CIVILIAN LEAGUE OF CANAL ZONE SEEK 2 IMPORTANT OBJECTS

PANAMA, April 15.—(A. P.)—Civilian League of the Panama Canal Zone under the Department of Com-

merce or the Department of the Interior and effective suffrage for civilian American citizens residing in the Canal Zone are two of the objects sought by the newly formed "Civilian League of the Canal Zone." The zone is now a military reservation. "The League has been keeping in touch with proposed legislation by

Congress affecting the Canal Zone," said H. J. White, president, "and it has discovered that parties not connected with the zone have attempted to secure the enactment of bills submitted by them which would not prove applicable or beneficial to the zone."

A statement issued by the League declares that "the military branch of our government is using its influence to have the canal considered primarily as a military project" and adds: "The League takes the position that the business interests of the United States demand the fullest commercial development of the canal; that, as far as possible, the same form of government that exists in the United States should apply in the Canal Zone; that the civilian citizens of the United States residing in the zone should have a voice in the affairs of the zone; that the zone should be thrown open to Americans who want to own property and settle in it, the same as in the District of Columbia; that the army and navy, while permitted to do any and all necessary defensive work for the protection of the canal, should be entirely separate and distinct from the government of the Canal Zone."

Specific demand is made that "Congress grant the right of suffrage to civilian Americans residing in the zone, authorizing them to elect a resident commissioner to represent them at Washington, in the same manner as the present resident commissioners of the Philippine Islands and Porto Rico."

UNIVERSITY FACULTIES WATCH OUTCOME OF PRINCETON'S PLAN

College's Experiment is to Have Undergraduates Handle Morals of Under Student Body.

PRINCETON, N. J., April 15.—(A. P.)—University faculties throughout the United States are watching with keen interest the experiment put in effect at Princeton to have the undergraduates handle the situation with regard to the morals of the student body. The ruling marks the beginning of an epoch in student government in American universities. The professors of Old Nassau have decided of the time has come when the undergraduate is better able to handle the question of morals than the discipline committee of the faculty itself. Accordingly they have placed in the senior council the power to recommend the punishment of students "for acts tending to injure the good name or the moral tone of the university" without giving reasons or evidence to the faculty.

Princeton has an efficient protorial system under the guidance of Henry Booie, known to Princetonians in song and story as "Bunk the Cop." The duty of the University Proctor has dated from the days before the American revolution when all the Princeton students lived in Nassau hall, and, as the old records show, indulged in smuggling roast fowl and beer into their rooms through the medium of the negro slaves residing in "Princeton." But with the introduction of the Honor system into University life in the 'nineties, much of the duty and importance of the Proctor was absorbed by the various undergraduate bodies, chief of which is the honor committee itself. Almost all phases of undergraduate activity come under this system, from cheating in examinations to the use of "planties" in the seats of absentees in lecture rooms.

The Princeton senior council recently came to the conclusion that at frequent intervals acts occur on the campus that need punishment, and which escape the notice of the Proctor, but not of the undergraduates themselves. The moral state of an undergraduate is such that his conscience does not allow him to report his fellows to anyone even remotely connected with the faculty, but he is willing to report such proceedings to the senior council with the provision that it shall go no farther. It was to deal with this situation that the new ruling at Princeton was passed.

The council, an elective body of seniors, usually including the class officers, the major sport captains and the heads of the important campus activities, meets every Monday night in the council chamber of Murray Dodge Hall to consider the affairs of the University. In case charges of a serious nature are brought against any student by his fellows the proceedings are kept secret, and the council sits as a jury on the case. The offender is brought into the room and seated at the head of the long table and informed of the accusations. He has the right of stating his case, and he may bring in witnesses, while the defendant is at liberty to call upon anyone he desires in his defense, the testimony of the faculty or of the proctor's force would not be admitted against him.

Witnesses "for the state" are then questioned, and while their testimony may cause anguish to his friends, they have never been known to refuse it, though the council has no means of forcing students to appear in the witness box.

The whole proceeding is carried on under the honor system, and the word of the defendant carries more weight than circumstantial evidence. After the testimony is completed, the council goes into deliberation. Points of law do not exist and the purpose is to reach a decision in equity. A three quarter vote is necessary to conviction, any smaller majority amounting to acquittal. A similar majority is necessary in fixing the penalty. The president of the council then reports to the faculty that his colleagues have recommended certain penalties to be inflicted upon the defendant, a recommendation which is accepted without question.

A student has the right of appeal to the discipline of the faculty, in which case all the evidence is presented.
