HAWAIIAN-JAP SLAYER WILL FIGHT GALLOWS

Shaza Shibata, murderer of M. Okamoto, Japanese gambler, will fight to save himself from the gallows. The Hawaiian-Japanese ex-criminal, arrested at Athena Saturday afternoon a few hours after the murder and his fight, is alleged by officers at the county jail to have confessed all and to have decided to fight for his life.

Shibata has retained Attorney Fred W. Steiner to defend him, the sheriff's office reported today. The district attorney's office has not yet taken any action in the case but will file shortly with the justice court an information charging him with murder in the first degree. District Attorney H. L. Keator indicated today.

"He took all my money. I mind. I kill him," Shibata told the officers when he was returned to jail Saturday afternoon. He related in detail the story of a night's gaming and drinking in the basement of the Japanese pool hall where the murder was committed. His story was corroborated by J. Shizaki, eye-witness to the killing.

Shibata was unarmed when captured or he would have committed homicide, he told the officers. It is considered more honorable by the Japanese to kill themselves in such a situation than to allow the legal authorities to take their course. Now that Shibata is in jail he wants to make the most of his chances to escape the gallows.

HE HAD TO SLEEP SITTING IN CHAIR

Portland Man Was in Pain All the Time From Rheumatism Until He Got Taniae.

"It was six months ago that Taniae set me straight and added fifteen pounds to my weight, and ever since then I have been enjoying as fine health as I ever did in my life," was the statement made recently by O. W. Axelson, of 224 Cook Avenue, Portland.

"Seven years ago I had an awful attack of rheumatism," he continued, "and it kept pulling me down until during the past year I wasn't able to work more than half the time. My whole left side became affected and it pained me so I could hardly touch it. My leg was drawn and crooked and if I tried to straighten it out I simply suffered agonies. I was in pain all the time could never sleep to do any good and was often unable to lie down and would have to sit in a chair all night long. My appetite went down to nearly nothing and I fell off in weight."

"I had no idea Taniae could do me much good after all the many treatments and medicines I had tried had failed, but it proved to be a winner. In a short time the pains commenced to let up and I could straighten out my leg without its hurting me. And in little more than a month I could not feel a trace of the rheumatism and had actually gained fifteen pounds in weight. This was six months ago and I have not been troubled in any way whatever since. I am in the very pink of condition, eating fine, sleeping fine and working hard every day. Taniae has meant health to me and I give it my heartiest endorsement."

Taniae is sold in Pendleton by Thompson Brothers.

Stomach Teeth

Your whole system depends for its health and strength on the stomach. The stomach, in turn, depends on the teeth. The very foundation of health is therefore laid at the first step in food conservation—the act of chewing. Food improperly chewed enters the stomach in a wrong condition; and it brings about a wrong fermentation which causes first, indigestion, then kindred ailments, later ulcers, and finally in the last stages, cancer. The proper chewing of the food will prevent these things. Chew your food plentifully; teach your babies the art of chewing.
