## RENE VIVIANI STATES FRANCE'S POSITION

WASHINGTON, April 5.—(U. P.)—Martin U. P. Staff Correspondent)—France concedes the right to the United States to obtain peace with Germany through the Knox resolution, but greatly desires the declaration of policy in that the resolution is so specific that it would amount to a contract as binding as a military alliance with France upon which the senate refused to pass. This is the Paris government position as stated by Rene Viviani in conferences.

# MRS. REIFENSTEIN, AGED 67, GAINS 25 POUNDS

**Declares She Would Like to Put Bottle of Tanlac in the Hands of Every Sick Man, Woman and Child in This Country—Never Saw Its Equal.**

MRS. EMMA REIFENSTEIN, 327 Webster Ave., Syracuse, N. Y.

"I am sixty-seven years of age, but in all my experience I have never known a medicine like Tanlac. Think of it! At my age to gain twenty-five pounds in weight, but that is just what I have done," said Mrs. Emma Reifenstein, of No. 327 Webster avenue, Syracuse, N. Y.

"If I had it in my power," she continued, "I would put a bottle of Tanlac in the home of every sick man, woman and child in this country, for I know what this wonderful medicine would do for them. For almost two years I was almost a nervous wreck. I did not dare to leave the house or even go up town unless my husband went with me. I was afraid to even cross the street and had a feeling of dread all the time.

"My stomach was weak and easily upset. For days at a time I would go without solid food. I could not rest at night to do any good and felt tired and worn out all of the time. Some days I could hardly drag myself across the room and was so weak and miserable I was ready to give up.

"My health is fine now and I eat anything I want and never have a touch of indigestion. I have never slept better than I do now. My recovery is the talk of our neighborhood, as it was generally believed I could not last but a few weeks longer. This grand medicine has brought me health

and happiness and I just can't say enough in its praise."

Mr. J. Reifenstein, in commenting on his wife's statement, said: "Yes, her recovery has been a happy surprise to us all. A few weeks ago I had no idea she would be able to pull through, but now she is in better health than I have ever seen her and the credit is due to Tanlac. We have been married fifty-two years today and I don't believe I have ever seen her looking any better."

## INCORRECT REPORTS TRAVEL FASTER THAN DO FACTS AT TIMES

**Such Was the Case Regarding Statement Made by 16 Year Old Bank Robber, Dalton.**

CHICAGO, April 5.—(A. P.)—An example of how much faster incorrect, sensational reports sometimes travel than the facts was disclosed in the Chicago bank robbery in which William Dalton, a sixteen year old clerk, who stole \$72,000 worth of bonds, was credited with saying that he was influenced by the leniency of Judge Kenesaw M. Landis, in postponing sentence on an Ottawa, Illinois bank teller.

Mr. Dalton denied the reports that he had said he was influenced by Judge Landis, when they were called to his attention a few hours after his capture at Heyworth, Illinois, February 25. The denial was bulletined, the same as the first story of the capture, but Judge Landis said he still receives comments from all over the country from persons who have read only the incorrect report that Dalton had blamed him.

An investigation of the story at its source, in Heyworth, brought affidavits that Mr. Dalton had made no such statements.

A newspaperman of Heyworth, who was probably the first news writer to interview the boy after his capture, made this sworn affidavit:

"Our conversation was about as follows:

"Reporter—Did you ever read about the Ottawa case which came before Judge Landis?"

"Dalton—No."

"Reporter—The two cases resemble each other, and in that case Landis did not sentence Carey, but let him go on his honor, to come back at any time he would call him. The two cases resemble each other and for that reason I thought you had read of it."

"Dalton—The Ottawa man got a raise just before he pulled off his stunt."

"Reporter—Then you have read

about the Ottawa case.

"Dalton—Yes, I have read about it."

When this conversation was reported over the long distance telephone the questions became mixed with the answers, with the result that Dalton was made to say that he thought the Ottawa case fitted his own.

This incorrect report was in type for several hours before investigation by Associated Press writers brought details from Mr. Dalton that he had made any such statement.
