

KLU KLUX KLAN ARE NOT CONCERNED IN CASE OF WILLIAMS

Order Does Not Believe in Nor Countenance Taking Law Into Hands of Members.

SHELLMUT, April 9.—(U. P.)—The fate of John S. Williams, proprietor of Jasper county's alleged "death farm" was placed in the hands of the jury trying him for his life late yesterday.

ATLANTA, April 9.—(U. P.)—That the Klu Klux Klan is in no way concerned in the case of John S. Williams, on trial in Covington charged with murdering a number of negroes and that the order does not believe in nor countenance the taking of the law into the members' hands, was declared in a statement by Colonel William Joseph Simmons, the imperial wizard of the Knights of the Ku Klux Klan.

COVINGTON, Ga., April 9.—Outside interference in the developing of the prosecution of the case against John S. Williams, proprietor of the Jasper county "death farm," was scored by Greene F. Johnson, the "country lawyer" in closing his argu-

ment for the defense. "Who is back of all this," Johnson asked. "Why is it necessary to send special prosecutors here to prosecute this man? Not but that those interested citizens of Atlanta have not the right. But all virtue is not confined to Atlanta. On the splendid evidence of Clyde Manning, a confessed liar and murderer, these citizens have employed counsel to come here and endeavor to convict a man. It can not be done."

TURKISH NATIONALISTS RESUME THEIR ADVANCE ON THE BRUSA SECTOR

RHODES, April 9.—(A. P.)—The Turkish nationalists have resumed their advance in the Brusa sector of Asia Minor, according to official dispatches. Fears are entertained for the safety of the entire Greek expeditionary force. The magnitude of the Greek reverses is greater than was first supposed.

Fondly Did He Hope; Fervently Did He Pray.

You may have heard it, but a Green Line passenger with a bulging hip pocket lost his balance and sat down hard when the car hit one of the bumps on Hobman street last night. As he recovered himself a look of horror spread over his face. Something wet was trickling down his leg. As he feverishly started an examination he murmured prayerfully: "My God, I hope that's blood."

ONE MAN KILLED; FOUR WOUNDED IN GUN FIGHT

CHICAGO, April 9.—(U. P.)—One man was killed, two policemen and two residents of "Little Austria" in South Chicago were wounded in a gun fight.

SEA LIONS EAT SALMON

ASTORIA, Ore., April 9.—(U. P.)—That sea lions along the Oregon Coast eat a greater number of salmon during the open season than are caught and packed by all the combined canneries operating on Oregon waters, is the startling assertion of Carl D. Shoemaker, secretary of the state fish commission.

"I estimate that the 3000 sea lions along the coast consume 41,500,000 pounds of salmon during the 157 days which constitute the open season," Shoemaker said. "This is more than all canneries combined handle during the same period."

William Hunter has been engaged by the commission to wage a campaign for extermination of the sea lion "pest."

After a man has helped raise a half dozen of them he realizes that the best way to train children is to let your wife do it for you.

Refuses to "Sponge"

"Better to join the chorus, than to sponge on friends." So saying another London society leader—the Hon. Sylvia Gough—has turned to the stage. She is appearing as a chorus girl in "The Right Girl" at Times Square Theater, New York. The family fortune was wiped out by the war. She is an internationally known beauty. A portrait of her by Augustus Johns is on exhibition in the Metropolitan Art Gallery, New York.

What! Again?

Yes, again—Christmas! And not a day to spare in making your plans; not a minute too early to be considering the Lalley Light and Home Electric Power Plant as a present; a present that will go all the way with every member of the family—with every helper on the farm and in the home; a present and a necessity that will make itself known and appreciated by the time, labor and money it saves, every hour of every day 365 days in the year.

So the selection of so useful a present should not be made in a hurry. You need time to look into this Bigger, Better, More Powerful Lalley Light and Home Electric Power Plant; time to have it demonstrated to you thoroughly;—time to have its many advantages explained clearly and understandingly;—time to get all the facts and proofs regarding its all around mechanical excellence—its dependability, its quiet operation, its simplicity, its accessibility and the exactness and precision that is built into every part;—time to know the reason behind our slogan "DOES MORE—DOES IT BETTER."

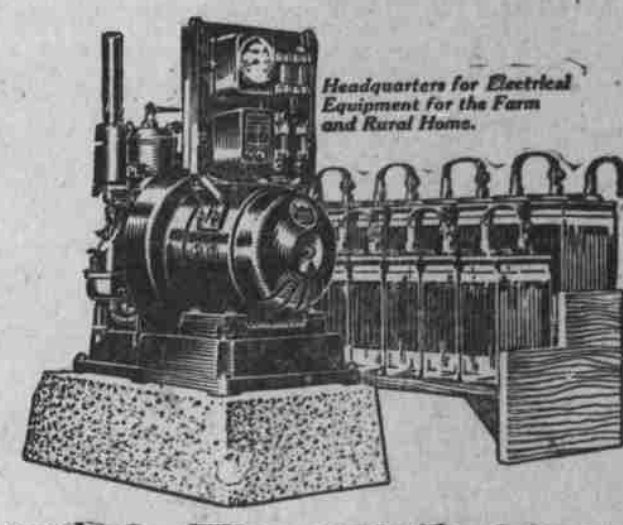

And while getting these facts—while making your comparisons and satisfying yourself that the Lalley is the one plant best suited for your needs; just remember that the Lalley Light and Home Electric Power Plant has back of it 10 years actual owner use in thousands of homes throughout the world—having a record that puts it in a quality class by itself.

Come in and see the Lalley in practical operation.

BE SURE—See the Lalley FIRST

A Message to the People of Oregon

By Governor Olcott

IT IS with pleasure I take the opportunity thus afforded me to urge upon the people of the state the importance of rallying around Oregon industries by the purchase of Oregon products.

The prosperity of all of us is very closely linked with the prosperity of such industries. When Oregon people invest in Oregon industries by the simple method of buying their products, they are making an investment which cannot help but bring large returns to themselves.

I sincerely trust that this campaign to educate the people of the state into the knowledge that the purchase of Oregon products means a greater and better Oregon for each and every one of us will meet with success from the start.

W. A. Olcott
