Mr. Haan gained the rank of captain on the battlefield and was severely wounded while in action with the 32d Division. While in Walter Reed hospital, he studied the plans the Government had made for the wounded, and upon his discharge last fall, was made a special representative of the Bureau of War Risk Insurance.

After obtaining \$300,000 in community war funds for the relief of Michigan disabled veterans, he made a study of the Michigan state prison and insane asylum to see how ex-service men fared. The result of this investigation was the parole of 140 men with the American Legion vouching for them.

JAPAN MAY LOSE OUTRIGHT HER YAP MANDATE

Because of Drastic Stand Taken in Negotiations With U. S. Japan May Yet Lose Yap.

'OPEN SHOP' PROPOSALS ARE MADE BY AMERICA

Had Japan Agreed Administration Might Have Reluctantly Permitted Her Have Mandate

WASHINGTON, April 19.—(A. L. Bradford, U. P. Staff Correspondent.)—Japan may lose outright her Yap mandate, because of the drastic stand she has taken in negotiations with the United States, it has developed. Correspondence over Yap shows that the proposals that "open shop" be applied to the island that were made by the United States on December 6 were summarily rejected by Japan. Had Japan agreed, the administration might have reluctantly permitted the mandate. Now, however, Hughes has taken the position that Yap is one of the territories taken from Germany, that the United States as one of the victors must have a voice in the disposal of such territories, and that she has had no voice in the Yap matter. Hughes will not concede or compromise. He has been assured of the senate's support.

The American position is strengthened by the fact that the allies want America to participate in some of the features of the Versailles treaty, the German reparations question being one. This government will not participate, however, until the contentions of the Hughes' mandate note are met.

He exhorted the American republics to give their strength and resources to aid their stricken sister nations across the sea in reconstruction.

CALIFORNIA REQUESTS SUPPORT FROM OTHER STATES OF THE UNION

Sister State Asks That She be Given Support in Attitude Toward Jap Immigration.

SACRAMENTO, Cal., April 19.—(A. P.)—A request that they support the attitude of the state of California toward Japanese immigration was sent to the governors of all states of the union yesterday by Governor William D. Stephens.

The letter reads in part: "The California legislature passed unanimously a resolution embodying a declaration of California's principles in the matter of Japanese immigration and urging upon the president, the state department and congress the enforcement and adoption thereof. "As a frontier state, California is making the fight of the nation against the incoming rush of an alien undesirable race which would engulf our civilization, our traditions and our ideals. Without the cooperation of the other states, California cannot hope to secure such action as will put a stop to the future development in this country of an alien, unassimilable community, which must in time engender racial conflict and international misunderstandings. The way to preserve peace with Japan is to act in this matter with justice and decision and to place about our American citizenship and economic interests such protection as Japan properly places about her own. "In view of these facts, I am taking the liberty of asking your assistance in upholding California's stand in this matter. Your state legislature, probably not in session at this time, but you can aid in this fight for the preservation of the nation's interests by representations to your state delegations at Washington, urging or recommending that they cooperate with the California delegation in an effort to secure absolute exclusion of Japanese immigration, under conditions which will save any real humiliation to Japan and will make for peace now and permanent friendship hereafter between this country and Japan."
