May 31, June 1 and 2—State convention of Oregon Federation of Women's clubs.
June 14, 15, 16—State convention of the G. A. R.
September 22, 23, 24—Annual Pendleton Round-Up.

Austin Debate Winner.

Newspaper clippings received here give information of the record continued this year by Lloyd Austin, son of P. P. Austin, formerly superintendent of schools in Pendleton, as debator in the Chandler, Ariz., high school. The team of which he is leader has won the inter-district contest and it will soon enter the finals for state honors. Young Austin was on the Pendleton team that won a championship in Eastern Oregon last year.

New Awnings Put Up.

The Judd building is being made ready for the coming summer season by the placing of new awnings at the various windows.

Gasoline Arrives.

A carload of gasoline arrived in Pendleton today and is being distributed by Fred Bennion, county agent. The gasoline was ordered through the Umatilla county Farm Bureau.

Fire Damage Slight.

Fire caused by a fuse which burned out at the St. Elmo rooming house on Main street Sunday night about 10 o'clock caused little damage. The fire company made a run and extinguished the blaze within a short time.

Dr. Sturge's Writes Article.

Dr. C. C. Sturge, son of Mrs. Lina Sturge of Pendleton, now resident physician at Peter Bent Brigham hospital in Boston, is the author of an article recently copyrighted by the American Medical Association and published in pamphlet form. It is entitled "A Study of the Correlation of the Basal Metabolism and Pulse Rate in Patients With Hyper Thyroidism." The article was published first in the

Archives of Internal Medicine, in the issue of October, 1920. A copy of the pamphlet has been received at the county library.

Called by Illness.

Mrs. Mary Dunlevy, of Portland, and Mrs. Leona Rust of Milton, are in Pendleton, having been called here by the illness of their mother, Mrs. Glen Rust. She is at St. Anthony's hospital.

Rainfall is .08

Rainfall last night and today was .08 inches, says Major Lee Moorhouse, weather observer. The rain fell in a heavy shower today. The maximum is 62 and the minimum 45. The barometer registers 29.42.

Fish On Display.

A fine catch of trout is on display today in the show window of the George C. Baer hardware store. The trout were caught by Ira Brown yesterday who spent just 20 minutes fishing opposite Walters' Mill. The fish are of various sizes, the largest being 14 inches in length.

Car Struck Bridge Side.

One man was precipitated to the street and others were badly shaken up when a Chandler car, said to have been from Walla Walla, struck the side of the Main street bridge over the river in the wee small hours Sunday morning. The one man was bruised about the head, but his injuries were not of a serious nature. Names of the party of men was not learned.

Four Drunks

Flavoring extract, denatured alcohol and sundry other concoctions are held responsible for the drunkenness of four offenders who forfeited bonds in city court today. Ten dollars was the amount that accrued to the city strong box in three cases, and R. Fields lost \$15 on his failure to appear. The other trio included Don Collett, Frank Noble and Mat Henkle.

Little Boy Dies.

Nelson, the little eight month's old son of Mr. and Mrs. William Ingram, of Portland, died yesterday, according to word received today by Mrs. Jennie Drake. Mr. Ingram formerly resided here and is a nephew of Lee D. Drake, a cousin of Mrs. Mildred Roy of Pilot Rock and a nephew of David Ingram of McKay creek. Funeral services for the child will be held in Portland tomorrow.

Young Austin Is Debater.

Lloyd Austin, former Pendleton high school student and son of Superintendent and Mrs. Fred P. Austin, is making a reputation as a debator at Chandler, Arizona, where his father is now city superintendent. In a debate between Chandler and Winslow high schools early in April, Lloyd Austin was leading speaker for his school. The Chandler Arizonian classes him as a convincing speaker with an excellent delivery with marked ability at extemporaneous speaking.

