STATE HAS INDIAN FUND, BUT NO INDIANS

BRIDGEPORT, Conn., Feb. 25.—(U. P.)—When Bridgeport was founded, and a few hundred souls settled around the mouth of the Pequonnock river, a tribe of friendly Indians lived on Golden Hill, now in the center of this city of 150,000 and occupied by the county courthouse. That was not so long ago, not earlier than 1790. Gradually, the Indians became unable to support themselves. In 1802, the general assembly of Connecticut, appropriated the income of \$5,000 to care for them, and appointed an Indian agent to administer the fund.

By later legislative decree, that fund and the position connected with it passed to the clerk of the superior court of Fairfield county, and today Fred W. Tracy, clerk of the court, has \$38.13 which still remains to relieve needy Indians. Clerk Tracy was not aware of his trust until the other day, when in examining some old files, he discovered an ancient bank book.

The last survivor of the tribe of Indians to receive aid was William Sherman, an individual of 300 pounds and more, who passed to his happy hunting grounds in 1855. No trace of living survivors can now be found.

Clean Teeth Never Decay

Because the bugs can't find a place to build their nest on clean surfaces science finds millions of these bugs in a small place no bigger than a pin head. They are great acid makers and keep busy making acids to dissolve the teeth.

Are you going to stand for it? Be clean, safe and healthy.
