Fishermen Take Heart.

The condition of streams is improving rapidly so that fishing, held up for a number of days on account of heavy rains and snows in the hills, may be enjoyed again within a few days. Anglers have been trying some of the smaller creeks. McKay is in fairly good condition now. Birch is rapidly clearing. The river is still muddy but the water is lower now than it has been for some time.

Fifty Hard Dollars.

For being guilty of having intoxicating liquor in his possession Homer Ritchie had to enrich the treasury of the city to the extent of \$50. When arrested, he was intoxicated, and a small quantity of "moonshine" in a bottle he had in his pocket was the incriminating evidence that caused the heavy fine. D. W. Shafer, a farmer, was fined \$2 for driving his car with the cutout open. Both fines were paid.

They Ring the Clock, Now.

Employees of The Peoples Warehouse are punching the clock now and keeping their own time since a new time-clock has been installed in the store. The clock is one of the latest models and is put out by a Cincinnati firm. Formerly, the heads of departments have had the responsibility, but the new arrangement makes each employee responsible for his own bookkeeping on the number of hours he is at work.

They'll Use Sweaters.

When the Baptists and the Christians meet tonight for the first game of baseball in the twilight league, each

team will be arrayed in sweaters and muffers to keep the wind out. The game is called for 6 o'clock and the price of admission will be one dime.

Visits Umatilla.

Fred Hemmon, county agriculture agent, left today for Umatilla where he will spend the day in the interests of boys' club work.

Awnings Are Placed.

The American National Bank is preparing for the coming summer by putting awnings in place. Ten new awnings have been put up, the work having been done by Hamley & Co.

Storm May Be Over.

Major Lee Moorhouse, official weather observer, believes that the stormy weather is over, for the barometer registers 29.85. The maximum temperature today is 60, with a minimum of 46.

96 Babies Registered.

Ninety-six babies have been registered for the child conference to be held in Weston in May, says Mrs. Edith C. Van Dusen, home demonstration agent. The conferences are to be held in Weston, Hermiston and Pilot Rock.

Flour Prices Low Here.

That Pendleton people receive the benefit of a lower wholesale price for high patent flour than those prevailing in Portland is pointed out by local milling interests. The wholesale price here is \$4.95 the barrel in 49-pound bags and the freight to Portland is fifty-five cents. The Portland price on the same quality flour is \$4.29, or a difference of 89 cents with freight added.

No Sign Placed.

Motorists are complaining because no sign or warning of any kind has been placed near the Mission bridge which has since a storm some time ago been closed to travel. A party of motorists state that they drove to the edge of the embankment before discovering that the bridge was out of repair and that occupants of the car narrowly escaped an accident.

Opinion On Traffic Laws.

New laws in the state governing driving, registering and other operations of motor vehicles will go into effect May 25, according to an opinion by the attorney general to the secretary of state. A copy of the opinion has been received by William Lyday, traffic officer. Some provisions of the new law do not go into effect until January 1, 1923. Conditions to this effect were incorporated in the statute.

Machines Collide.

A motorcycle ridden by Lester Harwood and an automobile driven by Mrs. Carl Hudeman collided yesterday afternoon at the bridge on Main street in front of the Bowman building. Young Harwood, who was going north, had been on the right side of the street and started to cross diagonally to the left. The car coming toward Main from the north side, collided with the motorcycle. Harwood was thrown to the ground but was unhurt, and his machine was not damaged.

Boys to Play.

The boys of Boy Scout Troop No. 1 are making plans to play baseball games with the scouts of Troop No. 2 and will play tomorrow at the Round-Up grounds to determine what members shall be in the team. The chosen players will arrange a game with the Troop 2 team. The Scouts, according to plans made at a meeting last night, will hike to Tutuilla Mission Friday afternoon, and after cooking supper, will spend the night at the missionary manse as guests of Rev. J. M. Cornelison. After breakfasting the next morning they will return to Pendleton. Rev. Cornelison will arrange for the transportation of blankets and cooking equipment.

Inspector Commends Lyday.

Commendation of the work of William Lyday, traffic officer, is expressed by T. A. Rafferty, chief state inspector, in a letter which the officer has received from the state official. Praise of officials and the condoning of offenses against the provisions of state traffic laws are deplored by Rafferty. Lyday also said today in reply to the criticism of him that was expressed by Jim Kirby, Boise auto dealer, when Lyday deprived Kirby of a dealer's license which he had borrowed from another dealer in the central part of the state in order to get the car home, that Kirby violated the law when he used the license plates. "I was a good enough sport to let Kirby go on home without taking out an Oregon license, but it's my job to enforce traffic laws, and that's what I'm going to do. If I get so I can't take care of my duties, then I'll quit."

POLICE FIND OPIATES HID IN PHONOGRAPH

SPOKANE, April 26.—(A. P.)—Thirty ounces of cocaine and morphine concealed in a phonograph were seized in a private residence yesterday by government agents. Two men and one woman were placed under arrest. The drugs are valued at \$12,000. Aiding in the seizure was H. W. Cole, of Salt Lake, department of justice officials.

Forest Service laboratory workers at Madison, Wisconsin, have discovered that kiln-dried timber is fatal to some if not all the wood-boring grubs. This fact is of special importance to users of hickory, ash and certain other woods which are subject to attacks from these insects.

To avert the danger of forest fire caused by sparks from locomotives, the officials of the Kootenai Railroad of Pennsylvania announce that no trains will be run over the road during dry weather. Inhabitants of the danger zone welcome this decision.

ECHO BASE BALL TEAM DEFEATS PILOT ROCK

(East Oregonian Special.)
PILOT ROCK, April 26.—Rev. W. H. Amos, assistant superintendent of Home Missions of the Synod of Oregon, whose headquarters are in Portland, arrived in Pilot Rock Saturday evening and preached at the community church both Sunday morning and evening to a good sized audience. Following the morning services a basket dinner was enjoyed in the church basement.

An open meeting of the board of trustees followed the dinner and sufficient pledges to cover the old church debt were made. The matter of bringing a student here to serve the church during the summer months and securing a permanent pastor for the coming year was discussed. It is felt that much good was accomplished at the meeting.
