 - March 15—Last day for filing of income tax reports for 1932.
 - March 17 and 18—Millinery school, here.
 - May 11 to 14—State Parent Teacher Association convention.

Will Show Safety Movies
Movies of accidents and means of preventing them will be shown by the O. W. R. & N. at the high school next Tuesday afternoon at 4 p. m. as a part of a nation wide campaign of instruction. The pictures are declared to be exceedingly interesting and will prove of much value to residents of this city. In the evening of the same day the pictures will be shown in the auditorium of the county library for the benefit of the older people.

Mr. Dayton Convalescing
F. W. Dayton, who has been seriously ill with smallpox, is convalescing.

Gas Is Distributed
Fred Hennion, county agent, is at work today distributing a carload of gas to Pendleton farmers. The gas was ordered through the Umatilla Farm Bureau as a part of the county gas and distillate project.

Subjects Announced
"Following Awar Off" was the topic for an address last night at the special meeting of the Christian church, held by Rev. W. G. Gressman. Tonight he preaches on "The Advance Toward Calvary." Tomorrow night will be "Lodge Night" and all fraternal organizations in the city have been asked to attend.

Mother Is Burned
Glen Webb, elevator operator at the federal building, was called to Baker last night by the news that his mother, Mrs. Adela Webb, was fatally burned while starting a fire with kerosene. She apparently thought the fire was thoroughly extinguished and by pouring oil started a blaze which

burned all the clothing off her body except her shoes. Mrs. Webb was alone at the time. She was found by her son, Leon Webb, when he came home for his noonday meal. It remains a mystery why the house failed to catch on fire. Mrs. Webb was taken immediately to the hospital, but efforts to save her life were unavailing.

Paul Robbins Visits
Paul Robbins, forest ranger, was in the city yesterday on route to Pilot Rock, where he is stationed, from Duran. He visited the Duncan station on Puchey.

Trees Are Pruned
With the coming of spring, local people are pruning their trees. Shade trees, of which the majority are locusts, are being pruned. In some cases the trees have grown so tall as to interfere with the electric light wires.

Visitor In City
Albert Peterson, Ukiah merchant, garage owner and hotel manager, is in the city today. He has been appointed sub-agent for the insurance companies for which Coult & Averill of this city are agents and is here to confer with them today.

Local Branch To Meet
The Pendleton branch of the American Association for the Recognition of the Irish Republic will meet tomorrow night in the Knights of Columbus hall at 8 p. m. Local people in charge of the meeting are extending an invitation to all interested people to attend.

Arraign Harry Curnow
Harry Curnow, alias Smith, who was brought back from Portland following a search of nearly a year, was arraigned in the justice court yesterday afternoon on a charge of "larceny by bailment." He will be given an examination by the court Thursday afternoon. C. H. Penland is the complaining witness.

\$1200 Short In Drive
Pendleton lacks about \$1200 of its quota of \$7,000 for the Chinese-American relief drive, says Joseph N. Scott, county chairman. The total secured to date in this county is \$7,500. Yesterday Mr. Scott and Casper Woodward visited the Athena Civic Club and after a talk by Mr. Scott, the members donated \$50 to the fund.

Plant Is Moved
The Athena plant of the Warren Construction Co. has been dismantled and the erection of the plant at Blue Mountain, north of Weston, began today. Five and a half miles of the Pendleton-Walla Walla road is yet to be paved, the stretch being from the existing paving south of Milton and the existing paving north of Weston. This will be completed by the end of August. A detour will be necessary in about two weeks.

X-Club Holds Meeting
Members of the X-Club met last night in the council chambers of the city hall in regular session. A number of interesting subjects were discussed among them being one by Judge James A. Fee on "Centralization of Power in the General Government." J. Murphy gave an interesting talk on the subject of municipal finances. The members present last night decided to hold a banquet on April 5. Committees were appointed to look after the program and dinner.

Whiskey Story Doubtful
The story of George Rugh and Bill Johnson, juveniles who have been apprehended for burglarizing the Coffman home, that they had found whiskey in the ruins of the Golden-West Creamery plant, is doubted by employees at the plant. The boys, according to the story, sold the liquor for \$25 a quart. The employees declare that there was no whiskey in the plant and had there been, it would have been impossible for the boys to steal it as a nightwatchman has been on duty every night since the fire.

