Embarkation Points Guarded.

CHICAGO, April 22.—(U. P.)—Embarkation points on the United States border are guarded by the department of justice operatives for possible fleeing members of the I. W. W. District Attorney Cline said. This action followed the supposed escape of "Big Bill" Haywood, reported to have arrived in Russia. Cline has the assurance of Otto Christensen, attorney for the I. W. W., that other members convicted with Haywood will report at Leavenworth next Monday, but is taking no chances, he said. Christensen is one of those who put up the \$15,000 bond for Haywood, was the first to report the disappearance of his client to Cline.

"I do not believe Haywood intends to stay away from the United States," declared William Bross Lloyd, the millionaire radical, who also signed Haywood's bond. "He perhaps did not know he had to begin his prison term so soon."

Investigation Ordered.

CHICAGO, April 22.—(U. P.)—Federal officials today ordered an investigation of the radical's headquarters throughout the country in the belief that Big Bill Haywood, reported yesterday to have fled to Russia, was being concealed in this country in connection with the alleged plans for a May Day demonstration. 'NO SALE' RECORD IN CASH REGISTER SIGN OF NOCTURNAL VISIT

The cash register at Hartman Long's bicycle shop on Court street told a story of something out of the ordinary this morning, but no one except the proprietor of the shop could qualify as the kind of a linguist who would be able to understand the story. "No Sale" was the record on the register when Mr. Long opened his place of business. Now that was much out of the ordinary, because the system followed at the shop always leaves a certain set of figures up in the corner as having been "rung up" for the last sale of the night before. An investigation disclosed that the register had been opened during the night, and loose change amounting to \$5 was taken. Sixty-five cents in pennies was left alone. Entrance to the store was gained by taking off a screen over a rear transom. Mr. Long is of the opinion that an old offender of local fame is responsible for the theft. The Louis Greenwald shoe repair shop was entered one night early in the week and a pair of shoes taken.

LOCKOUT IN BUILDING CRAFTS IS THREATENED IN CHICAGO MAY FIRST

if Plans Are Carried Out it Will Completely Stop What Work Has Been Going On.

CHICAGO, April 22.—(U. P.)—A lockout in the building crafts confronts Chicago. The builders served an ultimatum on the unions that unless a 20 per cent cut for skilled labor and a 30 per cent cut for unskilled labor was accepted by the trades, a lockout will occur on May 1. The union arbitration boards were called in session to discuss the situation. It is probable that the trades will offer a compromise. More than one hundred million dollars in projected building is being held up until construction costs drop, it is said. The lockout will completely stop what little work has been going on.

MAKES CHANGES AT TOURIST PARK FOR SUMMER BUSINESS

Every effort to take good care of the tourists who will pass through Pendleton on auto trips this summer are being made by the city council. The park committee of which Councilman William Dunn is chairman draws the responsibility of looking after this phase of civic activity, and quite a lot of work has already been accomplished.

Brick Ovens to be Added to Present Equipment and Wood Will be Sold at Cost Price.

There will be a caretaker on the grounds to take charge of the park and see that reasonable demands of visitors are complied with. John Mason has been employed in this capacity, and he is already on the job. There is one innovation in the service this year in that wood which is furnished the campers will be sold at cost in an effort to cut the expense of the park to the lowest possible minimum consistent with hospitality and good business. Formerly the fuel was furnished free of cost, and last year during the Round-Up, the fuel bill was slightly in excess of \$200. An effort to get away from this heavy item caused the council to decide to charge the cost-price for the wood. A number of brick oven-furnaces are to be built. Work on a sample offering was begun today and if the first furnace looks good, several will be constructed. Toilet facilities and plenty of running water are other attractions of the park. Many victrolas have already been received, but at present there are not very many tourists. The opening of the La Grande road recently which has been closed, was the signal for the departure for many castaway travelers.

U. S. TO DECIDE TO WHAT EXTENT GERMANY PAYS

This Was Conclusion Reached Following Publication of German Note of Appeal.

GERMANS CONSIDER NEXT STEP IN THEIR CAMPAIGN

America's Reply Was Regarded as Command to Submit to Indemnity Proposals.

WASHINGTON, April 22.—(A. L. Bradford, U. P. Staff Correspondent.)—The United States will have a deciding voice in determining to what extent Germany shall pay for the war. This was the conclusion in Washington following the publication of the German note appealing for Harding to mediate the reparations question, and Hughes' reply rejecting the appeal but urging the immediate reopening of negotiations between the allies and Germany, for the settlement of the problem. The allies and Germany, it is thought, will be forced to accept the views and principles of the United States in the settlement.

WANTS NEGOTIATIONS RESUMED

WASHINGTON, April 22.—(A. P.)—The United States "strongly desires" that there be a resumption of negotiations between Germany and the allies regarding the reparations, Secretary Hughes said in a note sent yesterday to Berlin refusing the German request that President Harding mediate in the controversy and fix the sum Germany must pay. The note offered, however, to bring to the attention of the allies any proposals Germany might present as the proper basis for a discussion. Faced by an almost certain occupation of more territory by the French on May first, Germany will lose no time in accepting America's offer, think the representatives of the neutral and allied governments here. Reports from Paris and London failed to indicate that any modification of the demands will be considered.

French Are Disappointed

PARIS, April 22.—(Webb Miller, U. P. Staff Correspondent.)—French officials are frankly disappointed at the tone of America's refusal to mediate the reparations dispute. France hoped for a brusque denial of one German plea. Cabinet ministers and senators hastened to the foreign office for a glimpse of the German-American correspondence. "It will seriously derange all the allied plans, especially our plans," one high official said, "and may cause changes in the military action planned."

PARIS, April 22.—(U. P.)—Germany has rejected the allied ultimatum that Reichsbank metal reserve be transferred to the Coblenz and Cologne branches before May 1. The Germans made a counter proposal that the allies be given the right to prohibit exportation of German gold from May 1 to October, thus safeguarding the allies' rights. The allied reparations commission which has issued the ultimatum said the rejection would result in a demand for the complete surrender of the country's metal reserves, which is estimated at 750 million dollars.
