AMERICANS IN RUSSIA EAGER TO ESCAPE BUT CAN FIND NO WAY OUT

Choice of Home is Not Permitted in Land of Bolsheviks, Government Assigns Quarters

RIGA, May 11.—(A. P.)—Choice of a home is not permitted in the land of the Bolsheviks, according to persons reaching here from Russia. Everything belongs to the government which assigns living quarters. Special barracks have been assigned to persons from America as soviet authorities consider them unreliable rebels that must be kept apart from others. Everybody knows these Americans by their sad faces and dismal silence. They do not answer if spoken to in Russian, but their faces brighten if some one appears who knows English and especially the American vernacular.

BOLSHEVISM IS NO MENACE TO GERMANY

BERLIN, May 11.—(Carl D. Gross, M. P. Staff Correspondent.)—That Bolshevism has no chance to strangle Germany is the conclusion of neutral observers from the results of the latest red outbreak in mid-Germany and elsewhere. Despite the time-worn cry of various officials that Germany runs the danger of going red—an obvious attempt to influence the outside world—the course of the latest "revolution" shows that Bolshevism or communism is a weak thing in Germany. The mid-German uprising was the first big attempt of the reds to enforce

their regime in Germany since the split of the independent socialist party at Kalls last fall. At that time the ultra-radicals went into the communist camp, with a frank declaration of adherence to Moscow's principles of terrorism and "action."

These principles were given a good tryout here in March and the result is—taken from a world standpoint—negligible as far as showing any tendency toward actual red control in Germany is concerned.

The action was ill-conceived and badly executed. The government easily controlled the situation, mainly with police troops although it did use some regulars toward the last. The suspicion exists—and this is strengthened by my personal observations in mid-Germany—that the government proceeded slowly, so as not to let the outside world picture its task as too simple. And, the police officers everywhere made propaganda for more arms. They constantly referred to the

entente as "swine" for leaving them so disarmed. But it was notable that everywhere they made a quick clean up with small casualties, except at Eisleben, where resistance lasted rather longer and involved some sharp fighting.

The red movement was a complete failure and Moscow has been heaping abuse upon the heads of the red leaders and their followers in Germany ever since the fiasco.

The real truth of the situation—con-

firmed previous statements of this correspondent—is that communism in Germany, while having many followers, is really a weak, unorganized thing, to which the bulk of the German workers are opposed.

The workers have a considerable amount of concealed weapons, but this number is probably exaggerated for propaganda purposes. I saw a house searching in a town outside Mansfeld. This developed only about a dozen rifles, some of them of doubtful age and value.

And, the "siege" of Mansfeld was about as tame an affair as one could imagine. A party of American correspondents trailed the victorious army into Mansfeld. Several companies of police, all armed with rifles and grenades, with trucks armed with machine guns, were in the procession. They know war, and like it. They outmatch the regulars. Their treatment of prisoners is far from gentle. The press has been raising a howl that they have shot down men virtually in cold blood when there was no occasion for it. My personal experience with them is that they are imbued with the old Prussian military spirit, full of bluster, mean to the point of insult, but cringing when faced by courageous opposition. This proved to be the case when they took into custody beside myself, Correspondent Nicholson, of the Philadelphia Public Ledger and Correspondent MacCartney of the London Times.

SHIPPING BOARD TAKES OVER LARGE FREIGHTER

SEATTLE, May 11.—Seizure of the big freighter Colin H. Livingstone from the Congress line and the transfer of the vessel to the Admiralty service by agents for the North Atlantic & Western, under orders of the United States shipping board, furnished a mild sensation on the waterfront this morning.

The crew and part of the engine room crew deserted the ship at this port, but most of them returned when they learned that the liner had been taken over by the shipping board. The Livingstone left port early this morning. No shipping board vessels sailed from Seattle yesterday. The Pacific Steamship company was still endeavoring to sign up a crew for the City of Seattle, which is overdue on her Alaskan run. The Alaskan Steamship company is concentrating men to man the Alameda and the Jefferson, both scheduled to sail north tomorrow.

JUROR PLEADS ILLNESS, BALL GAME IN TOWN

YAKIMA, May 11.—(A. P.)—Charles Bolin, Tappanish attorney, appeared before Judge F. H. Rudkin of the federal district court yesterday for a juror who wished to see the opening game of the Yakima Pacific International club.

"My friend is ill—that is, he has been ill. He is convalescing—if that's the right word, Judge," Mr. Bolin explained.

"If it is the right word, Charlie," said the court. "The only question is, is it the truth?"

The juror was excused for the afternoon.

Record Course

Teeling off from Fort Morgan, Col., Miss Pauline Trumbo is golfing her way across the country to present her golf sticks to President Harding in Washington, May 19. The Fort Morgan post of the American Legion presented the sticks to her.

noon with an understanding that he would not "convalesce" to far.

DUELISTS OF TEXAS BOTH NEAR DEATH
FORT WORTH, Tex., May 11.—Gus Street, 32, is dying today with five bullets in his body and James G. Legros, 36, of El Paso, is probably fatally wounded, shot three times, as the result of a revolver duel at Main and Sixth streets last night.

OREGON HIGH SCHOOL WILL SEND DEBATERS

UNIVERSITY OF OREGON, Eugene, May 11.—Twenty-two high school elimination debates will be in progress Wednesday, May 18, on the Oregon campus. The debaters are the county winners in the state-wide debate contest that was held during the past school year. The Junior week-end contest will be run off as speedily as possible, said John C. Almack, secretary of the debate league, in order that the championship debate may be held some time during Friday.

There was some disagreement among the members of the league as to whether spectators should or should not be admitted to the debates but it has been finally settled that all spectators will be admitted to any of the debates free. Judges are to be chosen from members of the University faculty by request of the debaters. Just what professors will act in this capacity has not been decided, Mr. Almack states.

The question to be debated this year is: Resolved, that the federal government should own and operate the railroads of the country. This subject was decided upon by the officers of the debate league, who are A. C. Strange, superintendent of schools of Astoria, president; Mr. Almack, secretary; President Campbell, Miss Cornelia Marvin, state librarian at Eugene, and J. A. Churchill, state superintendent of schools. Mr. Strange will be on the campus at the time of the Junior Week-end tryouts.

FIRST CLASS NUMBERS 11.
Eleven students will receive diplomas in the first graduating class of the University high school, on June 2. All expect to enter the University next fall.
