PIPAL, DISCIPLE OF OPEN FOOTBALL WILL RETURN FROM EUROPE

Man Who Has Been in Charge Physical Training for New Republic is Coming Back.

LOS ANGELES, Cal., April 20.—(A. P.)—"Timber Wolf" Joe Pipal, the man who introduced open football to the Pacific coast and regarded by many experts as one of the keenest present day gridiron tacticians, has announced his intention to return from Europe to renew his western football activities as coach for Occidental college athletic teams in Los Angeles next year.

Pipal is now head of physical training work for the Czech-Slovaks with headquarters in Prague, from which point he recently cabled acceptance of the Los Angeles institution's proposition.

The westerner's record in football began at Occidental where, in four years, he was instrumental in developing a number of football men who became widely known along the Pacific coast and later he boyed up the record of the Oregon Agricultural college by producing there the only football team in ten years to defeat the University of Oregon, a feat no team since has duplicated, it is said.

During the war Pipal was a physical director for the Y. M. C. A. and after the armistice one of the head coaches of the A. E. F. track team that won the Inter-Allied championships. His work attracted attention of the officials of the new-born Czech-Slovak republic and he was subsequently chosen to organize the physical training system of that country.

THIS TIME LAST YEAR. Cravath, Philadelphia, hit a homer off Benton in eighth with two on, beating Giants 3 to 0. Cleveland and Detroit used 31 players in a three hour game, Cleveland winning 1 to 10. Walker knocked two home runs and Dugan one for Athletics.

BAGSHAW GETS OUT MEN FOR SPRING PRACTICE

SEATTLE, April 20.—(A. P.)—University of Washington's new football coach, Enoch Bagshaw, already is at work getting ready for next season. Recently "Bugsy," as he is known on the campus here, held his first spring workout and put the sixty seven men who turned out, through light passing and running work.

The spring turnout was the largest in the history of the University. Yet the candidates did not include several varsity veterans who could not attend because they are on the varsity track and baseball teams and the crew.

Washington's hole at the quarterback position may be filled by Harry P. Quans, a transfer from Gonzaga college. Quans is out working with Bagshaw now.

VERNON SHUT OUT. LOS ANGELES, April 20.—(A. P.)—San Francisco shut out Vernon, 8 to 0, yesterday. Ten safe hits in the first three innings being chiefly responsible for the one-sided score. The winning tally in the first was made by Fitzgerald, who came from third on a sacrifice fly by O'Connell. Coach pitched high class ball for the victors, allowing the champions but four hits in as many innings.

MANAGER NICK AND HIS BALL PLAYERS ARE ON THEIR WAY

Moose Jaw Aggregation Leave on First Leg of Trip That Will Take Them Home May 4

Nick Williams and his squad of Moose Jaw baseball players concluded their training work in Pendleton for this season when they went to Dayton early this morning where they will play a game this afternoon if the weatherman arranges his showers so mudsuits will not be necessary.

That the stay of the club here was pleasant was testified by Manager Williams shortly before the squad left. "We certainly appreciate the good spirit and the fine treatment we have received in Pendleton," he said. "The Round-Up town certainly knows how to treat strangers so they want to come back."

The weather has been pretty good for training this spring, and the club has been able to round into form that is really good within a short time. The exhibition games that will be played as the squad makes its way by leisurely stages toward Moose Jaw are expected to put the players on a keen edge for the opening of the season May 4.

Pomeroy is on the schedule for Thursday afternoon and Saturday and Sunday games will be played at Lewiston.

PENDLETON BOY GETS HONOR IN FOOTBALL AT MILITARY SCHOOL. Adolph Heyden of Pendleton has been elected captain of the Hill Military Academy football team to represent the academy in the fall. Heyden succeeds his brother Homer Heyden who has been attending the academy in Portland for several seasons and who will be graduated in June. Robert Thompson of Centralia, Wash. will be basket ball captain and Earl Farra of Paisley, Ore., will be baseball captain and also is secretary of the H. Club, the organization made up of letter men at the academy. The track captain is Lewis Hill Personius of Seattle. The H. Club will give a dance at Liggett hall, one of the residence buildings of the academy, in May.

13TH GAME DRAW. HAVANA, April 20.—(A. P.)—The 13th game in the world championship chess match between Jose R. Capablanca and Dr. Emanuel Lasker was declared a draw shortly after midnight after midnight after the 23rd move.

