HARNESS THIEF TAKEN BY DEPUTY SHERIFFS

Harry McLain, wanted by the sheriff's office of Umatilla county for several months, was arrested Saturday night at Riech by Deputy Sheriffs Ridgway and Spears. The apprehension of the offender is a result of a search that has been made over the states of Oregon and Washington since last November when five sets of valuable heavy work harness were stolen from John Planting, Pendleton man.

McLain was followed by the officers to Riech where they found that his suitcase had been left in the Jennings poolroom. They discovered that he was in hiding in the room of a colored woman at a "nigger" rooming house. After experiencing some difficulty, entrance to the room was made and McLain and the woman were arrested. The deputies brought McLain to Pendleton in a car, and William Lyday, traffic officer, brought the colored woman to the city jail. He carried her on the handlebars of his motorcycle. The authorities declare that McLain has confessed to having taken the sets of harness from Planting last November. There are many other cases of the disappearance of harness, and it is thought that he may have been implicated in some of these cases. The harness was recovered recently at Meacham. It is being sent to Pendleton now. McLain has at various times been located at Spokane, Walla Walla, Portland and Yakima, but he has always eluded the officers and made his getaway before he could be apprehended. He was waiting for "the first train that comes along," he told the officers when he was arrested. His preliminary was held this afternoon before Justice Joe Parkes.

FROCKS STARTLE ENGLISH.

LONDON, April 18.—The freak fashions which inevitably accompany springtime madness promise this season to surpass anything that has gone before in the way of daring and novelty.

Dame Fashion now has been having a confab with Pather Neptune and the net result is decidedly "fishy." One of them is the mermaid frock which is a close-fitting affair entirely composed of paillettes which overlap one another in the approved fish-scale style. These paillettes are of iridescent shades of silver, green and blue. No trimming or ornament of any kind is worn with the frock and corsets are doffed so that the sinuous mermaid effect is complete. Another fishy fad is the girle composed of painted sea-shells. With this is worn a head-dress of similar design, or maybe, of tinted pearls. For those whose systems cannot assimilate too much sea-breeze, a few Hawaiian mokes have been thrown in. The one which is likely to excite most comment is the Hawaiian skirt. This extends from the waist to just below the knee and is composed of coarse, matted, hay-colored fringe and has the ragged primitive effect of the garments of South Sea Islanders.

MINERS WILL HOLD MEETING ON FRIDAY TO DETERMINE STRIKE

Bolt of Triple Alliance Does Not Foretell Conclusion of British Industrial Situation.

LONDON, April 18.—(A. P.)—There is little probability of new moves in the coal strike until Friday when the miners' leaders meet.

Not Yet Settled.
LONDON, April 18.—(U. P.)—(Copyright United Press)—The bolt of the triple alliance does not foretell an early conclusion of the British mine strike. The British industrial situation is still far from settlement. Miners are determined they may as well "starve and play and starve and work." These opinions were advanced by J. R. Clynes, chairman of the British labor party, in an exclusive statement to the United Press.

(By J. R. Clynes, U. P. Staff Correspondent)—The factor which caused the threatened strike of transport workers to break down was the same which caused the miners to stop work—the human factor. The human factor forced its way through all stages of dispute and finally shook the resolve of the men who only an hour before were cemented in what seemed to be an unbreakable bond of union. So while the coal miners are stranded, facing the issue alone, and standing amazed at the suddenness of the debacle, Britain basks after the perils of the nightmare they have passed. Neither the government nor the public, should mistake the failure to extend the strike as a sign of an early settlement. The miners' leaders have well-deserved their reputation for fighting tough battles. The miners' working conditions entitle them to better pay than pre-war wages. Miners are not the countries' enemies.

SPECIAL TAX IMPOSED ON NON-SERVICE MEN

BUDAPEST, April 18.—(A. P.)—Austrians who did not see service in the war are to be compelled to pay a special tax, the proceeds of which is to be devoted to the care of disabled Hungarian soldiers or the dependents of those who were killed in the war.

Hungary has about 250,000 disabled fighting men and including the orphans, widows and refugees, the government has to provide for more than 1,000,000 persons. This number about one-eighth of the entire population of Hungary. More than 4,000 families who fled from Transylvania when that section of Hungary was annexed to Rumania by the peace treaty, still are living in railway cars in the various yards in this city. When one family manages to find rooms in Budapest, the vacated cars are immediately claimed by newly arrived refugees.

Through the efforts of American welfare missions about 75,000 children are being fed in Budapest alone. Complete outfits of clothing have been distributed to them many times.

SHIPS ARE IN HARBOR.
CHRISTIANIA, April 18.—(A. P.)—Three hundred and fifty Norwegian ships, totalling 850,870 tons are laid up in home and foreign harbors, according to the Norwegian Shipping Association.

Persons who believe they will be charged with evading the selective draft, but who did not actually do so, may escape the odium of being publicly branded as deserters unjustly by communicating all the facts of the case to Adjutant General Harris without delay.
