### Live Stock Market

One hundred cars of livestock came to North Portland for the week's opening compared with 128 cars a week ago and 67 cars a year ago. Hogs were steady to weak, cattle were steady and active, while sheep were steady.

While there was quite a fair supply reported in the cattle alleys at North Portland for the week's opening trade, demand was active and prices held steady at the start. Bill Hanley was in from Burns with a load of good stuff, among which were four head of show stock which went along with the carload lot.

Of the total supply of cattle received 18 cars, or 475 head, did not stop here except for feed.

### Stock Prices

NEW YORK, April 19.—(A. P.)—Wall street sentiment yesterday evinced a reversal from the moderate optimism which marked last week's later dealings. In stock market prices where gross reactions of one to three points established several new low records for the year.

There were no untoward developments over Sunday. Cables of the British labor situation were encouraging and the domestic bank position continued to strengthen at federal reserve centers.

In well-informed banking circles, it was intimated that the plans of the administration to devise measures for relieving the railroads and industrial interests were progressing.

Western transportation terminals reported further diminution of tonnages. Although movements of foodstuffs from farms and elevators were large they were offset by smaller shipments of cotton, coal and lumber.

Dealings were light. Rails, steels and equipments featured the backward issues with a sprinkling of leather, tobacco and food specialties.

Oils stood out for their relative steadiness, especially the low grade stocks, the demand in that quarter effecting numerous rallies of one to two points elsewhere before the close, net losses being largely nominal. Sales

100,000 shares.

In the open market call money was obtainable at 4 per cent but on the exchange the rate held at 7 per cent. Time funds were firm though in freer supply. Exchange on London was barely steady, but remittances to continental points, especially Italy, strengthened.

High grade railroad bonds, especially Pennsylvania 4 1/2's and 4's were heavy, liberty issues also easing, home internationals, including Dominion of Canada 1921 and Mexican were firm. Total sales, par value, \$8,815,000.

### Importations Cause

#### Wheat to Tumble.

CHICAGO, April 19.—(A. P.)—Wheat prices tumbled yesterday owing largely to continued importations of Canadian wheat and to a sharp break at Winnipeg. The market closed heavy, 3 1/4@4 1/4 net lower, with May \$1.24@1.24 1/4 and July \$1.05 1/4@1.05 1/4. Corn lost 5-8@1/4c and oats 1-2c to 7-8c. Provisions finished unchanged to 3/4c down.

At first the wheat market showed considerable strength as a result of fear that low temperatures had damaged the new crop. Field advices, however, indicated that the damage, if any, would prove only minor. Then the attention of traders shifted to the big receipts in the northwest, swollen by arrivals from Canada. Uncertainty as to progress of the emergency tariff bill in the senate tended also to give some advantage to the bears. At this juncture word came of a collapse of prices at Winnipeg. Selling pressure was given further impetus by the fact that a decrease shown in the domestic visible supply total was much smaller than looked for.

Corn and oats weakened with wheat but were steadied somewhat by export sales of 500,000 bushels of corn and by signs of some foreign call for oats. In provisions, the effect of higher quotations on hogs was soon more than counter balanced by the bearish action of grain.

### Wheat Growers May Pool One-Third Crop.

CHICAGO, April 19.—(A. P.)—A concession to grain growers committed to the pooling plan of cooperative grain marketing was announced by the board of directors of the United States Grain Growers, Inc., in an executive session here yesterday. The concession will give the growers opportunity voluntarily to pool one-third of their wheat crops. This method of sale is provided in addition to the direct sales and pooling methods.

"We believe that this is the most practical method of insuring against glutting the markets," said C. H. Gustafson, of Lincoln, Neb., who was chosen president today. "and at the same time, it will take care of the country's exportable surplus of grain. While the board does not feel free to depart from the policy of leaving the choice of method of sale to the grower this third method of sale will make it impossible to set up an effective exportable surplus pool."

Other officers include George C. Jewett, Spokane, second vice president; Frank M. Myers, Fort Dodge, Ia., secretary.
