Nominal Livestock Markets in Portland Yards

There was again a nominal run and a nominal market for livestock at South Portland with only a scant showing of arrivals were indicated during the day.

Only in the hog alley, was there a fair supply available for the Friday trade at North Portland. Demand in the district was good, especially in view of the fact that Eastern values have been climbing for some days and it would cost more to bring in Eastern stock than the local market price.

Export Business

Italian Chicago Market

CHICAGO, Feb. 26.—Export business together with some investment buying rallied the wheat market yesterday after fresh declines. The close was strong at the same as yesterday's finish to 1-4 higher with March 1.67 1/2 to 1.87 1/2 and May 1.57 3/8 to 1.58. Corn gained 1/8 @ 3/8 to 1; oats 1/4 to 3/4 and provisions 17 to 40.

Wheat bulls obtained the advantage in the last half hour of the session. Previous to that time the market had been depressed by continued selling that was mainly ascribed to bearish aspects of the industrial outlook. Gossip that the government report on farm reserves March 1, would prove to be against the buying side tended also to weaken the market. On the downward swing of prices, however, European demand revived and it was estimated that 1,400,000 bushels had been purchased for export. A quick rally in prices followed and there was lively buying at the last, much of it on the part of the shorts, but also a considerable amount that appeared beyond question to be for investment. Talk of Haspian fly danger in the northern section of the wheat belt counted somewhat as a late bullish factor.

Corn and oats rallied with wheat. Smallness of rural offerings of corn attracted a good deal of notice. Higher quotations on hogs gave a lift to provisions.

Wool Values Fairly Steady

BOSTON, Feb. 26.—The Commercial Bulletin today will say:

The wool market has been only moderately active during the past week, but values are fairly steady here. In the foreign markets, due largely to the withdrawal of American competition, prices have slumped.

"The emergency tariff is still in conference, but is not expected to become law, although it is still causing hesitation in the market. The American Woolen Co. opened overcuttings and women's wear this week, with a fair response on the part of buyers,

more especially on women's wear. Prices are down about 45 to 50 per cent compared with last year. Some small buying is reported in the bright wool sections at last week's rates."

Scoured basis:

Oregon—Eastern, No. 1 staple 80¢ @ 90; eastern clothing 65¢ @ 70; valley No. 1, 65¢ @ 70.

Territory—Fine staple choice 85¢ @ 95; half blood combing 75¢ @ 80; 3-3 blood combing 55¢ @ 58; quarter blood combing 45¢ @ 48; fine and fine medium clothing 45¢ @ 50.

With a Wrench and a Screw Driver

It is wonderful how a powerful electric plant like the LALLEY—a plant that does so many things and does them so well—can be so simple and so accessible.

When you consider that the LALLEY LIGHT and Home Electric Power Plant has only three moving parts; when you consider that this great piece of machinery can be assembled and dissembled in a very few minutes, with only a screw driver and a wrench to do the work, it is even more remarkable.

The LALLEY is the most simple mechanism of its kind made.

—This is why the LALLEY seldom gets out of order.

—This is why it is so inexpensive to maintain—so easy to operate.

The simplicity of the LALLEY is just one of its unusual features. It has so many good points—there are so many things about its splendid construction, that you must see it in actual operation to know it, and better understand it.

Come in and let us go over the plant from top to bottom—inside and out. If it's not convenient for you to do so just now, drop us a card asking for the LALLEY Book. It will give you many valuable pointers on the saving of time, work and money.

IT'S NEW IN CHICAGO.

It's a new style that Chicago girls set after half-ones came into popularity. Garters in bold colors, with frills on them; and in order that the attractive arrangement may not be in vain, short skirts with a five or six-inch slit in the back, which opens when the wearer walks.
