

Are You Prepared for the "Call of the Open Road"

Enjoy the great out-of-doors this summer in the luxurious comfort of an ACE Six. In power, speed, smoothness, and ease of control the Ace is on a par with its namesake—the Ace of the air. But while only a few daring spirits may enjoy the keenness of aerial flight all Autoists may revel in the delights of the "Super-Comfort Road Car."

ACE construction exemplifies thorough substantiality. It appears massive, yet its skilfully designed chassis and aluminum metal body assure the lightness necessary to economical operation. The smart lines of the Ace bring glances of admiration on any highway.

Extra Liberal Trade-in-Offer

Our Extra Liberal Trade-in Offer makes it an easy matter for you to secure a brand new ACE Six. For a limited time only, we will take in used cars at an extremely liberal valuation with very easy terms on the balance. We finance our own deferred payment papers. If this offer appears too good to be true you can easily put it to test by driving your car up to our headquarters here and selecting your new ACE.

We who know the Ace so well, and what it will do in actual performance have no hesitancy in backing it with a most unusual guarantee. For Three months we agree to keep the Ace in perfect condition without cost to you for service—for One whole Year we guarantee Ace parts against showing defects. In the latter guarantee we are backed by the Ace Factory. Come and see the ACE. The more you study it from every angle the more you will be satisfied that it is a car of unusual merit.

ACE SERVICE

No matter how good the intrinsic merits of an Automobile may be, it is only as valuable to its owner as the service behind it. A full and complete line of spares will always be ready for ACE owners.

SOLID BACKING

The ACE is made at Ypsilanti, Michigan, by the Apex Motor Corporation in a wonderfully moderate plant. The Factory Distributors for the Pacific Coast are backed by a Million Dollar Concern of the highest financial rating. The ACE has solid backing.
