CARDINAL GIBBONS LAID TO REST ON THURSDAY, MARCH 31

Body, Dressed in Robes of Office Lies in Upper Room of Archbishop's Home.

BALTIMORE, March 26.—(A. P.)—The body of Cardinal Gibbons, dressed in the robes of his office, lay tonight in the upper room of the archiepiscopal residence on North Charles street, which he occupied so many years. The multitude who called at the residence were told that the cardinal's body could not be viewed until it was placed in the cathedral Sunday night or early Monday. It was planned to have the guard of honor begin its first watch at 8 o'clock Monday morning and continue until 9 o'clock Thursday morning, the day of the funeral. Except for the announcement of the cardinal's death and requests for prayers for the repose of his soul, the services in all the churches today were unchanged. But at all masses tomorrow and until further notice, where rubrics permit, the prayer "pro defuncto cardinali" (for the dead cardinal) will be said by the clergy in all the churches in the archdiocese. Similar orders were expected to be issued by the bishops of the other dioceses in America. Nearly all the archbishops and bishops of the United States have sent word that they expect to attend the funeral. Archbishop Glennon of St. Louis will preach the funeral sermon. Further details of the funeral were not completed today. Rev. W. Carroll Mulholland of St. Mary's seminary will be master of ceremonies. Messages of respect and sympathy continued to pour in throughout today. Flags on all city buildings were placed at half mast today as a mark of respect to Cardinal Gibbons. Acting Mayor La Guardia directed that they remain in this position until after the funeral.

ER RABBIT IS ON THE JOB LAND SAKES, HE HAS A LOT TO DO BEFORE SUNRISE TOMORROW

INJURED AVIATOR HAS ONLY SLIGHT CHANCE, SPINE IS FRACTURED

NATCHESE, Miss., March 26.—(U. P.)—Lieutenant William Coney, the transcontinental aviator who was seriously injured here last Saturday, has about one chance in five to recover, the attending physicians say. Coney was brought here for hospital attention. An X-ray examination disclosed a spinal fracture and several minor injuries, according to Dr. J. P. Ullman. If the patient should survive doctors say he will be an invalid, for he is paralyzed below the waist. The young aviator is fully conscious and talks about the flight he will make the flight from the Atlantic to the Pacific yet if death or permanent injury does not stop me," he said. His mother is enroute from her home in Florida.

Second only to the nerve-racking responsibility imposed upon that one-suffering old gentleman, Santa Clause, are the burdens carried today upon the furry shoulders of His Eminence, the Easter Rabbit, who before the dawn of Easter Morn scurries about to fill very basket and nest with Easter eggs. So busy is he that it is doubtful if he had time to give Mrs. Rabbit so much as one Bunny hug this morning before flashing off to work. The eggs, it seems, are the ancient symbols of resurrection and commemorate the age-old festival, Easter, which marks the observance of the Resurrection of Jesus Christ, is celebrated on the first Sunday after the full moon that falls on or next after March 21. The word "Easter," like the days of the week, is a survival from the old Teutonic mythology and is derived from "Eostra," the Anglo-Saxon goddess of Spring, who heralds the end of winter and the coming of warmth and sunshine. And so, just as the earth blooms anew in leaf and flower, Mayday blossoms forth on Easter Day in the glad garments of Spring.

NEW YORK, March 26.—(U. P.)—James A. Stillman, president of the National City Bank, has "cornered the witness market" in his divorce suit against Mrs. "Fifi" Potter Stillman. The multimillionaire banker, through his attorneys and operatives, was careful to "line up" practically all persons who might have the remotest knowledge of the case before his wife was aware that he contemplated seeking a decree, according to persons conversant with both sides of the sensational scandal. One informant cited as an example the case of Isabel Armstrong, former nurse of the Stillman children. She was with Mrs. Stillman in the Canadian summer camp where the former was Fred Beauvais, a French-Canadian guide, who is charged by Stillman with being the father of two-year-old Guy Stillman. MARCH WHEAT HIGHER, MAY OPTIONS LOWER

An increase of three-fourths of a cent over the Thursday market for March wheat and a decrease of half a cent over the Thursday market for May wheat is shown in today's grain quotations. March grain closed at \$1.33 3/4 and May at \$1.41 1/4. Following are the quotations from Overbeck & Cooke, local brokers:

Wheat.				
	Open.	High.	Low.	Close.
March	1.33 3/4	1.35 1/2	1.31 1/2	1.33 3/4
May	1.42	1.43 3/4	1.40 3/4	1.41 1/4
Corn.				
	Open.	High.	Low.	Close.
May	.64 1/2	.64 3/4	.63 3/4	.64 1/2
July	.67	.67 3/4	.66 3/4	.67 1/4

Wheat—Opened lower on selling induced by the favorable weather market good buying against export sales which brought about a rally of 3 1/2 cents May and four cents in March, and then weakened again at the close. The late decline was attributed to a report from Kansas City free country offerings together with a decline of one to three cents in cash prices in that market. The local spot market was relatively steady, bearish sentiment is based largely on the excellent crop outlook overlooking that May wheat is an old crop month and selling at 14 to 15 cents under deliverable grades on cash wheat. This situation taken into conjunction with the probability that continued demand for export will prevent accumulation at terminals between now and the end of May contradicts the wisdom of pressing the short side at present.

RECENT TREATY SUCCESS 'MERE PAPER' VICTORY

No Food Surplus, Lack of Incentive for Heavy Planting Two Reasons That Are Given

PARIS, March 26.—The bolshevik government of Russia is enjoying "paper prestige," according to Nicholas Tchakovsky, a former Russian politician, once a resident of Kansas. Tchakovsky declared that private dispatches confirmed Secretary Hoover's assertion that Russia will find it physically impossible to exchange goods with other nations and justified America in refusing to trade with the Soviets. The recent treaty successes, providing for the resumption of trade were mere "paper victories," he said. Tchakovsky named the following obstacles to bolshevik trade: No food surplus, lack of incentive for heavy planting and the crippling of factories. The mineral resources are inaccessible because of transportation failure. Tchakovsky smiled over the possibility that Lenin was dropping his communist beliefs. Lenin will be leader until the crash comes, he said.
