PORTLAND, May 13.—(A. P.)—Cattle are weak, hogs are steady, sheep are slow. Eggs and butter are steady.

**THE EFFICIENT WOMAN**  
We hear a great deal nowadays about the efficiency of women. In the novels of fifty years ago, who ever heard of a woman praised for her executive ability, force, and energy, in the sense that it is used today? The frail, delicate, helpless ideal of womanhood has passed away. How it is possible to measure up to the ideals of modern womanhood? In the first place, we must keep our bodies in the best possible condition.

Thousands of women have succeeded through daily baths, exercise in the fresh air, and Lydia E. Pinkham's Vegetable Compound at the first sign of female weakness.

**CRACKERS and COOKIES**  
The consumption of crackers and cookies has trebled in the past few years. It is only recently that the cracker industry has attained perfection. Today machinery grinds the golden grains of our vast domain into the most delicious foods with hardly a touch of the human hands. The very goal of sanitation and cleanliness.

You will be more than satisfied with SNOW FLAKE SODAS, matchless crackers and cookies of every description. Nothing better for the picnic.

The case of Oron O. Felthouse against the Oregon Washington Railroad and Navigation Co. which was pending in circuit court, has been dismissed by order of Judge G. W. Phelps. The suit was for damages to the amount of \$5,735 sought by the plaintiff as a result of damages alleged to have been caused when a truck owned by him was caught between moving cars and demolished.

**Many to Take Exams.**  
It became known today that in the event an examination is held here to fill the local postmastership there will be quite a few taking the examination. This will include a number of men in the service and a number who are now engaged in other lines of work. It is understood that Thomas Thompson, who has Congressman Slinnett's backing for the place will be among those taking the tests. Under the law, however, the Postmaster General has the right to appoint Postmaster Cronin without further examination if he desires, as Mr. Cronin has already passed the examination and received a civil service appointment under President Wilson.

PORTLAND, May 18.—(U. P.)—The jury awarded Mrs. Lena A. The widow asked \$7,500. He was killed on a slight pretext, she asserted.

C. Jewett, Vice President of the United States Grain Growers, Incorporated.

Oregon, Washington, Idaho and Montana wheat growers decided within the last week to follow this plan. 1200 Oregon growers have signed 4,000,000 bushels of wheat for marketing under this plan within the last three months. 8500 growers in the northwest have signed for more than 28,000,000 bushels.

Operating in conjunction with United States Grain Growers, the Oregon Co-operative Grain Growers Association will obtain for the grower large benefits from the Finance and Export Corporation of the National Association.

Come out and hear it explained. Watch this space for future announcements.

C. Jewett, vice-president of the national organization will speak.

The meeting is one of a series of several that have been held during the past few weeks when the question of wheat marketing has been discussed pro and con, it is said.

Edgar L. Ludwick, state organizer of the state body, arrived this morning and he declared that the Oregon association has no desire to fight the county farm bureau on its action.

Mr. Jewett is going to tell what he knows about the movement and explain its advantages. After his tour of the country he will have field men who will make a canvass of the farmers to sign up as many as they can.

Other meetings will be held in the county. Tomorrow night Mr. Jewett will speak at Pilot Rock, Friday afternoon and evening he will be at Helix and Athena and Saturday afternoon and evening he will be at Weston and Athena.

Mrs. Nancy Westcott, of Syracuse, N. Y., who declares Tanlac is the greatest medicine on earth. Says it built her up to where she is just brimful of new life and energy.

"I just think Tanlac is the greatest medicine on earth and I can never praise it enough for what it's done for me."

"For two years I was in a badly run-down condition. I had no appetite, and after every meal I would be in awful distress from indigestion and bloating. My nerves were on edge, and I could never get a good night's sleep. I felt tired and worn-out all the time, was losing weight, and many times I was so weak I couldn't look after my housework. I just felt miserable."

"Tanlac helped one of my friends so much that I began taking it and it has certainly built me up into splendid health. My appetite is so big I can hardly get enough to eat now, and I am never troubled a particle with floating or indigestion. My nerves are as steady as clockworks, and I sleep like a child at night. I have recovered my strength and am just brimful of new life and energy. In fact, I feel better than I have in years. My gratitude toward Tanlac is unbounded."

The above statement was recently made by Mrs. Nancy Westcott, 121 Market St., Syracuse, N. Y.
