MR. SHADOW SEEMS TO BE WORKING PRANKS ON LA GRANDE PEOPLE

Organization Was Formed and Directions Carried Out; No Sign of 'Shadow' Discovered

LA GRANDE, April 8.—If Mayor Baker of Portland, wants to catch Mr. Shadow he may have to come to La Grande and camp for a while. This is the verdict of some officials who have for the past few days been trying to run down either a crazy man or a crook, who may fit to suit letters to some of La Grande's prominent citizens demanding that money be placed in a secluded spot at a certain hour last night.

When the letters were first received no one thought seriously of the matter, but after considering the general work of the same character up and down the coast local officers decided it had better be ferreted out if possible. An organization was formed and directions of "Mr. Shadow" were carried out last night.

The money ordered to be left at a certain point was deposited at the appointed hour and then the vigil began to locate the "nut" who would claim the package. No one came and, after keeping watch over the spot until 2 o'clock this morning, officers decided that the game was not worth while and they abandoned further procedure.

Writing Not Discussed.
The anonymous letters are the interesting feature of the whole matter for in writing, or rather printing his message, the fellow who sought to shake up the community with another "Mr. Shadow" sensation failed to disguise his writing. So thoroughly individual are the marks that already a clue is thought to have been found. Professional handwriting experts will be consulted at once and a number of documents offered for comparison that may bring out some light on the situation and finally locate the guilty party.

The fear there might have been something to the matter and that La Grande was being infested with some high-up con man, the city has been put under extra police force and the stranger who loitered around will be compelled to give an account of himself without much deliberation.

He will also demand the return of Bergdoll. Kahn also gave praise to the government policy as was first announced exclusively by the United Press, to bring back from Germany the millionaire draft dodger, "Bergdoll" can not get by with a insult to this country, with his idea that there is one rule for millionaires and another for poor ones," Kahn said. "He must be punished and the cloud hanging over the way he escaped from this country must be cleared up."

MAPLE SUGAR RESERVE.
WASHINGTON, April 8.—(U. P.)—A lake of maple syrup—45,000 gallons of it—enough to float thousands of griddle cakes, was stored up from last year in the warehouse of maple product makers and dealers when the Bureau of Crop Estimates made a survey this spring.

The report also supplied rocks for the maple sugar lake in the form of 53,000 pounds of maple sugar. Another there was the equivalent of 1,500,000 pounds of the sugar—stored away and yet this was only four per cent of the 1920 production.

Had not another shortage of granulated sugar been feared, it is not likely that this much would have been carried over. The Department of Agriculture says. With reports from the maple forests promising a bumper year for the production of the better half of "that sticky" maple product, where the maple trees are abundant on the middle in the front window ought to show increased business next fall at cheaper prices.

PATHOS AND HUMOR ARE FOUND IN DIVORCE CASE OF YOUTHFUL COUPLE

Father of Homer Ross, Young Husband, is Employed on the Barrett Ranch Near Athena.

PORTLAND, April 8.—(U. P.)—Pathos and humor were quickly mixed in the divorce suit of Lucille Ross, age 15, against Homer Ross, also 15, who is alleged to be the "caveman type of husband." The wife recites in the complaint that "on numerous occasions he flew into a rage and told the plaintiff to go 'to hell' also that he did 'kick the company of other women in preference to her.' The court suspended judgment on the divorce to look up the guardian for Homer.

Has Been Married 30 Days.
The defendant, appearing before Circuit Judge Tassell, stated his desire to contest the suit, principally to clear his good name. "Green Stockings," is a comedy in three acts by A. E. W. Mason. Did you ever see the states of confusion that may come of writing love letters to imaginary prospective husbands? In one of the foremost papers of England, "Killed in Action: Col. John Smith, Field Force." He decides to pose as the dear friend of Col. Smith, and pay a visit to his fiancée of imagination. Has Broad Policy.
In speaking of the commendation accorded to the department, Supr. H. T. Inlow declared that the ideal of the branch of the school work was to furnish a broad general foundation for men who will be connected with practical farm management.

It is not the aim of the industrial course to turn out skilled tradesmen, the superintendent said today, "but to develop intelligent learners in several trades in order that they may be enabled to make a better choice of occupation. We expect the finishing touches to be put on a student's training either in college, or when he enters a shop, if he elects to enter the trade directly."

Federal Government Aids.
A feature of this branch of educational work is that the federal government furnishes a part of the money needed to carry on the teaching. Under the present provisions of law two thirds of the amount of money spent for instruction is refunded by the federal government. A state director is in general supervision of the work.

PRAISES VOCATIONAL WORK BEING CARRIED ON IN LOCAL SCHOOL

Commendation of the work that is being done in the vocational and industrial department of the Pendleton high school was expressed in no uncertain terms by President Prosser of Dunwoodie Institute at an address given by him at the convention of the educational leaders of the Inland Empire association of secondary schools and colleges which was held recently at Spokane.
