Hog Market

Weak in Portland

(From the Oregon Journal.)
PORTLAND, April 1.—While the East was firmer for hogs, North Portland failed weak; cattle were draggy and there was nothing available in the sheep alleys Thursday.

While one small lot of hogs went at \$12.25, a nickel above the extreme price quoted, the North Portland market in reality showed a weak tone for hogs Thursday. Only a small run was shown for the day, but these moved off within the former range.

General hog market range:
Prime light 12.00@12.25
Smooth heavy 12.25@11.75
Hogch heavy 8.00@10.25
Fat pigs 12.00@12.25
Feeder pigs 11.00@12.00
Stags 6.00@10.25

Slow demand continues in the cattle trade at North Portland. A small run appeared for sale in the alleys Thursday but killers were not keen bidders and were offering about a quarter less than former values.

General cattle market range:
Choice steers 7.50@ 8.00

Medium to good steers 7.00@ 7.50
Fair to good steers 6.00@ 7.00
Choice cows and heifers 5.00@ 6.00
Medium to good cows and heifers 4.00@ 5.00
Fair to medium cows and heifers 3.50@ 4.00
Common cows-heifers 4.30@ 5.20
Canners 2.25@ 4.50
Choice feeders 6.00@ 6.50
Fair to good feeders 5.50@ 6.00
Bulls 2.50@ 5.00
Choice dairy calves 12.50@13.00
Prime light dairy calves 11.50@12.00
Med. light dairy calves 9.50@11.50

There was no new sheep or lamb supply at North Portland Thursday and the trade was quite thankful for this small favor. There has been practically no whole hearted demand for mutton or lambs for some days past.

General sheep and lamb market:
East of mountain lambs 7.25@ 8.00
Willamette valley lambs 6.00@ 7.50
Heavy lambs 4.50@ 5.00
Cull lambs 4.50@ 5.00
Light yearlings 6.50@ 7.00
Heavy yearlings 6.00@ 6.50

Wethers 6.00@ 6.00
Ewes 1.50@ 3.25

Increased Business Is Reported

WASHINGTON, April 1.—(A. P.)—Business showed little indication this month of getting away from the uncertainties of the last year, according to the federal reserve board's monthly review. Some increased activities were noted but commerce apparently was waiting further developments before moving toward anything like normal.

Automobiles, textiles and footwear experienced temporary advances due to the spring season. The board's observers reported a buyers strike felt first last summer still showed an almost solid front. Where heavier sales are reported in wholesale and retail trade, they are ascribed wholly to local conditions. The only optimistic opinion was in connection with the unemployment situation, which the review said reflected slightly improved conditions attributed to the increased seasonal activity.

Reports from reserve banks touching agricultural communities indicate that the cry of the farmers for labor is being answered by persons driven out of cities through unemployment.

May Wheat Lowest Since 1916

CHICAGO, April 1.—(A. P.)—Wheat dropped in price yesterday to the lowest record which the May delivery has reached since 1916. Corn and oats went down to the 1915 level. Favorable crop conditions, together with continued general pressure to sell were leading bearish factors, wheat closing unsettled, 1 1/2 net lower to 1-2c advance, with May 1.25 1/2 to 1.32 1/2 and July 1.19 1/2 to 1.19 3/4. Corn lost 1/2 to 7-8; oats finished unchanged to 5-8 off and provisions up 5 to 19 to 12 1/2.

Prospects of a big yield of winter wheat did a good deal to intensify bearish sentiment regarding all cereals and especially so as to wheat.

A special source of depression in the corn market was an estimate which was circulated that corn planting in the south would be increased six million acres this season, as a result of reduced cotton production. Canadian competition was more or less effective in weakening oats.

Higher quotations on hogs gave a little strength to provisions.

DUCKS IN OREGON

PORTLAND, Or., April 1.—(U. P.)—"From all indications, there will be a great many more ducks in Oregon and Washington next season than is usual," said United States Game Warden R. C. Steele, upon his return from a 10-day trip throughout the district. "There should be a good early shooting at the opening of the season, October 1. I have noticed more marking than usual, and the ducks seem to be staying in the northwest," he said.

"Shop" for the Dealer As Well as the Auto

If you could get a 10 per cent reduction of the price of the car you want by going a block farther down the street, you would be inclined to go to that much trouble.

Do you know that the actual intrinsic value of the service and responsibility that a good dealer can put into any car he sells is often worth more than 10 per cent of the car cost, in the first season?

It isn't the price of the car so much as it is the performance of the car, and that depends much on the man who sells it to you.
