SWISS MINISTER DOES NOT EXPECT TROUBLE

PARIS, March 5.—(A. P.)—Confidence that in any case which might arise between Switzerland and the league of nations a settlement satisfactory to both sides would be reached, because of the growing closeness of their relations was expressed at the closing session of the council of the league today by Dr. Alphonse Durrant, Swiss minister to France.

Dr. Durrant made this statement in reply to observations to the effect that Switzerland had delivered a blow to the moral prestige of the league by refusing right of way across Switzerland to the league force for police duty during the plebiscite in the Vltava area.

In view of the present status of the conflict between Poland and Lithuania it is not expected in league circles that the league force will ever be called upon to proceed to Vltava.

WINS FREE SUIT ON INAUGURATION DAY

SPOKANE, March 5.—(A. P.)—A Spokane supporter of Parley Parker Christensen for president today acquired a free suit of clothes on the inauguration of President Harding.

The former laborer entered a leading clothing store and picked out a suit for which he placed \$25 on the counter.

"Take the suit and keep the money," said the store manager, Sidney L. Gradwohl.

"But what do you mean?" replied the customer.

"This being inauguration day, I decided to give away the first suit of clothes selected by a customer," said Mr. Gradwohl, "and if it is not asking too much, will you tell me whether you voted for Harding?"

"Frankly, many thanks," declared the man as he departed from the store with the suit. "I voted for Christensen."

GERMAN NAVAL EXPERT GIVES AIRCRAFT DATA

SAINT BLAISEN, Baden, March 5.—(A. P.)—Admiral Alfred Von Tirpitz, German naval authority, is an interview today, gave his views on the influence of aircraft upon future wars. He discounted the Zeppelin airship as too much subject to wind and too vulnerable for ordinary reconnoitering. The airplane, in his opinion, has a much greater future as it has an economic importance for traffic which will tend to perfect it for war purposes.

While the airplane has taken a high place in land fighting as a substitute for cavalry, Admiral Von Tirpitz said it had not developed its usefulness to the same degree in sea reconnoitering, but that was probably due to the weakness of the airplane, which waterplans of the future might conceivably overcome.

The Admiral reserved his opinion on the possibility of effective attacks by airplanes upon battleships but clearly showed that he doubts that airplanes will become a great menace to the warships, as he pointed out, the latter will develop devices for defense while heavily loaded airplanes will always be in danger of counter attacks from lighter machines.

"In comparison with ships," he said, "airplanes will always have a fundamental disadvantage in their small loading capacity especially when they are to be used on a wide expanse of ocean. From a study of the history of naval warfare, the greatest exponent of which was an American, I am persuaded that the nature of naval forces will not change with a jerk but will develop organically, for development takes some time which only in imagination and fancy can be skipped. In this respect, the late war has not effected any fundamental alteration, although, of course, the rate of technical development is much faster than formerly."

"Please Cure My Friends"

WILL you give sight to my friends also?" inquired a Chinaman from whose eyes a cataract had been removed in Chanteh hospital. The 77 Presbyterian hospitals in nine countries annually treat 350,000 patients. To finance this work and that of thousands of schools, colleges, teachers, preachers, and various industrial enterprises Presbyterians annually give each church member and friend an opportunity to pledge for benevolences.

EVERY MEMBER CANVASS
Sunday, March 6

Each of the 10,000 churches has been given a quota—its share of the total amount fixed by a central authority as fair to expect for the fifteen Boards and Agencies. Teams of two will visit each family with pledge cards. Each person is asked to give according to his ability. Let every Presbyterian stay at home Sunday afternoon until the canvassers call.

If you are not visited, telephone the pastor. Omissions may occur. If you are not connected with another church and would like to contribute to help make the world better, get in touch with the nearest Presbyterian church.

The slogan of every church: "Oversubscribe the quota."