GRANDMOTHER KNEW There Was Nothing So Good for Congestion and Colds as Mustard. But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin. Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears. Use Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia). 3c and 6c jars; hospital size \$3.00.

'In Every Respect' says the Good Judge

You get more genuine chewing satisfaction from the Real Tobacco Chew than you ever got from the ordinary kind.

The good tobacco taste lasts so long—a small chew of this class of tobacco lasts much longer than a big chew of the old kind. That's why it costs less to use.

Any man who has used both kinds will tell you that.

Back to Stage

MISS GENEVIEVE WARD Miss Genevieve Ward, 84, is studying a new stage role. She has been named to play the part of Queen Margaret in "Richard the Third" during the Shakespeare revival at the old Vic Theater in London. The king of England recently made her a dame commander of the Order of the British Empire, which is the same as knighthood. She is the first American woman to be so honored.

To Mexico?

General Hugh L. Scott, former chief of staff, now retired, is mentioned as probable ambassador to Mexico.

FRENCH GOVERNMENT TO DEVELOP ELECTRICITY

PARIS, April 20.—(A. P.)—Plans now in course of preparation by the French government contemplate the development of a yearly average of 4,000,000 horsepower by 1934 through the utilization of the rivers of the country for the manufacture of electricity.

The creation of energy for the electrification of the railways and the big industries of France has received tremendous impetus since the armistice. Reports just completed show that within the last three years 450,000,000 francs have been invested in 49 power plants throughout France by French investors.

The recent visit by President Millerand to the valley of the Rhone water ed interest in the famous Rhone water power project, plans for which have been completed and now are before the senate for ratification. The chamber of deputies approved the scheme in October, 1919.

The Rhone project, as it is known in Europe, is one of the most comprehensive water-power developments ever conceived and involves the expenditure of 2,000,000,000 francs. No fewer than 20 lesser projects have been launched in France but the Rhone is further advanced than the others.

It has been estimated that the Rhone scheme, together with the other proper treatment for whooping cough.

It is of interest to all and especially to the parents of young children to know what is best to be done for whooping cough. Mrs. Walter Beall, Patterson, Mo., relates her experience. "A few years ago, our children had whooping cough and the only medicine we gave them was Chamberlain's Cough Remedy. It kept their coughs loose and expectation easy. They were not sick very long and had a light attack of it. I give credit for their speedy cure to the medicine."

Chamberlain's Liniment This is a massage liniment, especially valuable for the relief of rheumatic pains and soreness of the muscles. Mrs. K. C. Dodge, Whitesboro, N. Y., writes: "The splendid results I and other members of my family have received by the use of Chamberlain's Liniment, warrant my endorsing it in the highest terms."

Only Makes a Bad Matter Worse. Perhaps you have never thought of it, but the fact must be apparent, to every one, that constipation is caused by lack of water in the system and the use of drastic cathartics, like the old-fashioned cathartic and liver pills, make a bad matter worse, as they take too much water out of the system. Chamberlain's Tablets are much more mild and gentle in effect and when the proper dose is taken, their action is so natural that one can hardly realize that it is the effect of a medicine.

er big projects, would effect an annual saving of 5,000,000 tons of coal, thus diverting to other purposes and probably reducing the importation of coal by France.

Ten phone plan would make navigable between 400 and 500 kilometers of that river, would reclaim 650,000 acres of ground now useless and probably place at the door of Paris electricity at a price within the reach of everyone.

The government plans to make the Rhone, as well as all the other projects, a "creation of the people" through the issuance of six per cent non-taxable bonds, the proceeds to be used in construction. The finance committee of the senate now has the matter before it, but because of the financial depression and the already great burdens on the French treasury, the actual construction probably will not begin for several years.

The majority of the plans for hydro electric development concern the Rhone, Rhone, Garonne, Rhine and Loire.

The Fordson Tractor. The Fordson is of unlimited value to the caterpillar owner. Think how practical and economical to put it to plowing out the corners, back furrowing around the fence and finishing up lands. When that is done hook onto the harrow. The Fordson does not pack the soil and will work just as well on plowed ground at harrowing, blading, discing, seedling, etc., as plowing. Can you plow an acre an hour day after day at a cost of Fifty Cents with your horses? Can you seed Fifty Acres a day at a cost of less than Ten Cents an Acre? Think how handy they are for hauling tank wagons, gas and oil to the field and to run the power plants on your place. If you are interested we will give you a demonstration on your farm at our expense. Simpson Auto Co. Phone 408 Water and Johnson Sts.
