Don't Fool With a Cold

(From the New York Sun.)
We must repeat our warning against pneumonia, the most dangerous disease that prevails in this city, and which is extraordinarily prevalent at this time. Be on guard at all times against taking cold. Look out for it. If you take it, Gladstone used to go to bed and send for a doctor whenever he had a cold and consequently he got well in a very short time. "The Sun" is right and their warning should be heeded. For colds, Chamberlain's Cough Remedy is excellent. It always cures and is pleasant to take. Persons past middle age should go to bed and take this remedy until recovered.

Chamberlain's Cough Remedy is a certain cure for bad colds. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and aids nature in freeing the system of all symptoms of the cold. It is not a palliative that simply gives relief. It cures. They Make You Feel Good. The pleasant purgative effect experienced by those who use Chamberlain's Tablets and the healthy condition of body and mind which they create makes one feel joyful.

What You Need for Constipation.
When troubled with constipation, what you need is a remedy that will produce a free movement of the bowels. A remedy that is mild and gentle in its action. A remedy that leaves the bowels in a natural and healthy condition. A remedy that is easy and pleasant to take. Chamberlain's Tablets meet all of these conditions. Try them and see for yourself. They only cost a quarter.

HIGH SCHOOL TEACHER RECOMMENDS TANLAC

Professor Gross of Kingston, Says This Medicine Has Done a Wonderful Work in His Case.

"What I needed was just an afternoon's rest," said Prof. W. L. Gross, popular instructor in the high school at Kingston, Wash. Professor Gross is also a ranch-owner and is prominent in the civic and social affairs of this community. "For several months I suffered from loss of appetite and gradually became badly run down. My stomach seemed all gone, I scarcely had any energy and my work became tiresome. I ate so little that I lost considerable weight, and at times I had headaches when it seemed that my brain was just one bunch of throbbing pain and I felt tired and drowsy almost all the time.

Then, too, I was suffering with rheumatic pains in my hips, which became so severe at times I could scarcely walk, and at night I seldom got any sound sleep.

"Observing the advertisements of Tanlac relative to its reconstructive properties, I decided to try the medicine and see if it would restore me to health. "Well, I have taken six bottles now and my appetite is splendid. I relish every meal and have gained considerably in weight. My strength has returned and my work is once more a pleasure. Besides building me up and relieving me of that tired, drowsy feeling, Tanlac has helped my rheumatism so much I scarcely notice it any more. The fact is, the medicine has done a wonderful work in my case and I am glad to recommend it."

Tanlac is sold in Pendleton by Thompson Brothers.

Lantern Out Friday.—The second number of the Lantern for the second semester will be distributed among the students on Friday. The paper is an exceptionally newsy sheet and is receiving a great deal of praise from high schools with which it exchanges papers. The best feature of the publication is that it is more than self-supporting. John Beckwith Jr., is the editor for this year.

Committee Chosen.—Three members of the senior class have been chosen as a graduation committee to select speakers for graduation and to make out programs for the events which characterize graduation. The committee has met and have made a rough draft of class day and commencement day programs. As yet no speaker has been chosen to deliver the commencement address which will be given on June 2, in the high school auditorium. The committee consists of David Swanson, chairman, Miss Mary Clark and Miss Thelma Blanchette. The commencement invitations are expected to arrive within the next few days. They were in the form of a plain engraved card giving the date and place of the exercises. They were printed by Bastian Bros. of New York who contacted for the class pins and rings.
