The Fordson Tractor

The Fordson has many friends in Umatilla county because of its dependability and freedom from repairs and trouble. Its ability to keep going day after day either plowing, harrowing, discing, seeding, moving grain or hay, hauling or any kind of belt work, will make itself, in a short time, as valuable and indispensable to you as any one of the present owners.

We ask that you give us the opportunity to show you, at our expense, that it will do what we claim for it and more.

Our allotment for this territory this year is small and we ask that you arrange for a demonstration as soon as convenient, so that we may have your order in time to insure your delivery this spring.
