FAILURE OF GREECE TO BUY REDUCES WHEAT

CHICAGO, Feb. 8.—(A. P.)—Wheat prices turned downward yesterday, influenced considerably by failure of predictions that there would be liberal export buying for Greece. The market closed unsettled, 2 1/4 to 2 3/4 net lower with March 1.54 1/2 to 1.54 3/4 and May 1.44 3/4 to 1.45.

It has been much talked of that Greece would be in the market for wheat enough to warrant increased confidence by bulls. Nothing, however, developed and bears contended that with Argentina, Australia and India pressing to supply Europe the export business from the U. S. could no longer be depended on to maintain domestic values.

GERMAN PREMIERS IN SESSION OVER DEMANDS

BERLIN, Feb. 8.—(A. P.)—The premiers of the federated states of Germany were in session until late this evening over reparations, the meeting being followed by the announcement that unanimity prevailed. The speech of Foreign Minister Simons had been given unqualified endorsement by the representatives of Bavaria, Baden, Wurttemberg, Saxony and the other states, it was stated.

The invitation for Germany to send representatives to the London conference is construed as indicating that the allies expect Germany to submit counter proposals. Leaders of German industry and finance have been arriving the past few days for consultation with the government economic experts.

Much of the present comment warns the government against pinning its faith on the new Washington government supplying Germany with moral backing. These commentators urged the government to present Germany's case strictly on its own merits.
