Mothers! Give The Little Ones Syrup Pepsin

They like Dr. Caldwell's, and it quickly relieves their constipation and headaches.

BEGIN to teach the child regular daily elimination as young as possible, and much constipation will be avoided later in life. The most convenient hour throughout life is immediately upon arising. It does not then interfere with play, school or work.

When in spite of your efforts a member of the family becomes constipated, give Dr. Caldwell's Syrup Pepsin in the size dose directed on the bottle. It is a mild, gentle laxative safe for young babies; effective for grownups. It is the largest selling liquid laxative in the world, and most economical as a sixty cent bottle will last you many months.

For your information, Dr. Caldwell's Syrup Pepsin is a compound of Egyptian Senna and other simple laxative herbs with pepsin and pleasant-tasting aromatics. Look on it as a good family friend, useful to relieve constipation and symptoms like headache, biliousness, colds, fever, bad breath, loss of appetite and sleep. It is no exaggeration to say that millions of families are never without a bottle of Dr. Caldwell's Syrup Pepsin. It safeguards their health.

TRY IT FREE

Send me your name and address and I will send you a free trial bottle of my Syrup Pepsin. Address me Dr. W. B. Caldwell, 513 Washington Street, Monticello, Illinois. Everybody now and then needs a laxative, and it is well to know the best. Write me today.

Just Folks by Edgar A. Guest

THE THIRTEENTH HOLE AT DALLAS

I've tackled many a problem worked out by Donald Ross. I've had high hills to shoot at, and lakes to drive across. I've fought my way through bunkers which try all golfing souls. And I thought I had encountered the meanest golfing holes; but I bumped in one in Texas to baffle shark or dink. The thirteenth hole at Dallas, of the Dallas Country Club.

It slopes towards a river, and the river winds and bends. And the stream is so contrary that it hasn't any friends; there is trouble all around you, from the tee up to the green.

And for downright crossed meanness, it's the meanest hole I've seen. It's a golf ball cemetery, of confusion it's the hub, it that thirteenth hole at Dallas, of the Dallas Country Club.

Now I face the future calmly and there's nothing more I dread, Ditches, bunkers or baranacs, I'll not care what lies ahead. There is no distress before me like the grief which lies behind. I'll meet any golfing peril with a calm and tranquil mind. For there cannot be another hole for mortal men to flub. Like that thirteenth hole at Dallas, of the Dallas Country Club.

THE WORLD IS WAITING

THE country will enthusiastically support President Harding and his secretary of state on the subject of the island of Yap. But after all, Yap is a minor matter just now. What the world needs is a settlement of the whole peace subject, including the indemnity Germany is to pay.

Businessmen are coming to realize that we are suffering not so much from local conditions as from a state of affairs that is world wide. The Portland Oregonian has expressed its view of the situation in the following:

All men who are not wilfully blind to facts agree that the present industrial depression in the United States is due to economic chaos in Europe and that the first step toward financial stability and industrial revival on that continent must be adjustment of accounts between Germany and the allies, to be followed by similar adjustments between the allies and the United States and one another. Hence promotion of the public welfare, which is among the president's duties, requires him to aid in this adjustment.

William H. Booty, vice president of the Guaranty Trust Co. of New York, returning from a visit in Europe, said:

"There is a universal feeling of regret in Europe that it has not been possible for the United States to take a more active part in the settlement of these reconstruction problems and they are looking to this country for guidance and assistance in even as great a degree as during the dark days of the war. Many private expressions of opinion are heard to the effect that these problems never would be settled until the United States took a hand and any assumption of leadership or authority on our part in the situation would certainly be welcome by all parties concerned."

It is time for our irreconcilable senators to stop playing football with the peace subject and get down to constructive work. The task of leadership is upon the president and his "best minds." If they do not want the Versailles treaty and the League of Nations, let them provide something better. Meanwhile the delay is becoming burdensome.

A feature of the milk situation in Pendleton is that not only does the price remain high, but the quality is poor. There is very little cream, even if you buy cream, and there is evidence that a closer sanitary inspection of the local dairies might prove beneficial. With all the officials we have, including boards, agents, demonstrators, health nurses, etc., there should be some way of improving this situation.

Speaking of road work, it is timely to remark that the highway over the Blue Mountains can never be of much use until the stretch from Deadman's hill to Kamela is improved.

Some one has ventured the remark that money still talks but has lost its reputation as a good mixer.

28 YEARS AGO

(From the Daily East Oregonian, April 8, 1893.)

Lot Livermore and E. Sharon have formed a partnership for the real estate business.

Charles Myers, of Birch creek, who stepped into a vat of boiling water last December and scalded himself badly, is having serious difficulty and is here for treatment.

W. H. Doughtrey shipped three loads of cattle today to the Sound.

Mrs. G. A. Hartman entertained a number of friends last night at her

home. Progressive whist were enjoyed.

EGG OF PASSENGER PIGEON WORTH \$1000

URBANA, Ill., April 8.—(A. P.)—How would you like to buy a dozen eggs, guaranteed stale, for \$12,000? With prices of ordinary "hen fruit" fluttering back to near historical levels, \$1.00 seems high for any egg, but that is the estimated value of a single egg in the Natural History Mu-

seum of the University of Illinois here. It is the egg of a passenger pigeon, an American bird now extinct. The egg was given to the University by T. E. Musselman, a former student.

The last known passenger pigeon died in the Cincinnati Zoological Gardens about five years ago. Following the bird's death, the American Ornithologists Union offered \$7,000 to anyone proving the existence of a nesting pair, but none of the original species was ever discovered.

Passenger pigeons were once so numerous in the Mississippi Valley that their migrations darkened the sky.

MEN STICK TO NIGHT SHIRT

CHICAGO, April 8.—(U. P.)—In musical comedies and magazine advertisements you find your fancy craved pajamas, but in real life men are clinging to the old fashion night shirt.

At least that's the opinion of P. H. Layland, Chicago haberdasher.

"Not only the jazy old boys, but gay young friskers are keen for the comforts of the roomy night shirt that covers up your feet," said Layland.

"Snappy, up-to-the-minute styles in public, but comfort in the bed room—that is the policy."

James A. Patton, wheat king, was quoted the other day as saying: "Damn pajamas!" His traveling bag had been stolen. It contained a night shirt. A friend offered pajamas.

Shake Into our Shoes

Allen's Foot-Ease, the antiseptic powder to be shaken into the shoes and sprinkled in the footbed. The Plattsburg amp Manual advises men in training to use Foot-Ease in their shoes each morning. It prevents blisters and sore spots and relieves painful, swollen, itching feet and takes the sting out of corns and bunions. Always use Allen's Foot-Ease to break in new shoes.
