ATHLETIC 'CREED' IS ANNOUNCED BY ANGELL

NEW HAVEN, Conn., March 22.—His "creed" in regard to intercollegiate athletics was outlined by President-elect J. R. Angell of Yale university, in his first address here last night.

"These," he said, "are the essential features of my athletic creed: Physical education of the helpful kind for every college student, particularly for the non-athlete, who is often a bit neglected, I want clean, honest intercollegiate athletics. If there are to be professional or semi-professional coaches, I want men who not only are technically expert, but are of essentially fine character. I should rather have a man of questionable character in any other position than that of athletic coach."

ZIONIST MOVEMENT ARE BUILDING NEW PALESTINE

By WEED MILLER (United Press Staff Correspondent.)

LONDON, March 22.—Sir Alfred Mond, First Commissioner of Works in the British Ministry (equivalent to Minister of Public Works), who has just returned from a visit to Jerusalem, is enthusiastic about the progress of the Zionist movement in Palestine. Sir Alfred is himself a member of the Jewish faith and has been spending some time with his co-religionist, Sir Herbert Samuel, High Commissioner at Jerusalem.

He says that Palestine is getting a very fine class of young Jews from the Ukraine and Galicia, having fled from Bolshevik persecution. Most of them are accompanied by their wives and intend settling down permanently in the Holy Land. "These young men and women, most of them belonging to the 'intelligentsia' class, and including university men with degrees, are road making, constructing railways and assisting in the reconstruction of the country with enthusiasm and real patriotism," he declared in an interview with the United Press.

"They lead a rough, hardy life, husband and wife literally pitching their tents by the roadside. Nearly all the work on the land is being done by Jews, some of whom have come great distances. One Persian Jew walked all the way from Persia to Bombay to get to Palestine. I also met some very interesting Canadian Jewish farmers, who had come from the other side of Winnipeg, and they had plans to bring over other groups with tractors and capital for working the land.

"The American group of Jews are doing wonderful work medically and the Zionist Medical Union has been

FIRE HAZARD STRONG IN NORTHERN IDAHO

MOSCOW, Idaho, March 22.—(A. P.)—That the fire hazard of the forests of northern Idaho is worse than in any other section of the United States was the statement made here recently by C. C. Delavan, fire assistant on the Coeur d'Alene national forest, in an address before forestry students of the University of Idaho.

"Although north Idaho's rainfall is more abundant than in many other sections, there is practically none during the months of July and August, when forest fires are at their height," he said. During this period, high westerly winds sweep the timbered sections having a powerfully drying effect. "We have the minimum of rainfall and humidity occurring when the winds temperature, sunshine and evaporation are greatest, a combination of factors which puts the forests in a most inflammable condition. In north Idaho the frequent spring and fall rains give rise to a very dense type of forest which creates an abundance of inflammable material and enables the fires to burn fiercely and spread."

Mr. Delavan recently was detailed to make an investigation of the climate factors affecting the fire hazard of the northern region, in conjunction with J. A. Larsen, United States forest examiner of the Priest river experiment station.
