"Chickens" Shows Fine Directing—Jack Nelson Responsible for New MacLean Picture.

Douglas MacLean's latest Paramount-Leslie comedy, "Chickens," is the second of his comedies to have been directed by Jack Nelson, the first having been "The Rookies' Return." Possessing originality and creative ability, Mr. Nelson has handled the clever comedy situations of "Chickens" in a manner new to screen technique. It will be shown at the Arcade theater next Sunday.

Mr. Nelson's record, prior to entering the directorial field, consists of many screen appearances in leading and featured roles, and of several years on the legitimate stage. He recently signed a contract to direct a number of Douglas MacLean productions for Thomas H. Ince. Gladys George in Mr. MacLean's leading woman in "Chickens."

Stranger Sleeps in Other Twin Bed, Wife Wild!

If you are a loving wife, and if you discovered a man other than your husband right in your bedroom, in fact right in the other one of your twin beds, what would you do?

That's exactly what happened to Mrs. Harry Hawkins and she expected her husband to walk in any minute, too.

Mr. Hawkins had gone out early in the evening on business and his wife had retired at her usual hour, without a sign of anything amiss. Imagine her dismay when on waking and tripping dithely over to wake

babby, she beheld another man, wearing her husband's pajamas and a high silk hat!

Report has it that Mrs. Hawkins became terrified at that moment by the entrance of her husband. However, you can discover in what manner she handled the situation when you see the screening bed-room farce, "Twin Beds," which Mr. and Mrs. Carter DeHaven are presenting in picture form, and which comes to the Alta Sunday and Monday as the latest First National attraction.

PASTIME SUNDAY-MONDAY

"Choosing a Wife." Novel Story of Man Who Proposes Marriage to the Wrong Woman.

"Choosing a Wife," the First National attraction which will be shown at the Pastime Theater, starting Sunday, answers the question of whether a young and beautiful girl should attract a man of middle age more than a woman only a little younger than himself.

In this picture, which is filled with remarkably dramatic situations, a woman well past the first bloom of youth, through a strange series of circumstances is led to believe that a distinguished scientist, who has left to explore a remote part of the world, has proposed to her.

ANDRA, SHE DRINKS BLOOD

Fern Andra and Korthur in German Film

Introducing Ladies and Gentlemen, Miss Fern Andra.

Let's forget, Fern once flourished on the American vaudeville stage and worked in the old Essanay studios at Chicago.

Now she is one of the four leading screen stars of Germany.

Fern in the German films out-Baras Theda Bara.

Take "Genuine," one of her latest. In that she's obtained by an old

duck who held the lucky paddle at a slave raffie.

He puts her in his cellar. She is hungry and the only thing that sates her appetite is blood. The warmer the better. Ugh!

Can you picture this scene getting by our censors?

The German excuse for the film is "Art."

"Queen Isabella" is another film in which Fern Andra stars.

AMERICAN PRODUCTS DISPLAYED IN SHOPS

ATHENS, Feb. 21.—(U. P.)—America's popularity is one of the most patent things in Greece today.

Shop windows are filled with American wares—safety razors, American patent medicines, sewing machines, musical instruments and other necessities and luxuries. On the street one sees in an American automobile and three-fourths of them are "fifivers."

Movie shows display almost entirely American films and Charlie Chaplin, Mary Pickford and Douglas Fairbanks head the list, while Greek five ten and twenty-five drachma notes, printed in America form the chief legal tender visible.

During the Constantine festivities American flags were displayed probably more profusely than all the rest of the allied powers together.

At the present time Greece is flooded with Greece-Americans. The general feeling contains scores of Greeks who have spent many years in America. All speak English fluently and the majority are determined to return to America as soon as the emigration bars are lifted. Their vision of the future is embodied in the words of one John Paparagopolos, captain of police.

"Yes, sir; Ah authinly is gwine back to America soon Ah can make de grade. Ah been homsack for a long, long time."

John spent four years heaving cotton bales on the wharves of New Orleans. That's where he got his language.

How To Break Up A Cold

It may be surprising to many to learn that a cold may be completely broken up, in most instances, in one or two day's time. To do this, prompt action is necessary. The first symptoms of a cold are: a dry, loud cough and a profuse watery discharge from the nose. Take Chamberlain's Cough Remedy every hour as soon as these symptoms appear and it will counteract the effects of the cold and soon restore the system to a healthy condition. When the cold is unusually severe, you should also go to bed and stay in bed until all symptoms of the cold have disappeared. One or two days in bed, now, is better than two or three weeks later on. This applies particularly to persons of middle-age or older.

This May Interest You

If you have coughs or colds you will certainly be interested in the experience of Thomas O'Brien, Marysville, Mo., which he relates as follows. "I have taken Chamberlain's Cough Remedy off and on for several years and it has always cured these complaints promptly. It gives me better satisfaction than any other cough medicine I have used."

As Advertised

You will find Chamberlain's Tablets just as advertised. Easy to take and mild and gentle in effect. For constipation they are excellent.

Something You Should Know

An agreeable movement of the bowels without any unpleasant effect, is produced by Chamberlain's Tablets. They should be taken immediately after supper.

MUCH TIMBER IS SAVED BY AIRPLANE PATROLS

NEW YORK, Feb. 21.—Airplane patrols guarding national forests saved approximately \$35,000,000 worth of standing timber from forest fires, during the last season, according to a report of the Manufacturers' Aircraft Association made public today.

Between 300 and 1000 fires were reported by patrols from airplanes loaned to the forest service by the army air service. Most of these fires it was said, were extinguished by ground forces working under directions of the air patrols.

Efforts are being made by the association, its officers said, to secure a larger appropriation from congress in order to carry on and extend the patrol work.

The work for the most part has been carried on in Oregon, California, Colorado and other western states.

DEMAND CURTAINS FOR WAX MODELS

LOS ANGELES, Feb. 17.—(U. P.)—It looks like "curtains" for the bold, bad women of wax.

Authorities are pondering over a request by a delegation of local women moralists, who demand that wax figures of women in display windows or downtown stores be dressed and undressed behind drawn curtains.

Crowds of men, sometimes numbering 200, say these women, gather and watch while the garments are removed from the mannikins—or womanikins—before they are tucked away for the night.

Frequently, it is charged, the models are entirely denuded of gowns, corsets, teddy—well, everything.

Traffic often is blocked, the delegation added.

"EASY TO MAKE A MILLION"

Work, work, and work some more! Get money in back of your work. Then you'll make a million a year. That's what David Wark Griffith says. He makes a million a year. He is the greatest movie director in the world. He says:

"There is only one way to make any business a success. Get money, and lots of it. You can get all the money you want, if the public knows you, believes in you."

"Give the public what it wants. It may be a dish strainer or potato knife. If you produce what folks want you can make a million a year."
