LA GRANDE COMING TO COMPETE WITH THINLY CLADS HERE SATURDAY

Hanley's Athletes Handicapped by Loss of Carmen Saunders From Pendleton Lists.

The first track and field program of events will be staged here for this season tomorrow afternoon when the La Grande outfit will invade Pendleton to try skill and endurance with Coach Dick Hanley's squad of thinly clads.

Carmen Saunders, Hanley's old reliable in the hurdles and high jump and pole vault is not expected to participate in the meet because of sickness. Saunders can usually be counted on for 17 sure points, and with him out of the events, Pendleton's chances are none too rosy. He may be able to start.

The La Grande athletes are more experienced in track activities than the Pendleton lads, and this will be one opportunity they will have over Hanley's proteges. They have Theisen who won the half-mile last year in the Eastern Oregon meet, Larson who copied the honors of the 440 and 880 yard races, and this will be one opportunity they will have over Hanley's proteges. JOBS FOR WOMEN; BUT FEW FOR MEN

CHICAGO, April 29.—(U. P.)—

Women who entered the industrial field by the thousands during the war, are a big factor in the present unemployment situation.
This opinion was expressed today by Commander William Peart of the Chicago district of the Salvation Army. Commander Peart said that while it is practically impossible to find jobs for the many men who apply to the Salvation Army, there is little difficulty in placing women.
"Changed industrial conditions have brought about this situation," said the army commander. "Many of the women who entered the industrial field during the war have remained. Their employers are not only satisfied with retaining them, but are employing more."
Peart believed this is a factor which "must be reckoned with in future industrial depressions."

Ice is expected to go out of Lake Labarge in time for the first steamboat to leave White Horse for Dawson on the night of June 5, it was stated.
Steamships leaving Seattle during May will establish connection with river traffic. Steamship officials said today advance bookings indicate a big tourist travel into the north this year.

Some FACTS About FORD

THE UNIVERSAL CAR

Here are authentic figures from the Ford factory at Detroit. They show you just how many Ford cars and trucks have been built each month since January 1, 1921 and how many have been sold to retail customers in the United States.

	Produced	Delivered to Retail Customers
JANUARY	29,883	57,298
FEBRUARY	35,205	63,603
MARCH	61,886	87,221

Total Production 127,974 Total Retail Sales 208,022 showing that actual sales for the first three months of 1921 exceeded production by 80,958 Ford cars and trucks!
April requisitions already specify 107,719 additional cars and trucks and the estimated April output of the factory and assembly plants combined calls for only 90,000!
These facts clearly show that the demand for Ford products is growing much faster than manufacturing facilities to produce and were it not for the dealers' limited stocks, which are now being rapidly depleted, many more customers would have been compelled to wait for their cars. It will be only a matter of weeks, therefore, until a big surplus of orders will prevent anything like prompt deliveries.
If you would be sure of having your Ford car or truck when you want it, you should place your order now. Don't delay. phone us or drop us a card.
