C. S. Jones presented a coyote hide at the window of the county treasurer and secured his bounty of \$4. The coyote was a pretty costly animal to him, however. Mr. Jones reports because about fifty dollars worth of chickens disappeared before he got the coyote. He reports that all the people at Umatilla are talking about little else these days except the big dam which they expect to prove a wonderful boon.

Pace accompanied the group of jurors to Wallawa county to view the premises before the trial of the case in the Pendleton term of the federal court. The party returned to Pendleton this morning.

State Treasurer Wants Money.

That the state is in need of funds is disclosed in a telegram which was received today by Miss Grace A. Gilliam, county treasurer, from State Treasurer O. P. Hoff in which the state official requests that the county's taxes coming to the state be paid now before they are actually due. The telegram is as follows: "If possible will appreciate immediate remittance on account state taxes, if only partial, as general fund is depleted." Umatilla county this year will pay the state \$400,000 in taxes, one-half May 1, and the balance later. Miss Gilliam has not yet secured the taxes from the office of the sheriff. Ten days or two weeks will be required before payment can be made.

Greatest Weapon for Farmers.

CHICAGO, April 3.—(U. P.)—Farmers of the nation have started a fight as a unit for a fair price for feeding the world, Carl Vrooman, former assistant secretary of agriculture, said. Vrooman described the cooperative agency for marketing the nation's grain, which was organized at the end of the conference here last night, as "the greatest weapon the farmers ever had for fighting for fair prices." The cooperative agency known as the United States grain growers, Inc., is to market the nation's wheat and corn for all farmers who pay an annual fee of ten dollars. It is a non stock proposition and the money left over at the end of the year will be returned pro rata.

Was He Looking For "Hop"?

The office of Dr. Fred Leandall was entered some time last night and the desk and other equipment was thoroughly ransacked. Nothing was taken, so far as could be determined, and no damage was done. Entrance was gained over an open transom. The police entertain the theory that the man was after "hop," and failing to secure the drug, he left without taking anything. A man who yesterday sought to get a prescription from several physicians was given orders this morning to get out of town.

To Revive Tennis Club.

The Round-Up Tennis Club, once a flourishing organization, is to be revived tonight at a meeting to be held at 7:30 in the Commercial club rooms. HIGH SCHOOL NOTES

Biology Classes Sponsor Assembly.—The biology classes under Miss Dorothy Flagel gave an interesting program this morning in assembly in honor of Arbor Day. Why we recognize Arbor day and the history of Arbor day was discussed. Several musical numbers added to the program. The program opened by the singing of the national anthem and Chas. Snyder followed with a very interesting talk on the history of Arbor Day. Miss Barbara Edmunds gave a vocal solo and Miss Marguerite Aker gave a reading. One of the interesting features was a quartette composed of Miss Marie Temple, Miss Barbara Edmunds, Miss Vera Hampton and Miss Ruth Minnis. Walden Rivers told the "History of the Trees" in a most interesting way. Claude Snow drew pictures of various trees and a contest was held to see how many of the students really knew the names of the various trees.

Interesting Statistics Given.—Austin Landreth, principal, has gathered some interesting data about the school in comparison with the records of last year during the month of March. At this date last year there were 512 registered in the school while at the present time there are 523 enrolled. The total number of students absent and tardy during the month of March last year was 228 while during this school year there have been but 120, which shows a marked improvement in regularity. The average daily attendance last year was 92.5, this corresponds to 92.6 and 23.4.

HAS NEVER FELT BETTER THAN NOW

Portland Man Had Been in Poor Health for Years Before Taking Tanlac.

"I took Tanlac because I heard others praising it," said Thomas R. Marvin, 1242 Portsmouth Ave., Portland, Ore. "and now I am praising it myself because of what it has done for me."

"For several years I was in a poor state of health and never felt right. My stomach and liver were badly out of order. I had no appetite and suffered constantly from indigestion. I ventured to eat a hearty meal I was in perfect misery for hours afterwards. I felt completely used up all the time and it was a drag for me to get through my work."

"But I hadn't finished my first bottle of Tanlac before I saw I had found the right medicine at last, and now I am sound and well, in fact I never felt better in my life. My appetite is fine, my digestion seems to be perfect and I have gained considerably in weight. All of my ailments are gone. I am just in the pink of condition and can do as big a day's work as any man. I never lose a chance to recommend Tanlac."

FISH DUCKS WILL MAKE NIAGARA RIVER FISHLESS

NIAGARA FALLS, N. Y., April 3.—(U. P.)—Fish in the Niagara river will soon be a thing of the past and the famous river will be known as fishless.

Fish-eating ducks are devouring thousands of fish daily. The all drake or coveys will kill more fish in a day than an expert fisherman. Ducks killed in the spring are always found with their crops filled with fish.

Sportsmen are advocating an open season for ducks in the spring on the Niagara river in order to protect the fishing. Fish-eating ducks are like rubber and are not especially good game for eating.

STATE PARKS WILL BE ESTABLISHED ALONG WASHINGTON HIGHWAY

OLYMPIA, Wash., April 3.—(A. P.)—State parks, available to campers and tourists are to be established along Washington highways within a short time, the legislature having appropriated \$100,000 for the purchase, leasing and improving of the park sites. Every automobile in the state will be taxed \$2 a year for state park and highway purposes.

WALK ON LEFT SIDE.

OLYMPIA, Wash., April 3.—(A. P.)—Pedestrians on Washington state highways must, in the future, walk on the left hand side of the road instead of the right hand side, according to a change made in the state motor traffic law recently by the legislature. The change was made so pedestrians will face the approaching traffic. It is expected the move will reduce the number of accidents.
