**How To Break Up a Cold**  
It may be surprising to many to learn that a cold may be completely broken up, in most instances, in one or two days' time. To do this, prompt action is necessary. The first symptoms of a cold are a dry, loud cough and a profuse watery discharge from the nose. Take Chamberlain's Cough Remedy every hour as soon as those symptoms appear and it will contract the effects of the cold and soon restore the system to a healthy condition. When the cold is unusually severe, you should also go to bed and stay in bed until all symptoms of the cold have disappeared. One or two days in bed, now, is better than two or three weeks later on. This applies particularly to persons of middle-age or older.

**This May Interest You**  
If you have coughs or colds you will certainly be interested in the experience of Thomas O'Brien, Marysville, Mo., which he relates as follows: "I have taken Chamberlain's Cough Remedy off and on for several years and it has always cured these complaints promptly. It gives me better satisfaction than any other cough medicine I have used."

**As Advertised**  
You will find Chamberlain's Tablets just as advertised. Easy to take and mild and gentle in effect. For constipation they are excellent.

**Something You Should Know**  
An agreeable movement of the bowels without any unpleasant effect is produced by Chamberlain's Tablets. They should be taken immediately after supper.
