**A. G. Fuller Says Taniac Has Restored His Health and He Gained Thirty-Five Pounds in Weight.**

"I was also suffering from loss of energy and general weakness, and this, as well as the stomach trouble, became much worse. Gas would form on my stomach, causing awful pains and a feeling of suffocation. I was badly constipated and in such misery that I would often roll and toss all night long in my bed. I was so weak and nervous that it was only with great effort that I could do my work."

"My mother persuaded me to try Taniac and my weight increase was thirty-five pounds, a gain of five pounds above my usual weight, in thirty days. I can eat anything now without a sign of indigestion, my nerves are back to old-time form and I am enjoying life and good health as I have not before in years."

"Following an attack of the 'flu' in 1919, I found myself in an awful run-down condition. My stomach, which had troubled me for three years, became very much worse and for two months I suffered frightfully. I rarely ate at all during that time and fell off thirty pounds in two weeks."
