## HE HAD TO SLEEP SITTING IN CHAIR

**Portland Man Was in Pain All the Time From Rheumatism Until He Got Tanlac.**

"It was six months ago that Tanlac set me straight and added fifteen pounds to my weight, and ever since then I have been enjoying as fine health as I ever did in my life," was the statement made recently by G. W. Axelson, of 244 Cook Avenue, Portland, Ore.

"Seven years ago I had an awful attack of rheumatism," he continued, "and it kept pulling me down until during the past year I wasn't able to work more than half the time. My whole left side became affected and it pained me so I could hardly touch it. My leg was drawn and crooked and if I tried to straighten it out I simply suffered agonies. I was in pain all the time, could never sleep to any good and was often unable to lie down and would have to sit in a chair all night long. My appetite went down to nearly nothing and I fell off in weight."

"I had no idea Tanlac could do me much good after all the many treatments and medicines I had tried had failed, but it proved to be a winner. In a short time the pains commenced to let up and I could straighten out my leg without its hurting me. And in little more than a month I could not feel a trace of the rheumatism and had actually gained fifteen pounds in weight. This was six months ago and I have not been troubled in any way whatever since. I am in the very pink of condition, eating fine, sleeping fine and working hard every day. Tanlac has meant health to me and I give it my heartiest endorsement."

## "Feet First Ail the Way!"

What pleased Daniel Carone (inset) when he made this leap from the top of Brooklyn bridge was that the jump was "in perfect form—feet first all the way!" The first time, in 1915, he somersaulted. This picture, taken by a Public enemyman shows the splash as he hit the water. Carone's a Great Lakes sailor.
