Exporting of Grain And Cotton Show Gains

WASHINGTON, May 18.—(A. P.)—Grain and flour exports increased slightly during April, compared with last year, while cotton exports slumped heavily. Foreign trade figures issued today by the department of commerce disclosed:

Exports of grain and flour totaled \$48,266,219, against \$52,893,951 a year ago and \$46,882,069 for the ten month period against \$67,523,274 in 1920.

Cotton exports in April aggregated 219,923 bales of 165,645,477 pounds, with \$26,543,657, as compared with 246,122 bales of 277,752,040 pounds, valued at \$117,335,529 a year ago. For the ten months this year exports totaled 4,426,122 bales of 2,311,616,092 pounds, worth \$339,026,697 against 6,290,065 bales of 3,238,727,851 pounds, valued at \$1,224,967,948 in 1920.

April meat and dairy products exported aggregated \$28,624,524, compared with \$40,814,913 in April a year ago and \$357,416,263, against \$671,163,632 for the ten months.

Wheat exports during the month aggregated 17,611,424 bushels, worth \$28,374,329, compared with 4,175,876 bushels, valued at \$19,874,163 in April 1920.

Exports of corn for April aggregated 10,425,676 bushels, worth \$8,216,364, compared with 1,147,932 bushels, valued at \$1,955,284 in April 1920.

Buying By Easterners Gives Wheat Boost

CHICAGO, May 18.—(A. P.)—Wheat averaged higher in price yesterday largely as a result of buying by houses with eastern connections. The finish was unsettled at the same as yesterday's finish to 1-2 advance, with May 1-4 to 1-4 1-2 and July 1-15 1-4 to 1-15 1-2. Corn lost 5-8 to 7-8, oats 2-8 to 3-4 and provisions 2 to 2 1/2.

Sharp advances took place during the first part of the day, but were practically wiped out in the latter trading. The eastern buying which carried values upward was ascribed for the most part to a prominent speculator, who apparently had been short and who had changed his position. Neagerness of the visible supply total and of the stock on hand here facilitated the upturn in values. Subsequent heavy selling was ascribed more or less to profit taking and to a setback in the price of May delivery at Winnipeg where there was said to be free country selling, owing out of support in the corn market here count-

ed also as a bearish factor in wheat toward the last.

Weakness which developed in prices for corn and oats seemed to be due to enlarged rural offerings of corn, the result of the fact that corn planting is nearing completion.

Increased supplies of lard here had a bearish effect on provisions.

Rails Uncertain On Dull Market

NEW YORK, May 18.—(A. P.)—Yesterday's operations in the stock market were perfunctory and dull.

Meagre public participation seemed restricted to the selling side. Some rails suffered additional moderate losses as a result of pessimistic views uttered by transportation officials and believed to foreshadow more divided readjustments.

Similar conditions applied to many steels, equipments, motors and other issues.

Although call money held at seven per cent, shorts were driven in before the close by purchases of local traction issues, as well as gas issues, copper and shippings. Final prices in most instances were considerably above lowest levels. Sales amounted to 378,000 shares.

Continuance of the holiday period abroad detracted from activity of foreign exchange. Except for the Dutch rate, all important international remittances were firm to strong.

Foreign issues were the most conspicuous features of the bond market. Chilean 5's reacted on dissolution of the underwriting syndicate and Mexicans lost ground with French municipals. Domestic bonds were steady, although the liberty group showed further irregularity. Total sales, par value, \$10,750,000.

Domestic bonds were steady, although the liberty group showed further irregularity. Total sales, par value, \$10,750,000.

Urges Need of Meeting Foreign Needs

NEW YORK, May 18.—(A. P.)—Pressing need of stabilizing foreign exchange and the necessity of American exporters making greater efforts to sell what foreign importers want, in order to build up American trade, were pointed out to the National Association of Manufacturers today by representatives of several foreign countries.

T. C. Suez, Chinese consul here; Dr. Julio Bianchi, minister from Guatemala; Sadigh-Es-Saltaneh, minister from Persia; Dr. R. H. Elizalde, minister from Ecuador, and Ambassador Ricci of Italy outlined trade conditions with their countries.

