HERMISTON BALL TEAM DEFEATS ECHO NINE

(East Oregonian Special)
HERMISTON, April 20.—John Beavert of Irigon came up Sunday to visit his wife and son "Jack," going on to Pine City in the afternoon to look after some road work. He returned by way of Stanfield and brought his father along to help keep him company during Mrs. Beavert's absence.

Hogan Miller has rented the house on the old Peter Nelson ranch a mile west of town and with his family moved there. Mr. and Mrs. Burr Beals who occupied the premises have moved to town for a while. Hogan has also rented the Ben Smith ranch and part of the Beals ranch and will grow lots of alfalfa hay this season.

Quite a number of our nimble drivers drove out to the big rabbit drive Sunday in Juniper Canyon and report an excellent time and quite a successful drive.

Mrs. Mary E. Howard of Corvallis is here visiting her daughter, Mrs. John Beavert.

One of the biggest baseball games of the season was pulled off Sunday on the local diamond when Echo and the local baseball nines crossed bats. Both parties put up a very stiff game and a well contested one, with plenty of good playing and very few errors till the ninth inning when the score stood 6 to 0 for the Hermiston team. This yet leaves the Hermiston team at 1-0-0, while the Echo team has dropped to 2-5, having lost two games and won but one game. A very large crowd was out to witness the performance and all went away well satisfied they had received their money's worth.

Mrs. Bertha Emmerhofer, who was on the sick list last week, is well again. Clean-up was well observed Saturday of last week and the streets, alleys and backyards were made to shine. The Community club ladies served the workers with a big repast at noon to which all did ample justice.

Glen Bleakney of Echo was down Sunday to visit his wife. He was accompanied by Mr. and Mrs. Cecil Bleakney, Miss Catherine Bleakney and William Bleakney.

The boys of the American Legion held their regular monthly meeting on Wednesday evening and also elected officers for the coming year, as follows: Carl Voven commander; James Todd, vice commander; Floyd Ames, adjutant; Logan Todd, master at arms. On Wednesday next the boys will hold a social evening to which all ex-service men are cordially invited.

A large crowd was out to the Playhouse Saturday evening to see "What's Your Husband Doing." They went home satisfied that they'd not know all that happened at the club, despite the many stories told about those famous places of rest and quiet amusement. The naughty men have been saying nothing since, as they seem to think that "quiet minded men always have peace within."

Austin Klee is again back in the Hermiston Bakers and Mr. Sutherland is to be congratulated on his getting Mr. Klee back again.

J. S. Utterback of Nolin has rented the J. J. Cassery ranch one and one half miles west of town and with his family moved out to the farm last week.

J. J. Cassery and J. S. Utterback spent Monday in Pendleton transacting business.

At the request of the owner, and with the consent of the Federal Judge, a saloon in Chicago which was closed for violation of the prohibition law, was recently turned over to a family with ten children who were evicted from the home they were buying because of inability to pay installments.

The Peruvian Navy has been granted the use of mechanical equipment and personnel at the Coco Solo air station of the United States Government located at the Canal Zone. The Peruvian Navy lacks the facilities for the assembling and testing of aircraft at home.

How To Keep in Good Condition

Sound nerves, a clear head, good digestion, strength, endurance and general health depend upon clean blood. If the kidneys and bladder do not properly perform their functions, the blood cannot be clean and pure, for these organs filter and cast out the waste matter, impurities and poisonous acids that cause nervousness, rheumatic pains, backache, languidness, sore muscles, swollen joints, stiffness, puffiness under the eyes and other weakening symptoms.

WAS RELIEVED AT ONCE
"I was afflicted with kidney and bladder trouble for nearly 8 years. Had very bad spells about 5 years ago. Was confined to bed for 4 or 5 days, unable to turn without help. I commenced using Foley Kidney Pills and can truly say I was relieved at once. I like to advise in the same way every kidney ailment to all who have kidney trouble." John H. Smith, Michigan, California.

