TO CLEAN SLASHINGS AND REFUSE BEFORE FIRE SEASON STARTS

J. C. Kuhns, Local Supervisor, Will Direct Work Ridding Umatilla Forest of Trash. A vigorous clean-up campaign will

FRECKLES

Now is the Time to Get Rid of These Ugly Spots. There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from any drugist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion. Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.

be instituted on the Umatilla National forest to do away with the slashings and other refuse resulting from logging operations before the beginning of the fire season, says J. C. Kuhns, forest supervisor. The program is in accordance with the edict of the Oregon state forester. The law provides that such refuse shall be burned prior to the coming

fire season. Section 8942 of the Oregon forest fire laws providing that in case of refusal or neglect by any person to take these precautions, the state forester or fire warden shall have the right to have the work done to the extent he deems requisite to the public safety, the costs thereof being recoverable from the offender by action for special lines.

Such an offender, if convicted, can be fined for not less than \$25 or more than \$250 for each offense, or may be imprisoned for not less than 10 days or more than three months.

Will Attend Farmers' Week—Not fewer than 2000 farmers, housewives, and other citizens are expected to be on hand to take advantage of the many attractions the state agricultural college is offering for Farmers' Week, June 13 to 18. Rural life and home makers conferences, cooperative meetings and gatherings of state and district organizations, will be interspersed with instruction and demonstrations in some of the fundamentals of agricultural science and practice in Oregon. Excursions from all parts of the state, wayide and campus camping, playground supervision for the little folks social and recreational facilities, are a few of the incidental offerings. Speakers of national reputation have been engaged—men and women who are standard authorities in their special lines.

Irrigation Season Opens—The irrigation season on the Hermiston project is on in "full swing" as is evidenced by the fact that everybody seems to be trying to irrigate the roads. There is a great abundance of water which has resulted in flooding the farms.

Harrow in Sulphur—Sulphur on alfalfa has proven very beneficial, according to experiments made at the Hermiston Experiment station. The sulphur gives better results when harrowed in, as the harrowing works the sulphur down so that the plants can get it and also distributes the sulphur more evenly.

Tar Weed in Wheat—Some wheat fields beyond Astoria show a considerable amount of tarweed. The stubborn growth is very thick and while it is thought the grain will outgrow the pest, the weed will probably cut down the yield somewhat.

Gardens Thriving—Gardens in Pendleton and vicinity are thriving because of the favorable weather. Some gardeners are already getting onions and radishes from the city garden patch. Peas are growing well and the vines are several inches high.

Queen Mary of England recently wore a grey fox muff at a meet of the West Norfolk fox hounds. One of the pack spied the muff, leaped and leapt for it. Soon the whole pack surrounded the queen and were with difficulty called off.

Strength comes from well digested and thoroughly assimilated food. Hood's Serravallo tones the digestive organs, and thus builds up the strength. If you are getting "run down," begin taking Hood's at once. It gives nerve, mental and digestive strength.