Apply For Building Permits

Applications for building permits aggregating \$205,000 were presented to City Recorder Thomas Fitz Gerald Saturday and today. The St. Anthony hospital has applied for a permit to construct the \$200,000 addition to the hospital. The application contains the information that the building will be of reinforced concrete. The estimate of time needed for construction makes Mar. 1, 1922 the probable date of completion of the building. J. W. McGee has made application for permission to construct a five-room bungalow on Matlock street which will cost approximately \$5,000.

Old House Torn Down.

Lumber in the old house on Water street which is now being torn down was brought to Pendleton by team from Umatilla when M. E. Folsom built the residence over 40 years ago. The house is not a large one, but in the old days it was considered an imposing residence and was one of the most substantial homes in the city. Ralph Folsom was born in the house. Later it was sold to Mrs. Sanford and still later became the property of S. P. Sturge, and was the birthplace of James Sturge and Dr. Cress Sturge. Mrs. Sturge recently decided to have the house torn down, and the space will be used for gardening purposes.

Winners Are Chosen.

Carl Rinehart, Washington school pupil, and Thelma Morris, also of Washington, will represent the Pendleton district in the county oratorical contest to be held here at the high school auditorium May 7. The two were selected at the sectional contest held here Saturday night. Carl Rinehart will represent the upper division, consisting of the sixth, seventh and eighth grades, while Thelma Morris will represent the lower division, consisting of the third, fourth and fifth grades. Robert Bishop of Lincoln school won second in the upper division and Muriel Tullock, of Riverside, won second in the lower division. Judges were Mrs. H. H. Hattery, Miss Dorothy Fiegel, of the high school faculty, and Rev. John Secor, pastor of the Methodist church.

Umatilla Ranks Seventh.

Umatilla county ranks seventh in the list of Oregon counties in a survey of the efficiency of Oregon schools made by the University of Oregon, according to a report made by P. L. Stetson of the school of education. Multnomah and Sherman ranked highest in the survey which covered a period of six years. The points considered are: Per cent of school population attending school daily; average days attended by each child of school age; average number days kept open; expenditure each teacher for salary; per cent that high school attendance has of attendance; per cent of boys as compared to girls in high schools; average annual expenditure each child attending; average expenditure each child of school age; average annual expenditure each teacher employed; and expenditure each pupil for other purposes than teachers' salaries.

RICH, CLEAN MORNING'S MILK

You don't know the flavor of

Real Macaroni

Until you have eaten WOODCOCK, extra quality.

Many people are of the opinion that "macaroni is macaroni"—that it all tastes alike, and is made from the same thing in the same way.

But there is as much difference in macaroni as there is in flour, bread, canned goods or coffee. There are different grades and qualities. There are the pasty, doughy, tasteless kinds that are made from flour or inferior blends. Then there is Woodcock Extra Quality, made from the hearts of the choicest wheat material which is rich in gluten—the bone and muscle building part of wheat.

The proof is in the eating. "Deliciously Different."

MOVING PICTURES IN COLORS IN LONDON

LONDON, April 18.—(U. P.)—Seen women will be able to study film fashions presented in natural colors.

At a film exhibition at the Palais de Luxe, Piccadilly, of a new process invented by the Russian scientist, Professor Gorsky, the picture showed the hues of the actors' clothes, and the brilliant background of trees and flowers were reproduced with all the vividness of nature.

Friends of fashion are quick to grasp on the new scheme with a view to showing off their gowns and new creations to the best advantage. It is expected that Professor Gorsky's invention will cause a revolution in movie methods.

IRATE MAN HELPS TO LOCATE BURIED BARREL OF 'MOUNTAIN DEW'

PORTLAND, April 18.—(U. P.)—It's a poor booze sleuth who can't find evidence when he is violently propelled into it on his face. This is the conclusion of Deputy Sheriff Schirmer, who was searching Joseph Dobich's farm when he was struck in the stern quarters by an irate ram. He played forward on his face into the dirt and

ASPIRIN