FOLEY KIDNEY PILLS

soothe, strengthen, heal overworked, weak and diseased kidneys and bladder. When these organs are working properly, the blood is cleaned and purified, appetite returns, good digestion follows, refreshing sleep is possible, health and strength come again. They have brought relief to thousands of men and women who thought old age was closing on before it was due.

Just Folks by Edgar A. Guest

THE TOWN OF USED TO BE
Used to think I'd like to go
To the town I used to know
As a little bare-foot lad,
Tanned of cheek an' always glad,
But it's been so long since I
Told the good old friends good-bye
An' set out for wealth an' fame,
That I cannot be the same,
An' maybe I'd better not
Spoil the picture that I've got.

Bill's been back, an' he tells me
Town's not what it used to be;
That old Barker's grocery store
Isn't open any more,
An' most folks we knew are gone,
Moved away or traveled on
To a brighter realm than this,
An' the girls we used to kiss
An' go courtin' with, somehow
Don't seem half so pretty now.

Folks have told me that the farm
Where I lived, has lost its charm
An' they've paved the dusty street
Which was velvet to our feet,
An' it's now a thoroughfare
With the hum of motors there;
Wouldn't want to lose the joy
That I've treasured from a boy—
Guess I'd better keep always
Memories of those happier days.

I'm afraid of goin' back,
Memory still keeps the track
To those favorite haunts of mine
Like a painted canvas fine,
An' the old spots live with me
Just the way they used to be;
An' to see them now would seem,
Much like shattering a dream,
So the town shall live with me
Just the way it used to be.

AS THE TREE IS BENT SO IS THE TWIG INCLINED

AN EFFORT to "regulate" the conduct of young people in Chicago brought forth the fact that the young people in question were but following the example set by older folk. Now here comes a story from Columbus, Ohio, which bears out the theory that reformation to be effective must begin with the "higher ups":
Bill "Blank," a student at Ohio State University, rushing into the university jewelry shop, asked the proprietor why his watch wouldn't run.
"Well, I'll tell you," said the jeweler. "It has three small pictures of girls, two long blonde hairs, one brunette hair, not quite so long, a little talcum powder in the differential, a wee piece of ribbon and the remnant of a powder puff."
The jeweler exhibited the love-lorn articles to Bill. Looking sheepish and expressing astonishment, Bill said: "Gee, I don't know how they got there. I just received the watch from my dad."
Now what do you know about that?

HIGHLY IMPORTANT—BUT WHAT IS IT?

THE following is the concluding paragraph of President Harding's recent address before congress:
We can render no effective service to humanity until we prove anew our own capacity for co-operation in the co-ordination of powers contemplated in the Constitution, and no covenants which ignore our associations in the war can be made for the future. More, no helpful society of nations can be founded on justice and committed to peace until the covenants re-establishing peace are sealed by the nations which were at war. To such accomplishment—the complete re-establishment of peace and its contracted relationships, to the realization of our aspirations for nations associated for world helpfulness without world government, for world stability on which humanity's hopes are founded—we shall address ourselves, fully mindful of the high privilege and the paramount duty of the United States in this critical period of the world.
It is being facetiously remarked by some newspapers that this paragraph is responsible for the fact European papers have mostly remained silent regarding the message. They don't know just what it means and do not wish to show their ignorance.

ANOTHER PUZZLE

HIDES have suffered a slump of 50 per cent in price in New Zealand, but even then bring a value, translated into American money, of 12 to 13 cents a pound and first calf-skins 24 cents.
In this country, with much less livestock per capita, and far greater demand for shoes and leather, the price ranges from 2 to 3 cents and commission houses advise farmers that hides are unwelcome at that price.
How do you figure it out?—Capper's Weekly.

There are good, reliable clothes cleaning establishments in Pendleton and there is no occasion to send such work out of the city, to Walla Walla or elsewhere. Every dollar kept here is a dollar in local circulation; the dollar sent away is a dollar gone.

