TO CONTINUE FIGHTING WHETHER HE WINS OR LOSES FRENCHMAN SAYS

Carpentier Changes His Mind About Retiring From Ring After Fight With Dempsey.

NEW YORK, May 19.—(Henry L. Farrell, U. P. Staff Correspondent.)—Georges Carpentier will not retire from the ring after his fight with Dempsey for the world's championship, Francis Dempsey, his manager, said here today.

"Carpentier first considered retirement from the ring after the battle of his life, but he has changed his mind," his manager and trainer said.

"Win or lose, Georges will continue to meet all comers from either side of the water. He will maintain his training camp at La Guerche (a suburb of Paris), making his home in Paris as at present.

"If he wins, he will defend the world's title against all challengers. If he loses, he will defend his present title as light heavyweight champion of the world."

Shortly after Carpentier was married it was announced by the Frenchman that Mme. Carpentier didn't like the idea of having her husband knocked about by strange men and that he would retire from the ring after meeting Dempsey.

"This was considered a very logical step, since it was thought that Carpentier, being in no need of remuneration from his ring activities, was merely seeking glory and that he would win no prestige by losing to Dempsey.

"Cynics on this side of the water wailed—"If he wins, of course, he will retire. The title will be put on cold storage in Paris with the national relics and it will never be fought for in his day."

Public opinion more than anything else forced Carpentier to waive the objections of his wife and remain in the ring, according to Dempsey.

"When the announcement of his retirement was made in France, his countrymen raised such a chorus of protest that he was forced to retract his statements.

"Friends of Georges said it would be a shame for him to cut his career short just when he was in his prime for sentimental reasons. They also pointed out that he belonged to his

country and that he had his nation to consider more than himself.

"So, all in all, Carpentier has decided to stay in the ring. He will have time to take care of his extensive business enterprises between fights.

"Although he was sincere in his intentions to quit the game, I felt all along that he would be unable to do it as he has made boxing his life's work. He has been in the ring since he was fourteen years of age and the game has worked such a fascination on him that perhaps he will never

BRITISH PLAYERS ALL SET FOR STIFF FIGHT

LONDON, May 19.—(A. P.)—The main topic of interest of the moment in British golfing circles is what will be the outcome of the match to be played Saturday at Hoylake between American and British teams. Experts are generally agreed that Great Britain will have to put forward her strongest contingent of golfers. The teams will be made up of eight men on each side.

It is generally assumed that places one the local eight will be given to the amateur champion, Cyril Tolley and E. W. E. Holderness, a favorite for the coming championship and M. W. Seymour, who recently won the Golf Illustration Gold Vase.

Of the American players a great impression has been made by Jesse Gullford of Boston and Dr. Paul D. Hunter of Los Angeles, both of whom have made Hoylake links in 72, one stroke above the record. British experts are of the opinion that Charles Evans, Jr., American national amateur champion, Francis Outmet of Boston and Bobby Jones of Atlanta, will prove worthy opponents for any men that Great Britain selects.

In fact, all the players on the team of Captain W. C. Fownes, Jr., are of a class which will enable him to put a team into the field having no apparent weakness.

SEALS BEAT SEATTLE.
SAN FRANCISCO, May 19.—(A. P.)—San Francisco defeated Seattle, 5 to 4, in a fast game yesterday. Seattle nearly overtook the Seals in the fifth by knocking Lewis out of the box after three runs had been scored, finally evening the score in the eighth.

Read your instruction book

It says—

Old oil should be drained from the crankcase at regular intervals and replaced with fresh oil.

This statement is made because engine operation causes road dust, carbon, fine metal particles and other impurities to accumulate in the crankcase oil. The gritty oil circulates through the engine, impairing its performance, and ultimately leads to rapid depreciation and repairs.

These careful instructions from the manufacturer are often disregarded; cleaning the crankcase is a job generally disliked.

To meet this need Modern Crankcase Cleaning Service has been established by first-class garages and other dealers co-operating with the Standard Oil Company. These garages and dealers use Calol Flushing Oil, the scientific agent that cleans out old oil, dirt, grit and other impurities and does not impair the lubricating efficiency of fresh oil used. The cleaned crankcase is refilled with the proper grade of Zerolene.

Look for the garage or dealer displaying the sign shown below,—it means "Better operation and longer engine life."
