards, jellies. "Salt horse" was not on the list. Enamelled utensils and clean tablecloths three times a week are insisted upon.

MAYOR BAKER CALLS  
OFF DEMPSEY MATCH

PORTLAND, Jan. 31.—(A. P.)—The Portland boxing commission at a meeting today was called by Mayor Baker to decide to call off the proposed Dempsey match here in April. The mayor held such a match savored too much of "prize fighting."

LIEUT. KILLED IN GERMANY.  
COBLENZ, Jan. 31.—(A. P.)—Lieut. Clarence M. Cutler of Massachusetts was killed and Lieutenant Chester P. Dorland of San Diego, Calif., seriously injured in an airplane accident at noon today, when their plane went into a tail spin and crashed.

Painless Parker  
and His Name

By Painless Parker

I AM the man who made the name "Painless" famous in dentistry. All over the country there are dentists who have put the word "Painless" in front of their names, and they all got the cue from me. Whether they are able to do painless dentistry as successfully as I have done is another matter.

In all our twenty-eight Parker Dental Offices painless methods are employed. My associates have been trained to use them, and really they have become so skilled that I have to hustle to keep up with them.

Anybody who neglects his teeth because of the fear of pain is fooling himself. You can't realize what can be done without hurting until you actually have some dental work done the E. R. Parker System way.

When you think of TEETH think of PARKER.

You bet it's rube stuff! The scheming city guy who gets his clause on to the farm—the blue eyed country girl who elopes with him to the city—the rube brother who hikes out after her—and all the quaint old folks of Peaceful Valley—they're all in it! But isn't that the sort of a story in which you like Charlie Ray best, with the humor, the sob and hefty wallop? Isn't it?

COLOMBIAN BERRIES  
MAY GROW ON PACIFIC

WASHINGTON, Jan. 31.—(A. P.)—Predictions that the Colombian berry, discovered in a hitherto unexplored forest region of the South American Republic for which it was named, would revolutionize the American berry industry in the same way that the naval orange, also of South American origin, marked an epoch in the history of citrus growing, are made by officials of the department of agriculture.

Extensive experiments which the plant blackberry, described by explorers of the Agriculture Department as four times the size of the American variety, have been begun by the division of foreign seed and plant introduction, which plans to distribute to new discovery to farmers after determining in that climate it will grow best.

In a report to officials here, Wilson

Popence, an agricultural explorer who was sent to Colombia to investigate the discovery of the new berry by Dr. Frank M. Chipman of the American Museum of Natural History, declared that only the extreme isolation of the region where the giant grows in profusion could account for the fact that it had not long since been given to the horticultural world. Plants and seeds thus far introduced to this country were brought by Mr. Popence from El Tenor, between Sibate and Fusasmarca, in the department of Cundinamarca, where the plant is said to be found in great abundance.

As yet experimenters are uncertain

whether the berry can be transplanted to this country without loss of some of its native characteristics, because of the peculiar climate of the region where it was found.

While the plant grows in Colombia at an elevation of 10,000 or more feet, it is said to be improbable that it would survive at similar elevations here or in the mountainous regions of lower South America. The climate of the Colombian mountains is tempered by their proximity to the Equator.

Attempts to cultivate the new berry in North America are expected to be most successful in the South and West, and also along the Pacific Coast.

When the Grip  
Leaves You  
With a Cough

EPIDEMICS OF LA GRIPPE often leave many persons with persistent, wearing coughs that hang on for months if neglected. There is one reliable family cough medicine that helps from the very first dose. It relieves the tightness and soreness, covers the inflamed surface with a soothing, healing coating, loosens and aids in expelling phlegm and mucus, clears the air passages, eases hoarseness and banishes the nervous tickling in the throat. That remedy is

Foley's  
Honey and Tar  
COMPOUND

It contains no opium, morphine, chloroform or other injurious drug. It is an old-time home remedy combining the curative effects of pine tar and honey with plants and herbs found in forest and field.

## Banned La Grippe Coughs

Lewis Newman, 500 1/2 North 3rd St., Charleston, W. Va. "I am glad to tell you that Foley's Honey and Tar is the best remedy for lung trouble I have ever used. I have been down sick ever since January and nothing would do me any good. I was full of cold. I had the grip all winter until I got two bottles of Foley's Honey and Tar. I used 1 1/2 bottles. I am glad to say I can't feel any more cold in my chest."

Foley's Honey and Tar Compound gives prompt relief from coughs, colds, hoarseness, tickling throat, whooping cough, spasmodic croup and bronchial coughs.