The note principally stressed by each was the depressing influence of unfavorable exchange rates.

Employment Increases In Eight Industries

WASHINGTON, May 18.—(A. P.)—Increased employment in eight major industries and decreases for the remaining six reported, was shown in labor department figures today for April. The largest increase was in the automobile industry at 25.2 per cent; others being woolen 22.3 per cent; hosiery and underwear 7.6 per cent; men's clothing 7 per cent; silk 5.2 per cent; cigars 5.6 per cent; cotton finishing 1.7 per cent, boots and shoes .8 per cent.

Decreases were car building and repairing, 12.3 per cent; iron and steel 9.7 per cent; leather workers 11.3 per cent; paper making 11.4 per cent; coal mining .3 per cent.

Legion of Loggers Votes Wage Reduction

PORTLAND, May 18.—(A. P.)—Wage reduction of seven and a half cents an hour was voted late yesterday by the board of directors of the Local Legion of Loggers and Lumbermen, effective June 1st. The minimum was fixed at \$3 for common labor and will apply equally to both sides of the Cascade mountains. Higher paid workers will be reduced in proportion. Allen employes on logging camps railroad work were reduced a further five cents an hour.

DROP IN MARKET PRICES

PORTLAND, May 18.—(A. P.)—Cattle are 25 cents lower, choice steers \$8.25 to \$9.50; hogs are 25 cents lower, \$9.25 to \$9.50; sheep are 50 cents lower, prime lambs \$7 to \$7.50.

OUTBURSTS OF EVERETT TRUE

UNUSUAL SIGHT SEEN AT MOUTH OF COLUMBIA

ASTORIA, Ore., May 18.—(U. P.)—Astorians who were admiring the sunset across the great harbor at the mouth of the Columbia river were recently treated to a rare sight when the schooner Edward R. West, with all sails drawing, came sailing out of the sunset, to drop anchor off the city.

Wholly unassisted, the windjammer accomplished what is considered impossible in most seaports, and came the whole distance into harbor under sail. Under ordinary circumstances a sailing vessel cannot enter a port without the aid of a tug, because few channels will permit the lacking necessary, the wind is seldom exactly favorable and the river currents are likely to swing it from its course.

The channel at Astoria was deep and wide enough to permit the West to come in when she found no tug available at the time she reached the entrance to the harbor. The schooner sailed the distance of 12 miles from the open seas into Astoria in less than two hours.

day and colder," and then adds: "Weather unsettled."

Tut, Tut
Mary has a little calf,
As white, almost as snow—
Her hose are made of skeeter net,
And that is how I know.

Germany says that if she pays her debts she will be broke, which makes Germany one of a good sized crowd.

The Official was surprised to see "The Smallest Man in the World" at the circus last night. The O. C. thought the S. M. I. T. W. was the fellow who left town at house cleaning time.

Hooked!
That old, old "rag" the shell game, relieved Joe Grinde of the O. K. Barber Shop of five good bucks last night. Joe was down at the circus, and saw a chance to make money a lot faster than he could by cutting hair. Witnesses declare he came mighty near tearing his pocket, so eager was he to put up his money. "The fiver" faded away, however, and yesterday morning, Joe did likewise. He remained at the shop only five minutes and bled himself to the rippling brook where there are other fish.

So Much Wasted Effort
Milton, Ore., May 17.

Sir:
We read in the Milton Eagle that in the high school graduation class, "Miss Opal Kicker was second highest." The blame for this, we venture to state, should be placed upon the physical training instructor.

U. TELLUM.

Are They Osteopaths?
By the way, Turner & Patter is the name of a firm in Bucyrus, Ohio.

They Feather the Nest
The Official thought that Security couldn't be improved upon as a name for an apartment house until he heard of the Downey Apartments.

The Dam Truth is the title of a new Arizona publication. We were tempted to contribute until he learned that it refers to irrigation.

Hellup!
On days when the brunette l. e. and the blonde s. e. chew gum the cringing Official is of the opinion that these reforming guys who advocate abolishing the dear old jimmy pipe have only got started in their good work.
