SENATOR NEWBERRY'S CONVICTION SET ASIDE BY UNITED STATES SUPREME COURT

LAW INVALID IS VIEW SET FORTH IN FINAL DECREE

Senator Was Charged With Illegal Use of Money to Defeat Henry Ford in 1918. SIXTEEN ASSOCIATES WERE CONVICTED AT SAME TIME

U. S. Supreme Court Held Unconstitutional Section Under Which Conviction Was Made

WASHINGTON, May 2.—(U. P.)—Senator Truman H. Newberry's sentence of two years' imprisonment and fine of \$10,000 on a charge of illegal use of money to defeat Henry Ford in the Michigan senatorial election of 1918 was set aside by the United States supreme court. The court held unconstitutional the section of the corrupt practices act under which Newberry and 16 associates were convicted by the Michigan federal court.

Those convicted with Newberry, who received varying prison sentences and fines or both were: John S. Newberry, a brother; Allen Templeton, R. F. Emery, Harry Turner, E. V. Childson, Hannibal Hopkins, James Mc Gregor, Charles Lloyd, Homer M. Andrews, Frederick Cody, Milton Oakman, Richard Fletcher, Fred Henry, William Mickel and George Ladd. Justice McCreynolds read the decision.

WASHINGTON, May 2.—(U. P.)—The senate privileges and immunities committee authorized the sub-committee on the Ford-Newberry senatorial campaign to continue its investigation immediately. The committee, under the direction of Senator Spencer of Missouri, will take the testimony concerning the charges of fraud in the primary and general elections.

PROPOSED MILK ORDINANCE SILENT ABOUT "AGUA PURA"

Licensing of the sale and distribution of milk and cream in Pendleton, inspection of dairies, dairy houses, milk plants, creameries, milk stations and grocery stores of this vicinity, and provision of a penalty for violation of regulations, are some of the points contained in an ordinance drawn up by C. L. Hawley, dairy and food commissioner, and unanimously favored by the Pendleton Milk Producers and Distributors Association at a meeting Saturday in the Farm Bureau office. The ordinance as drafted set no standard of richness for milk to be sold here.

The ordinance, it was decided at the meeting, will be submitted to the city council for passage, after a conference between a committee of dairymen; Dr. F. E. Boyden, city health officer; George Hartman, mayor, and Commissioner Hawley is held some day this week.

Dairymen Take Initiative. It was at the request of the local association that the ordinance was drawn up by Commissioner Hawley. The dairymen, who realize that there is demand for clean milk produced under sanitary conditions and that such an ordinance would benefit producers as well as consumers, are willing to abide by the proposed ordinance although there are many provisions which will put the dairymen to some expense. They went a step further than the ordinance, for in discussing the license fees the dairymen expressed themselves in favor of sufficient fees to contribute a generous amount to the city for the enforcement of the ordinance, which would possibly include the employment of a part-time inspector. No definite fee is named in the ordinance, nor is the penalty stated. These matters will come up later.

Ordinance Far-Reaching. The ordinance provides that before a license is issued, all premises where the milk is produced and handled shall be examined to show that there is adequate equipment properly arranged as required by the regulations. This equipment is to consist of dairy barn, barnyard, milk house, adequate water supply, suitable drainage, and sufficient clean bottles. All dairy cows, the ordinance states, must be free from disease as determined by tuberculin tests and physical examination by a qualified veterinarian, and new animals are to be kept separate from the herd until approved by the state veterinarian after tests and examination. All milk is to be pasteurized or taken from cows which have passed the tuberculin test, the ordinance states. Milk is to be delivered to the ultimate consumer within 24 hours after milking.

Cleanliness Emphasized. Cleanliness is emphasized in several sections of the ordinance, which provide for clean buildings, clean cows and clean surroundings. It is also provided that the persons engaged in milking and handling the milk be clean and healthy. Another provision requires that all utensils, bottles, etc., be kept clean and sanitary. The ordinance states that nothing but wholesome feed shall be fed.

AMERICAN SOLDIERS OF FORTUNE ARE GIVEN 40 ACRES OF LAND EACH

WARSAW, May 2.—(A. P.)—Nine American members of the Kosciuszko air squadron, all soldiers of fortune, recently were awarded 40 acres of land each, near the Polish-Russian frontier as outlined by the Riga peace treaty.

Most of the young flyers of the Kosciuszko squadron are planning to return to America during the summer. If they do not settle upon the land within a specified time, their rights to the farms will be forfeited. As yet none of the Americans has made up his mind to settle down on a Polish plot and lead the life of a peasant. Several of the Americans were reared in the country but they say the excitement of flying and the thrill of war have spoiled them for the back-to-the-farm movement.

MAYOR AND RECORDER SPEND FOUR HOURS IN SIGNING THEIR NAMES

How would you like to spend four solid hours doing nothing except you'd have writer's cramp? Think you'd have writer's cramp before this job was completed?
