Oranges

We have had many calls for the little Oran-

ges since they were out; for the next few days we can offer you a bargain in some larger or-

anges at 35c per dozen. These are nice size navel oranges and are good flavor and sweet.

Indications were that killers are filled up with sheep and lamb offerings at North Portland. Thursday morning arrivals in the alleys were only fair, but buyers were hard to uncover. There was no real weakness in the market, just a lack of appreciative buyers.

Rate Disappointing, NEW YORK, April 29.—(A. P.)-Much of the occasional irregularity which characterized yesterday's fairly active stock market was ascribed to a feeling of disappointment arising from the cut in Pennsylvania railroad dividend rate. This episode, it was opularly believed, foreshadowed the nauguration of a similar movement y other leading transportation systems whose directors and executives have long been committed to a policy of drastic retrenchment.

The most hopeful news was of foreign origin. Bankers regarded the reduction of the Bank of England dis count as indicative of a nearly settlement of British labor disturbance and of further progress towards soluion of the German

Foreign exchange reflected the ear ier money conditions abroad. Steri-ing bills duplicating their recent maximum quotations and French, Belgian, Dutch and Swiss rates also hard-ening materially. German remittances were depressed, however, and the Greek rate again broke sharply. Rails were subjected to moderate pressure at the outset, together with prominent oils, motor specialties, util-ities and miscellaneous issues. After midday prices rallied under lead of Studebaker, General Asphalt and International Paper, but another irreg-ular setback ensued before the close when call money rose from 6 1-2 to per cent. Sales \$75,000 shares.

The sudden jump in call loans was attributed to withdrawals of funds for federal account and to preparations by local banks to meet heavy May inter-

est and dividend disbursements. Trading in bonds was more active and broader of scope than at any re-cent period. A firm tone prevailed in most of the important domestic issues neluding liberty bonds. The interna tional list also held steady, but was without especial feature. Total sales. par value, \$12,875,900.

It was said six hundred thousand bushels of new wheat had been purchased for Europe, and that exporters had offered equal to twenty cents over May track Chicago, for No. 7 hard but had been outbid by domestic millers. The earlier weakness was ascribed in a general way to bearish weather and crop reports and to the unsettled con dition between Germany and the al-
