MISS TODD IS HONORED

Miss Virginia Todd, whose marriage to Dr. G. E. Holt will be an event of the near future, is being honored today by a miscellaneous shower for which Mrs. R. Raymond and daughter, Mrs. H. S. McKenzie, are hostesses at the Raymond home on Water street.

No formal announcement of the engagement of Miss Todd and Dr. Holt has been made, although friends of the couple have known of the betrothal. Both are very popular in social circles in Pendleton. Miss Todd who is a girl of charming personality is the daughter of Mr. and Mrs. R. C. Todd of Hermiston. During the war she was active in canteen work and it was largely through her efforts that a Red Cross canteen service was established here. She was accepted for overseas work but because of the closeness of the war she did not go abroad, taking instead a position here as secretary of the Red Cross. Besides other activities, Miss Todd is a prominent member of the Daughters of the American Revolution, and one of the officers of the organization.

CANADIAN PREMIER HAS STIFF PROBLEMS AHEAD

OTTAWA, Ont., Feb. 14.—(A. P.)—Tense political situations will confront the Meighen government when the fifth session of the 13th parliament of Canada is opened. Reverses suffered by the government in recent bye-elections have resulted in announcements by the opposition that they will make efforts to force a dissolution of parliament and a general election. The coming session will be the first in which Arthur Meighen will figure as premier. Since the ratifications of the peace treaty by the Dominion, there has been a demand by the opposition for an election on the ground that the government held a war-time mandate only. There were also defections in the ranks through the growth of the farmer movement, especially in the western provinces, farmer members favoring drastic reduction in the tariff. At present the government claims a clear majority in the house of from 18 to 20. Revision of the tariff will be chief business today. It is intimated by cabinet members that the new tariff will recognize fully the "protective" principle.

Individual members of the government have expressed their views of the Fordney emergency tariff bill, now before the United States senate. It is expected that the new Canadian tariff will be effected by the Fordney measure, should the latter become a law. Apart from the tariff, the government's legislative programme so far as indicated is not heavy.

Rheumatism Comes From Tiny Pain Germs

First of all, get it firmly fixed in your mind that all the liniments in the world have no effect whatever on Rheumatism.

A very common form of Rheumatism is caused by millions of tiny disease germs which infect the blood. The one and only sensible treatment, therefore, is one which cleanses the blood of these germs, and routs them entirely out of the circulation.

This is why S.S.S., the greatest known blood purifier is so successful in the treatment of Rheumatism. It is a powerful cleanser of the blood, and will remove the disease germs that cause your Rheumatism, affording relief that is genuine.

S.S.S. is sold by all druggists. Free literature and medical advice can be had by writing to Chief Medical Adviser, 164 Swift Laboratory, Atlanta, Ga.

of Russians probably for the purpose of holding them up, according to advices received today by Admiral Strauss, commanding the Asiatic fleet.

The sailors were visiting outlying districts of Vladivostok when they encountered a group of Russians believed to be former army officers, his report said, and during an argument and attempted holdup the Americans were fired on and two of them wounded.

Russian police arrested a number of civilians who were believed to have instigated the trouble.

The affair has no international aspect warranting the presence of Admiral Strauss at Vladivostok, his report stated. Naval officers declared the affair was considered closed. Admiral Strauss departed last night for Olongapo for inspection of naval stations.

Mouth Disease

Do your gums bleed? Do you suffer from Pyorrhea? Have you abscesses on your teeth? Listen! Pus pockets form at the roots of these teeth and poison the whole system by the discharge of virulent germs. Many headaches are due to this gradual poisoning; joint troubles, "rheumatism," have been scientifically traced to this source; heart affections, often serious, follow this so-called "rheumatism." Good teeth are priceless; but a tooth with a pus pocket at its root is almost as vicious as a cancer. Pyorrhea is not painful usually and one is apt to let it go unnoticed. Watch for those bleeding gums—they are your warning.

The Bulletin constantly has been obliged to change offices in consequence of military raids, but continued to be secretly produced. Fitzgerald, who has been the main
