CITY OFFICIAL PAPER

FIRST MEANS OF RELIEVING BUSINESS DEPRESSION IS BY INCREASING FOREIGN TRADE

When News of This View Became Known Interest in Visit of Former Premier Increased

WASHINGTON, March 19.—(U. P.)—Several members of the Harding cabinet hold the view that the first means of relieving the existing business depression is by increasing the foreign trade; to do this they say America must have a voice in whatever association of nations is functioning. When the news of this view became known it greatly increased the interest in the forthcoming visit of former Premier Viviani of France to discuss with Harding the possibility of getting the United States to enter a modified League of Nations. Viviani sails for America today.

MARRIAGE IN JAPAN.
TOKYO, March 19.—(U. P.)—The rapid strides which Japan is making towards civilization find expression in an agitation which is now on foot to have women have more to say about the selection of husbands than is now the case. Today such matters are almost wholly in the hands of parents, who select husbands for their daughters, who obediently marry whomever they pick out. A recent article in a prominent Japanese magazine points out that while men never find any difficulty in securing mates, women must have money and training of one kind or another before they can find husbands.

PACKER EMPLOYEES PLACE THEIR DEMANDS BEFORE CONFERENCE

Union Leaders Have Announced If Demands Are Not Met Strike Will Be Called

CHICAGO, March 19.—(U. P.)—Packer employees will place their demands before the mediation conference in Washington Monday, and if they are not met a strike will be called. This announcement by the union leaders, when the count of the strike vote showed a majority of 44,000 favoring a walkout. The union will demand a restoration of a basic eight hour day and arbitration of the wage demands. The packers declared they could not arbitrate the question of a basic eight hour day, or 12 1-2 per cent cut in wages, recently effective. "They are economic necessities," the packers contend, "and therefore are not subjects of arbitration."

MARRIAGE NO LONGER A GAME OF LOVE

HOUSTON, Tex., March 19.—(U. P.)—Marriage is a business now—not a love game. That's the observation of Don Kennedy, marriage license clerk, in Houston.

"Girls around 20 know a boy of 21 can't support them," said Kennedy. "So they're looking about for older men—men who have established themselves and can provide homes and luxuries."

"Girls of 18 or 19 used to marry boys of about that age—or 24 maybe," he said. "Now these women are picking older men."

His license record for the last two months showed the women average at marriage 21 years, while the men average 25 years.

And there aren't any blushing brides or stammering bridegrooms any more, according to Kennedy. "Now they breeze in as if they were ordering coffee and order a license without batting an eye," the clerk said.

UMATILLA COUNTY WILL SEND TWO DELEGATES

The Umatilla County Farm Bureau will probably send two delegates to the district meeting of the National Farm Bureau Federation to be held in Spokane March 23 and 24 at Hotel Davenport, in conjunction with the Washington State Farm Bureau annual meeting.

The meeting is a part of the Farm Bureau federation's plan which last year provided for the appointment of a "Committee of 17" to investigate grain marketing and grain conditions. At the district meeting delegates will be appointed to a national meeting to be held in Chicago April 15, and it is thought that one of the two Oregon delegates to be chosen will be from Umatilla county. Delegates to this national convention are based upon the wheat production. One delegate will be sent by the Oregon Wheat Marketing Association and the other by the Farm Bureau of the state.

Co-operative Plan Theme
The meeting at Spokane and at Chicago will be of great importance as the principal theme will be the discussion of the co-operative movement which has for its aim the pooling of wheat for sale in such a way as to meet, with profit for the farmer, the pooled offers of foreign buyers. The movement is reaching national proportions and in the opinion of Fred Benning, county agent, it will undoubtedly be organized on a national basis after the Chicago meeting. About 25,000,000 bushels of wheat have been shipped in Oregon, Washington, Idaho and Montana and plans are underway in California for a similar organization.

President to speak
Among the prominent speakers at the Spokane meeting will be J. H. Howard, president of the American Farm Bureau Federation; Wm. A. Day, Deputy Governor of the Federal Reserve Bank, San Francisco; W. A. Cochet, livestock member of the Marketing Committee, American Farm Bureau Federation, and W. G. Eckhart, a member of the marketing "Committee of 17."

"The devil drove me to it," said Decker after signing the confession. He denied that the transfer of his own clothing to Lovett's body was a part of a plan to collect insurance totaling nearly \$30,000, payable to his brother, Fred Decker, in the event of death by accident of Virgil.

CONTINUED DROP IN TODAY'S WHEAT MARKET

Closing at \$1.52 for the March grain and at \$1.42 for the May, the Chicago grain market shows a decrease today over yesterday's closing price. March closed at \$1.54 yesterday and May at \$1.45.

Following are the quotations from Overbeck & Cooke, local brokers:

	Open	High	Low	Close
Mar.	1.54	1.54 1/2	1.52	1.52
May	1.45	1.45	1.41 1/2	1.42

Wheat—Week end liquidation of long contracts was again the feature and in consequence the market failed to reflect the bullish tone of foreign advance, notably the fact the offerings of Argentine wheat to Great Britain and the continent are now held seven to ten cents over American prices. Apparently the trade gave more attention to the domestic situation which remains dormant with millers receiving flour orders on hand to month ends. Cash markets in the southwest were weak and lower but held comparatively steady here at slightly better premiums. In our opinion bearish influences have been quite well discounted and the market is in a position to rally sharply coincident with any alarming crop reports.
