## Lives to See the Prescription He Wrote in 1892 the Worlds Most Popular Laxative Remedy

DR. W. B. CALDWELL TODAY Born Shelbyville, Mo., March 27, 1859 Began the manufacture of his famous prescription in 1892

Founder of Dr. Caldwell's Syrup Pepsin, the largest selling liquid laxative in the world, long past Biblical old age, but hale and hearty—Still sees patients daily—Wonderful achievement of a "country doctor."

WHEN I started to practice medicine, back in 1875, there were no pills or tablets or salt waters for the relief of constipation, and no artificial remedies made from coal tar.

The prescription for constipation that I used early in my practice, and which I put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid remedy, and I have never had reason to change it. I intended it for women, children and elderly people, and these need just such a mild, safe, gentle bowel stimulant as Syrup Pepsin.

I am gratified to say that under successful management my prescription has proven its worth and is now the largest selling liquid laxative in the world. The fact that over eight million bottles were sold by druggists last year proves that it has won the confidence of mothers whose chief interest is the health of their children.

It is particularly pleasing to me to know that the biggest half of those eight million bottles were bought by mothers for themselves and the children, though Syrup Pepsin is just as valuable for grownups. The price of a bottle holding 50 average treatments is sixty cents; such a bottle will last a family several months.

I have never made a secret of what is in Dr. Caldwell's Syrup Pepsin. It is a compound of Egyptian Senna and other simple laxative herbs with pepsin and pleasant-tasting aromatics. These ingredients are endorsed in the U. S.

Pharmacopoeia. I consider Syrup Pepsin today in the serious 82nd year of my age, as I did in 1892, the best remedy a family can have in the house for the safe relief of constipation and its accompanying ills, such as headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds and fevers.

Millions of families are now never without Dr. Caldwell's Syrup Pepsin, and I believe if you will once start using it you will also always have a bottle handy for emergencies.

Considerable discussion is going on among the land owners and all are anxious to gain all the information possible on the subject before election.

Rumor has it that the Standard Oil Co. is getting busy leasing a body of 3000 acres of land lying somewhere between the Umatilla and Columbia rivers and the reason for securing this tract is for oil drilling purposes. If this is true it cannot be a great ways from the Umatilla project and along with the large water power plans on the Columbia River, the future may mean a great deal to our community, by the accomplishment of such developments.

Many farmers attended the pruning demonstration held at the P. P. Phipps orchards Friday of last week. Several different methods of pruning fruit trees were used and trees which were pruned will be pruned by the same men for three years and a record kept, the result being known at the end of that time, which method is best to employ for the future.

Professor C. L. Long of O. A. C. who conducted the school spoke at length upon the subject at a meeting held in Hermiton in the evening. Fred Benelon, county agent, who assisted with the work throughout the day was present.
