Strength comes from well digested and thoroughly assimilated food. Hood's Sarsaparilla tones the digestive organs, and thus builds up the strength. If you are getting "run down," begin taking Hood's at once. It gives nerve, mental and digestive strength.

MARINE MEN WILLING TO ACCEPT WAGE CUT

PORTLAND, May 20.—(A. P.)—Marine strikers and sympathizers here last night attacked the members of the crew of the steamer Coaxet, which is loading here, and threw some Filipino members of the crew into the Willamette, according to affidavits presented to the United States District Attorney Humphreys by J. H. Piltz, fleet captain of the shipping board. Humphreys said that on the basis of the affidavits he would ask an injunction in the federal court this afternoon against picketing the waterfront.

Will Ask Injunction

PORTLAND, May 20.—(U. P.)—Waterfront trouble broke out anew at Victoria Dolphins, where the shipping board vessels, awaiting non union crews are berthed, during the night and early today. Several Filipino strikebreakers were thrown into the river. None were drowned. Others were badly mauled by the raiding party which boarded the steamer Coaxet. The police ended the riot, the fourth within a week. District Attorney Humphreys will ask the federal court today for an injunction preventing picketing and interference.

CLIMBING OUT

LOCAL SPEAKER GIVES PRAISE TO U. OF O.

Thomas Murphy, formerly a student at University of Oregon where he was president of the sophomore class, spoke before the student body of the Pendleton high school this morning in observance of University of Oregon Day.

Mr. Murphy, in an excellent address, pointed out that with the recent acquisition of $900,000 through the millage tax, the college is now rated with the leading institutions of the United States and is worthy of the consideration of prospective students.

"The University," said Mr. Murphy, "is concentrating on several schools which are a part of the college. For example, there is the school of business administration, formerly the school of commerce. Here students are trained in business lines and equipped to enter commercial life.

Cites Local Papers

"Another school is the school of journalism, where training in the newspaper field is given. Each of the local papers employs former students of this school. Edison Marshal, author of "The Voice of the Pack," and one of the foremost novelists and short story writers of the day, received his early training in this school. Advertising, one of the big factors in business today, is also taught in the school of journalism."

Other Schools Mentioned

Mr. Murphy mentioned also the premedics school, the school of military science and the school of law, and the emphasized the new school of engineering from which three year credits will be accepted at big engineering schools in the United States, enabling students after completing the three-year training to enter other engineering colleges as seniors.

The speaker touched upon the remarkably fine equipment of the Woman's Building and said that the building is one of the best of its kind. He made a plea for the University of Oregon for Oregon people, saying that faculty members count the friends made at college as 40 percent of a college education.

Urges Attendance

"Why not make these friends in your own state?" said Mr. Murphy. "If you attend the University of Oregon, the friends made there are the people of your own state and you will meet them in after years."

H. J. Warner, local attorney, introduced Mr. Murphy and in a brief talk, stated that students should give both the University of Oregon and O. A. C. careful consideration before choosing any other college. He stated that the two schools offer the best training available.

Mr. Warner paid a tribute to Mr. Murphy, saying that he was very active in student affairs at the University, and was known for his loyalty to both high school and college, as well as for his patriotism during the recent war, he having been one of the first of the Umatilla county men to enlist.

Chronic Constipation

This conditions is usually brought on by neglect. Neglect to drink as much water as a healthy person requires, which is three pints each day. Neglect to take enough exercise to keep the body in a healthy condition. Neglect to establish a regular habit of having the bowels move once each day, whether there is an inclination or not. It is obvious that to cure chronic constipation, you must first correct your habits. Chamberlain's Tablets are excellent but will not cure you permanently, when these neglects are persisted in. Begin now. Get well and stay well.

Stomach Troubles

"I have never found anything so good for stomach troubles and constipation as Chamberlain's Tablets. I have used them off and on for the past two years. They not only regulate the bowels but invigorate the liver and keep one's body in a healthy condition, writes Mrs. Benjamine Hoffer, Auburn, N. Y.

Dislocated Her Shoulder

Mrs. Johanna Soderholm, Fergus Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back in place as soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's Liniment advertised for sprains and soreness and she asked him to buy a bottle of it, which he did. It quickly relieved the pain and soreness and enabled her to sleep, which she had not done for several days. If you are troubled with rheumatism, give Chamberlain's Liniment a trial. It is excellent.

For a Bad Cough

When you can not sleep for coughing, take Chamberlain's Cough Remedy. It will allay the irritation of the throat and make sleep possible. It contains no opiate.