They say that in Pendleton the only driver more dangerous than a pretty woman is a man who is watching a pretty woman pedestrian.

In Syracuse, N. Y., there is a regulation that dancers use only their feet; in the west the custom is for dancers to use the floor.

In view of the present high rail rates the move to have the Hill liners restored to the run between Astoria and San Francisco is a good one; furthermore the trip-by water is more pleasant than by rail.

PROHIBITION IS FACTOR IN COMING ELECTION

By CHAS. McCANN,
(United Press Staff Correspondent)
DUBLIN.—(By Mail.)—Prohibition is the issue which is forcing Sinn Feiners and Irish Nationalists in the North of Ireland to get together on common ground and probably ultimately will cause them to sit in the Ulster Parliament.
While the South of Ireland, solidly Sinn Fein, has repeatedly rejected Lloyd George's dual parliament scheme, the Irish Nationalists and Sinn Feiners in the Six Counties have been unable to decide upon a policy.
Within the past few days, however, the leaders of these two wings of the Irish Catholics in Ulster have gotten together and decided to participate in the elections, to be held in May. Both factions have agreed to advance an equal number of candidates, who are to have mutual support. The Sinn Fein candidate in the plebiscite-district of Sinn Fein is to get the combined vote of the Nationalist, while the Nationalist candidate in another district is to get vote of both the Nationalist and Sinn Fein. In this way the Catholics hope to make a sufficient manifestation of their strength in

"Carsonia," as Ulster is dubbed by the rest of Ireland, to impress the Orangemen as well as the government in London. Up until the present, however, both Nationalists and Sinn Feiners, if elected, have pledged themselves not to take their seats.

According to advance predictions, the Catholic minority in North Ireland cannot hope for a representation that will in any way be formidable against the combined forces of the Orangemen. On the other hand, on questions where there is a divided Orange following, they would be able to hold the balance of power.
Prohibition is the one question that will drive the Irish Catholics and Irish Protestants in Ulster to combine. If the Sinn Fein and Nationalist members elected do not take their seats in the Belfast Parliament, it is conceded that the Drags, who have made great headway in the North of Ireland, will have a clear majority. The "Pussyfooters" have already announced that they will immediately precipitate the prohibition issue.
According to statistics, more than ninety per cent of the license holders in Ulster are Catholics and either Nationalists or Sinn Feiners. Passage of a prohibition law would ruin their business. On the other hand, the percentage of Catholics and Protestant brewers and distillers, is about even. In numbers, however, they are far less than those engaged in the retail trade. Their representation in

VESSEL HAS EXPLOSION, CROWN PRINCE ABOARD

TOKIO, April 20.—(A. The prince arrived in Suez safely Friday.

Look to Your Paint

Is It Giving You Protection?
IF CHECKED or cracked, new paint is needed, and it will be cheaper to paint now for deterioration costs more than good paint.
A well painted house brings several hundred dollars more on sale and more in rent. Keep it painted and it stays new for years.
The best paint spreads more easily — saves labor cost. It covers more square yards — you buy more gallons of cheap paint.
The best paint then protects the house, if properly applied, from five to ten years longer.
There is no question as to which costs less. Don't allow surfaces to rot. It costs less to paint them.
The best paints are scientific in formula and preparation.
We've made them for 72 years — to meet weather conditions in the West.
The best materials—PIONEER WHITE LEAD, pure linseed oil, zinc and color—are combined in Fuller Paints in scientifically exact proportions with long-time skill.
Our process super-purifies and "whitens" the lead base. It must be fine enough to pass through a silk screen with 40,000 mesh holes to the square inch. Fine lead means easier spreading and a more elastic, tougher protective coat. The "Whiter" lead base means more beauty in the colors.
Such paint will, if properly applied last from five to ten years longer than cheap paint, and look better through the years.
