Today's order amends an order issued on January 15 which increased Portland's gas rate. **Other Cities Affected**  
The cities of Oregon City, Hillsboro, Forest Grove, Gresham and intermediate points, as well as Portland are affected by the order. "The reduction will mean a saving of \$100,000 annually to gas users in the Portland territory," said a statement by the commission.

## Can't Help Praising Tanlac After It Ended His Seven Years of Stomach Trouble, Declares Nudelman.

"After a man has suffered as long and as much as I have he can hardly help praising the medicine that restores him to health," said M. Nudelman, 441 Ross street, Portland, who operates an auto stage between Portland and Vancouver, B. C. "For the past six or seven years I suffered terribly from a severe case of stomach trouble and my appetite got down to almost nothing. Nearly everything I ate upset me, and the gas and pain in my stomach would almost drive me distracted. I also suffered

from constipation and had awful headaches. I had rheumatism in my legs and feet so bad I could hardly drive my car. I was so nervous the least little thing would upset me and I was almost miserable.

"I kept hearing so much about Tanlac that I decided to see if it would help me and it proved to be the very thing I needed, for I gained eleven pounds on the first two bottles and after taking two more I am in the best of health again. My appetite is fine. I can eat anything I want without any discomfort afterwards. I am no longer worried with constipation or headaches and the rheumatism has entirely disappeared. My wife has also taken Tanlac with splendid results. Tanlac is sold in Pendleton by Thompson Brothers.

## Denver Girl Sings Record Note

Lon Milton, 14-year-old Denver singer, reaches the highest note ever recorded by the human voice—the second P above high C. The highest previously reached was the second D above high C, attained by Robert Murray (Inset), 12-year-old Tacoma, Wash., boy. Miss Milton's record is more than an octave higher than the highest notes sung by Tetrazzini, Galli Curci and Patti. Miss Milton is said to have a continuous range of four octaves.

## LARGE GRAN ELEVATOR IS DESTROYED BY FIRE

THE DALLES, Or., March 30.—Fire of unknown origin last night completely destroyed a large farmers' cooperative grain elevator at Mikhalo, a Sherman county town east of The Dalles, together with approximately 25,000 bushels of wheat stored in the elevator. The loss is estimated at about \$46,000, only part of which is covered by insurance.

The entire populace of the town organized to fight the fire, women and children working with the men in the formation of bucket brigades. The elevator was located in the outskirts of the town and burning constantly venting wind showered the business and residence districts with sparks and flying embers. It was soon realized that the elevator could not be saved, and the attention of the fighters was devoted to extinguishing roof fires that broke out in different parts of the town. Only by almost superhuman efforts was the fire kept from spreading.

The Mikhalo grain elevator was a community affair, owned and operated by farmers for the purpose of storing their wheat. A large part of the 1920 wheat crop was still in storage at the time of the blaze, the farmers holding the wheat in hope of higher prices.
