Just Folks by Edgar A. Guest

THE OLD SOLEMN PARLOR

I want to see 'em romping on the rug and on the chairs,
And I rather like to fancy that the home we keep is theirs;
I like a house that's ready for the things they want to do,
Not one that's stiff and solemn where the furniture is new;
Let 'em bang at the piano, let 'em go it as they choose,
There is nothing here so costly that it wasn't bought to use.
There was once a house I know of, where the parlor door was locked,
And if youngsters stepped inside it all the grown-ups there were shocked.
And if sticky little fingers touched a table or a chair,
There was always trouble brewing, for all things were sacred there;
And back then I made my mind up that when I were older grown,
There would be no solemn parlor in the house I called my own.
Let 'em climb the chairs an' rockers, let 'em wear 'em out in joy,
Let the tables and the sofa show the thumbprints of a boy,
Let a little girl make merry in whatever way she will,
And though furniture grows shabby, I will gladly pay the bill,
For I'd rather chairs are battered, than their hearts should know a bruise,
And I want no grand piano which the youngsters cannot use.

WHEN THE FARMER PAYS HIS GAS BILL

ONE burden our farmers find it hard to escape is their heavy bills for gasoline and oil. You would be astonished to find how these charges mount. Furthermore, such bills must be paid in cash and the money leaves our territory. In more cases than one farmers have found embarrassment in paying for oil and gas this year because of necessity the banks are very conservative with their loans.

Now this subject is one that may be treated from varying angles but certain facts are plain. In relying upon oil and coal for fuel we are all taking chances. Those products are exhaustible and a depleted supply, or prospects of such depletion, enter strongly into the price that is charged. We will learn this more and more as time passes.

The northwest must have its hydro electric power developed and the sooner the better. In the province of Ontario, Canada, electricity is being used freely on the farms, operating many kinds of machinery, including threshers. When developed as in Ontario, with a view to serving the public, electricity becomes the cheapest and best source of power. Its use is being extended all the time as improved devices are brought into use.

Electricity is the ultimate power for the industries of this region, including agriculture. We have sources of power in abundance and to allow this energy to go unused is a reflection upon our ingenuity.

If every time a farmer pays \$100 for gas or oil he will write to a congressman or a senator demanding steps that will bring our "white coal" into use it will not be long until something happens.

GIVE THEM A CHANCE TO CATCH UP

A NEWS story from Ashland says that the committee in charge of the China relief fund has raised fully \$975 and will be over the \$1000 mark soon. Many weeks ago the Umatilla county quota of \$9500 was fully raised and local flour purchased with that money is now upon the high seas en route to China. All this is testimony to the generosity of our people but the question arises if hereafter it would not be well to slow down on such drives until the rest of the country can catch up.

The new manager of the hotel at Crater Lake is Kernel C. Yens Tengwald and it is said the color of his eyes are like the waters of the lake. With such a color scheme the fame of our wonder lake should spread.

Germany will have to work 12 hours a day if it pays its indemnity, says a Berlin socialist paper; the Germans worked 24 hours a day when they were inflicting the damage they are now called upon to settle.

She Was "Ashamed to Ask"

An Elderly Lady, a Widow in Moderate Circumstances, Came in Yesterday and said:

"I haven't very much money and I thought of putting some of it in your Cumulative Preferred Stock, only there is one thing I'd like to know and I'm ashamed to ask it—

Is this investment SAFE?"

"Ashamed to ask"—why, that lady should not have put ONE CENT of her money into ANY investment until she was absolutely and unqualifiedly satisfied and convinced of its SAFETY—that's the very FIRST thing to find out about an investment—

IS IT SAFE?

And THAT'S JUST THE REASON so many of our customers, employers and other folks around here are buying shares of Cumulative Preferred Stock of Pacific Power & Light Company.

Because it's SAFE.

Get a Farm from the CANADIAN PACIFIC RAILWAY

THE Canadian Pacific Railway offers you a great opportunity to own a farm home. Many of these farms have paid for themselves with the first crop. Out of its last big block of reserve farms land you can buy your farm under a plan of long term easy payments that is remarkable in the history of farm investments. The country is ideal for mixed farming and grain growing. Later, the same lands can be bought out from present owners—prices will be higher. Never again in North America will farm lands be offered at prices so low.

Your Last Big Opportunity
Until this land is disposed of the Canadian Pacific Railway offers you the most wonderful opportunity in the world to own a farm, achieve independence and grow rich in Western Canada. It offers to sell you farm lands in the rich open prairie and fertile past lands of the Lloydminster and Battleford Districts of Central Alberta and Saskatchewan or in Manitoba for an average of about \$15.00 an acre.

Twenty Years to Pay—If You Wish
The Canadian Pacific offers you this land under a plan of long term, easy payments. You pay down 10 per cent. Then you have no payments on the principal until the end of the fourth year, then sixteen annual payments, interest is 5 per cent. In central, Saskatchewan—Singer, Whistler, grow the world's prize wheat. World's prize oats were grown at Lloydminster.

No Taxes on Improvements
There is a small tax on the land, but there are no taxes on your live stock, buildings, improvements, implements or personal effects. Good markets, modern schools, roads, churches, amusements, make farm life desirable and attractive. Here you can achieve independence.

No Sale Without Investigation
The Canadian Pacific will not sell you a farm until you have investigated it. You must be satisfied—and every question answered before taking up your home.

Investigation is invited and made easy. Don't delay your investigation. This announcement calls attention to the last great block of Canadian Pacific Reserved Farm Lands.

Special Rates for Home Seekers And Full Information
Special railway rates for home seekers make investigation easy. Send now for free illustrated pamphlets answering all questions and asking for full facts about land values, average yields, climate, opportunities, etc. Do not delay. Write TODAY.