New Machine Installed
A recent addition to the equipment of the Simpson Auto Co., distributors of Ford, is an air and water machine known as the "Rotom" and the first of its kind in the city. The machine permits a 17 foot spread for the air hose and by means of an air valve, the tube may be adjusted to any angle. It does away with the old method of leaving the hose laying on the pavement. Another novelty of the Simpson Auto Co. is a snow-white Ford truck, ornamented with gilt. It has been equipped with solid rubber tires and will be shown at the coming Pendleton Automotive Show, March 10, 11 and 12.

Club Asks Information
Word has been received by R. C. Tucker of Community Service, from the Boardman Commercial club asking for information concerning the work of the service. The Boardman club is desirous of instituting a like system to control the activities of the various clubs of their community. An application from G. L. Sovereign of Wenatchee for the position as director of boys activities in Pendleton had been received by Mr. Tucker. Mr. Sovereign has had a number of years experience along this line of work. The drive for funds for the service begins today and those in charge are enthusiastic over the prospects of securing the quota in short order.

Pitcher Is Released
Ed Pitcher was given an examination in the justice court yesterday afternoon on a charge of receiving stolen property. After the taking of testimony in the case it was dismissed by Justice Parks. Pitcher stated before the court that he had found the articles, declared to be stolen from the Peoples Warehouse, at the city dump yards and had brought them to the store of George Demott. Demott told him, he alleged, that the property was his by rights and could be sold. Thereupon Pitcher sold the property to Demott. Demott, who is charged with the same offense, waived examination and is being held under \$100 bonds for appearance before the grand jury.

I. W. W. LEADERS APPEAL TO COURT

WASHINGTON, March 2.—(U. P.)—"Big Bill" Haywood and 75 other leaders of the I. W. W. convicted of violating the espionage and selective service laws, have appealed to the supreme court to set aside the prison sentences and fines imposed on them.

The I. W. W. were convicted in the federal district court of Chicago, conviction was upheld by the circuit court of appeals. Attorneys for Haywood and others will now ask the supreme court for a writ of certiorari so the entire case may be reviewed. It was finally decided. The main ground on which the I. W. W. ask reversal is that search warrants used by the federal agents to seize the papers of the organization were invalid.

Verily.
"This bill for \$1000 for removing wrinkles and straightening my nose is an outrage!"
"Ah, madame, but you must remember, beauty is skinned deep!"
—Diamond Times-Dispatch.

STUDENTS URGED TO TAKE EXAMINATIONS

BERKELEY, Cal., March 2.—(A. P.)—University of California students are being urged by Chief of Police August Vollmer to take examinations for posts on the Berkeley police force. There are already six university students on the force and more are wanted.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the blister and without the blister. Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears.

Use Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

HEAD COLDS
Melt in spoon; inhale vapors; apply freely up nostrils.

Women as well as men are wanted on the eligible lists for positions in the department, the women to do stenographic work. The police work can be performed outside of classroom hours.

"No single individual in any community has greater opportunity to render service than the sympathetic, intelligent and trained policeman," Chief Vollmer said in announcing examinations.

"We want men who are energetic, alert, courageous and humane. They must have self control and never be unfair, rude, passionate or officious. They must be able to grasp the fundamental principle of crime prevention and have the ability to cooperate with social service agencies to curb poverty and unemployment."

"Regardless of what people have thought of policemen in the past, the fact is that the policeman of the future is a combination of the physician, lawyer, diplomat, social worker, scientist and priest."

EDUCATIONAL TOOTH TALK NO. 21

Gold Crowns

There is more to a good gold crown than the average person realizes. A crown to last well, to look well and to fit well, necessitates many operations before it is completed and set. Several very important points must be considered in gold crown work and when it's made right it's one of the most lasting, serviceable operations in dentistry. When it's made wrong it often causes the loss of your tooth.

My modern crown prices are placed to fit both the tooth and the pocketbook. Satisfaction assured.
