## ELEVEN YEAR OLD BOY TO STAND TRIAL FOR KILLING COMPANION

**Cecil Burk Will Face Murder Charge at March Term of Indiana County Court; Is of National Interest.**

LA PORTE, Ind., March 2.—The trial of Cecil Burkett, 11 year old, who is charged with first degree murder following the death of Bennie Slavin, a boy of his own age, from a rifle bullet, will begin at the March term of the Starke county circuit court, sitting at Knox, south of La Porte county. A minimum of publicity accompanied the shooting at Ora near Knox last Thanksgiving. The county assessor dismissed the case as an acquittal at the January grand jury met, when an indictment was returned. The following week the weekly paper at Knox carried a little item under a one-line head. Seldom did a weekly paper yield an item that was carried further on telegraph wires, after the eagle-eyes of the exchange editors pounced upon it. Indications now are that anatomists, psychologists, child specialists and vitators workers from all parts of the country will be present at the trial. The accused lad is at his father's farm house at Ora awaiting trial, \$10,000 bail having been furnished by friends of the family.

Prosecuting Attorney James A. Ditts says the shooting was due to bad feeling among the boys. Cecil and his brother Alfred, 9, and Frederick Scherman, 7, were playing in the Burkett back yard. Bennie Slavin and his sister Clara, 8, were in an adjoining yard. Cecil called to Bennie to come into his yard, but the latter refused. Cecil then held out a kite and tempted Bennie till finally he crossed into the other yard.

When the prosecutor says Cecil reopened an old squabble and in cold blood shot the younger boy, the bullet entering the right side at the back. The shooting was done with a .22-caliber rifle, property of the Burkett family. The wounded boy died a day later.

The Burkett boy denies the version of the prosecutor, saying he was cleaning a martin house at the top of a pole, his rifle leaning against the side of the house. He was taking some straw into the house to burn it when he heard a shot and a yell, and saw Bennie Slavin running away and the gun was on the ground. He says he did not have a quarrel with Bennie.

Bennie Slavin was the son of a merchant, and his sister Clara will be an important witness. Clara says Cecil threatened to kill her and Bennie before Bennie was shot. Alfred Burkett, brother of Cecil, also tells of threats, it is said, while Bennie's parents say that twice before Bennie died he said, "Mother, Cecil Burkett shot me."

Michael Burkett, father of the youthful slayer, is a dredge hand, and there are six other children in the family. The father of the victim is Harry Slavin, a clothing merchant, who has three other children. The two families were neighbors and friends.

Prosecutor Ditts is to picture the slain child as a chivalrous little hero who was shot down in going to the defense of his little sister, and that the Slavin boy was shot during the quarrel that followed.

## HEAVY INCREASE

**Revenue Grows 20 Per Cent.**  
The rate increase as granted is a reduction in each instance of the application rate filed by the company, and is estimated to increase the gross annual revenue by 20 per cent. Approximating a 20 per cent general rate increase it is in strong contrast to the 45 per cent increase demanded by the company in its submission of a proposed new rate structure.

There is more to a good gold crown than the average person realizes. A crown to last well, to look well and to fit well, necessitates many operations before it is completed and set. Several very important points must be considered in gold crown work and when it's made right it's one of the most lasting, serviceable operations in dentistry. When it's made wrong it often causes the loss of your tooth.
