EASTERN SCHOOLS DODGE WHEN QUESTION OF MEETING WESTERN ATHLETES AT CHICAGO BROACHED

Records of Boys From 'Wild and Woolly' Section at Penn Puts Fear in Wary Coaches.

NEW YORK, May 18.—(Henry L. Farrell, U. P. Staff Correspondent.)—Western athletes who came to the Penn relays and gave the east a trimming probably will have to be content with those laurels for the season. Eastern coaches say "for several reasons" they cannot journey west to Chicago on June 11 and meet the westerners in their own haunts at the University of Chicago's national collegiate championship meet.

Rules for the meet limiting the entries to eight men from a single college will make it "inadvisable" for the big eastern schools to go west, several of the coaches say.

If western coaches had seen the same disadvantages in entering a small team, the Penn relays would have been of an exclusive eastern color, which, however, might have been more to the liking of the east, since the small band of westerners made such a wonderful showing.

Not a western school at the "relays" had more than eight entries, some of them had two men in some only four. Yet the west scored first, second and third in the discus; first in the shotput; first in the four mile relay; first and second in the high jump; first in the four mile relay; first and second in the high jump; first, third and fourth in the pole vault, and seconds in the 100 yard dash, 120 yard hurdles, the javelin and the two-mile relay.

It is hard to tell what would have happened to the east if the west had sent an entire team to the relays as the east wants to do in the "nationals."

Eastern coaches say it would cause hard feeling among their teams if they were to select only eight men from the entire squad to go west.

"Suppose twelve of my men were point winners at the eastern intercollegiate and I could take only eight men west—what would the other four think?" one prominent coach asked.

Results of the Penn relays were conclusive enough to show that the west is coming forward strong in another branch of sport at that eastern domination of the track, existing for so long, will be another victim of the west within a short time.

SPALDING COLLECTION OF DATA GIVEN AWAY

SAN DIEGO, May 18.—(A. P.)—Announcement was made here yesterday by Mrs. Elizabeth C. Spalding, widow of the late A. G. Spalding, who for years was a leader of baseball and later a manufacturer of equipment used in the playing of the national game, that the extensive Spalding baseball library has been given to the public library of New York city. A letter from E. H. Anderson, director of the New York public library, accepts the gift and expresses appreciation.

For several years before his death in 1915, Mr. Spalding gave attention to collection of data on the subject of baseball. This accumulation of data was in the form of extensive correspondence, official records of old time games, reports of important sessions of the early organizations, memoirs of distinguished players and managers and rare old photographs, all constituting a comprehensive story of baseball and said to be the fullest compilation on this subject in existence.

Several of the foremost universities of the country coveted this library but in giving it to the public library of New York city, Mrs. Spalding says she believes that it will be placed where it will be most accessible to the greatest number of lovers of the national game.

SACS BEAT SEALS.
SAN FRANCISCO, May 18.—(A. P.)—San Francisco was unable to hit effectively yesterday in spite of having plenty of men walked, and Sacramento won, 4 to 3. Sacramento won the game in the fifth inning when with the bases full, McQuaid walked McGuffey. The visitors knocked Scott out of the box in the fourth inning and the Seals gave Niehaus the same treatment in the following frame.

SLAM FOUR PITCHERS.
SALT LAKE, Utah, May 18.—(A. P.)—Vernon won the opening game of the series here yesterday, 8 to 5. The locals used four pitchers in their attempt to stay the slugging Tigers, but none of them was much of a puzzle. Pete Schneider hit two doubles and a triple. The visitors made 17 hits for a total of 23 bases.

You'll enjoy the sport of rolling 'em with P. A.!

FIRST thing you do next—go get some makin' papers and some Prince Albert tobacco and puff away on a home made cigarette that will hit on all your smoke cylinders!

No use sitting-by and saying maybe you'll cash this hunch tomorrow. Do it while the going's good, for man-o-man, you can't figure out what you're passing by! Such flavor, such coolness, such more-ish-ness—well, the only way to get the words emphatic enough is to go to it and know yourself!

And, besides Prince Albert's delightful flavor, there's its freedom from bite and parch which is cut out by our exclusive patented process! Certainly—you smoke P. A. from sun up till you slip between the sheets without a comeback.

Prince Albert is the tobacco that revolutionized pipe smoking. If you never could smoke a pipe—forget it! You can—AND YOU WILL—if you use Prince Albert for packing! It's a smoke revelation in a jimmy pipe or a cigarette!

Prince Albert is sold in tippy red bags, tidy red tins, handsome pound and half pound tin humidors and in the pound crystal glass humidors with sponge moistener top.

HART SAYS CANUCK MEN TO BENEFIT BY TREATY

WASHINGTON, May 18.—(A. P.)—The pending treaty between the United States and Great Britain to regulate Sockeye salmon fishing in the waters of British Columbia and the state of Washington would operate to the benefit of the Canadian fishermen and injury of American fishermen, the senate foreign relations committee was told yesterday by Governor Hart of Washington and Senator Jones of the same state.

They declared that the treaty would regulate fishing only in part of Canadian waters while it would restrict fishing in all Washington sockeye waters. Governor Hart argued that the treaty was unnecessary because Washington has enacted new laws which would protect the salmon.

TRAINS MAKE CURVE.
BERNE, May 18.—(A. P.)—Electrically operated trains on the main line at Gollard and Loet are making part of the current they consume. On test, grades were gravity in the five force, electricity is generated so successfully that there is an estimated saving of 25 to 30 per cent in current.
