Trade Reports
Still Irregular,
NEW YORK, March 5.—(A. P.)M

Bradstreet's today says; Trade and industrial reports convery irregular, varying, indeed, with almost every line and market reporting, but while general characterization is difficult if indeed not imessible, it may be said that the apparel and food trades, while noting cau-tious buying, present about the most cheerful advices and exhibit the chief

strength, whereas many so-called ba-

sic trades, and notably iron and steel,

the other metals, coal and building materials reflect the least optimistic feeling and native weakness, feeling and native weakness.

Even within these two great classifications, however, varying degrees of pricks or prints 52; country creamery and strength are noted and pricks or prints 52; country creamery activity and strength are noted, and extras cost to jobbers, in cubes, 48c; it is difficult to depict except at great storage 38c@41.

length the different shades of acivity and price changes. Thus, in the apparel trades the weakness of raw cot-ton has been imparted to many staple ton has been imparted to many staple products, such as yarns, print cloths and sheetings, and the underwear trades, dependent upon the great southern staple, also reflect some depression.
